Particularly Vulnerable Tribal Groups of India Swapan Kumar Kolay and Nilanjan Khatua, 2024-01-01 This publication primarily focuses on various livelihood patterns of different PVTGs in India. It also critically examines the impact of different development programs on these vulnerable groups through 31 chapters arranged into five broad headings such as I Tribal Ethnography II Ecology Economy and Tribal Identity III Socio cultural Beliefs and Practices IV Tribal Health Food and Nutrition and V Tribal Development and Tribal policy. The lack of effective implementation of various development programs has deprived them of enjoying the benefits of development. The learned contributors to the volumes have touched upon many important aspects of livelihood patterns health food and nutrition that need immediate attention from the government and development agencies on issues of the PVTGs. These two volumes are the outcome of a modest attempt by the authors to update the status of traditional occupations and change the livelihood of Particularly Vulnerable Tribal Groups in India. Vulnerable Tribal peoples often have much in common with other neglected segments of societies i.e. lack of political representation and participation economic marginalization and poverty lack of access to social services and discrimination. They strive for recognition of their identities their ways of life and their right to traditional lands territories and natural resources. These volumes will be useful for anthropologists social scientists administrators policymakers planners and students of social sciences interested in understanding tribal ethos and world views. **Tribal Society** Mr. Rohit

Articulating and imagining the meanings of home one's own or those of others is often an act of confronting one's vulnerability. Metaphorical or real homes are necessarily messy worlds that inevitably collide and telescope into each other as their geographical boundaries often intersect and overlap. The contributors to this volume in their different ways upend the idea of home as a unit of stability familiarity and familiality emptying out its significance as a place of nostalgic refuge to which one can always return. The ostensibly common universal idea of home is often unhinged they show by the conditions of violence that underpin relations within that space. Focusing largely on the Northeastern region often bound together in some way ethnically and geographically this anthology illuminates how political climate as well as

geographic sites transform homes How then may we re imagine home when its significance as a space and place of refuge loses meaning Homeward engages with the boundaries and constraints imposed by messy cartographies and attempts to evoke a poetics of space through the act of writing
