**On Systemic Balance** M. A. Goldberg, 1989-10-06 Arguing that society has pursued short run approaches to decision making that in the long term are counterproductive *On Systemic Balance* presents a multidimensional and interdisciplinary alternative to problem solving The usual method of dealing with problems such as housing shortages and environmental protection is a narrow simplistic quick and intrusive solution This type of solution ultimately ignores the many interrelationships within a system The long term effect is imbalance and destabilization The author reinforces his argument with economic and environmental examples He then introduces alternative approaches to decision making and applies them to several settings By stressing slow incremental intrusions regard for interrelationships and longer term balance the author suggests that we might redefine problems more appropriately develop less harmful and more enduring solutions and provide a more stable environment Goldberg maintains that we cannot truly predict the consequences of our actions particularly large scale actions taken over a short period of time He presents his argument first by equipping the reader with a set of multidisciplinary tools and second by demonstrating the poor results of our present decision making style He then introduces an alternative approach which borrows from biology economics management and anthropology and applies it to three distinct settings

**Handbook of Globalization, Governance, and Public Administration** Ali Farazmand, Jack Pinkowski, 2006-07-25 Globalization transcends borders and cultures as it develops both from the natural flow of information and communication technologies and as a directed and driven quest for global hegemony by self serving corporations and world political heavyweights It bears a multifaceted web of influence that manifests in inequalities in growth prosperity and

**General Technical Report PNW-GTR**, 2002 *The Local Agenda 21 Planning Guide* International Development Research Centre (Canada), International Council for Local Environmental Initiatives, 1996 *Local Agenda 21 Planning Guide* An introduction to sustainable development planning *Linking Industry and Ecology* Ray Côté, James Tansey, Ann Dale, 2015-08-01 It might at first glance seem to many that industry and ecology make strange bedfellows For proponents of sustainable development however such a union is crucial How else are we to make the industries that are so central to modern societies consistent with our visions of a sustainable future *Linking Industry and Ecology* explores the origins promise and relevance of the emerging field of industrial ecology It situates industrial ecology within the broader range of environmental management strategies and concepts from the practices of pollution prevention through life cycle management to the more fundamental shift toward dematerialization and ecological design The book makes a compelling argument for the need to think ecologically to develop innovative and competitive industrial policy The contributors to this volume draw on their experience in a variety of disciplines to chart a clear path for industrial ecology Their work not only affirms what has been learned to date in this nascent field but also provides new insight for a discourse traditionally dominated by natural scientists and engineers by demonstrating that technologies are socially and politically embedded

*Achieving Sustainable Development* Ann Dale, John B. Robinson, 2011-11-01 The recent United Nations Conference on the Environment and Development popularly known as the Earth Summit was a milestone event for sustainable development In dealing with ecological and developmental issues concurrently it brought the international environmental agenda to the fore Canada was the first industrialized country to announce that it would be a signatory to the Biodiversity Convention and by furthering future forestry and global warming conventions it played an important leadership role *Achieving Sustainable Development* explores how well Canada has met the Earth Summit's targets and attempts to find ways in which the public can become involved in such issues Its authors stress the importance of integration of information from various fields and seek to stimulate the exchange of knowledge among the academic community government non governmental organizations and industry The contributors look far beyond merely identifying and analyzing selected issues and problems To facilitate public discussion and to affect policy development at least one initiative is proposed and detailed for each problem identified *Achieving Sustainable Development* provides an overall introduction to critical subjects in sustainable development industrial growth women institutional arrangements industrial practices and aboriginal peoples Most importantly it argues for the immediate development of a research and policy agenda for Canada and suggests mechanisms for its implementation
