Excerpt from *Town Planning in Practice* An Introduction to the Art of Designing Cities and Suburbs Occurred to me that it would probably be of use if some of the maps photographs and other material which I had collected during some years study and practice of what I have ventured to call the art of town planning could be put together and published Hence this book The spare time at my disposal has only enabled me to deal in an introductory and imperfect manner with the different points raised but I am hopeful that those who do me the honour to read the text will find it at any rate sufficient to help them to glean from the illustrations many of the valuable suggestions which I believe them to contain I have made free use of ideas gathered from many sources which it is impossible for me to acknowledge in detail but I would like here to express my indebtedness to those with whom I have collaborated particularly to Mr Barry Parker also to Mr Edwin L Lutyens whose suggestions in connection with the Hampstead Garden Suburb work have been invaluable My thanks are due to many whose writings on the subject I have found helpful Mr Horsfall Dr Stiibben Mr C Mulford Robin son Professor Geddes Mr Phene Spiers Professor Schultze Naumburg Mr Halsey Ricardo Mr Reginald Blomfield to mention the names of a few only of those of whom I think with gratitude in this connection I would like also to record my appreciation of the way in which my requests for permission to use valuable illustrations and other material have throughout been met These are I hope all acknowledged in their places I am particularly indebted to Dr Stiibben and to the editor and publisher of *Der Stadtebau* also to Herr berlepsch valendas and to the officials of many German towns who have given me the greatest assistance at different times and have always been willing to help an Englishman to understand their town planning methods and to profit by their experience Last and by no means least my acknowledgments are due to many of the members of my own staff who have co operated with me in various ways Without Mr Wade s charming and imaginative pictures and the very useful illustrative sketches made by Mr Mottram or wanting the numerous diagrams prepared by Mr Hollis and others the book would have been but imperfectly illustrated About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections

successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Town Planning in Practice.
