Cole,Nancy D. Connell,2012-08-06 Local Planning for Terror and Disaster gives voice to experts in key fields involved with local preparedness assessing the quality of preparedness in each field and offering directions for improvement Introductory chapters provide overviews of terror medicine security and communications which

are indispensable to successful preparedness while subsequent chapters concentrate on a particular field and how responders from that field communicate and interact with others during and after an event. Thus a chapter by a physician discusses not only the doctor's role but how that role is or should be coordinated with emergency medical technicians and police. Similarly chapters by law enforcement figures also review police responsibilities and interactions with nurses, EMTs, volunteers and other relevant responders. Developed from topics at recent Symposia on Terror Medicine and Security, Local Planning also encompasses aspects of emergency and disaster medicine as well as techniques for diagnosis, rescue, coordination and security that are distinctive to a terrorist attack. Each chapter also includes a case study that demonstrates preparedness or lack thereof for a real or hypothetical event including lessons learned, next steps and areas for improvement in this global era which increasingly calls for preparedness at a local level. *The 9/11 Encyclopedia* Stephen E.

on Terror and American Popular Culture Andrew Schopp, Matthew B. Hill, 2009 The War on Terror and American Popular Culture is a collection of original essays by academics and researchers from around the world that examines the complex interrelation between the Bush administration's War on Terror and American popular culture. Written by experts in the fields of literature, film, and cultural studies, this book examines in detail how popular culture reflects concerns and anxieties about the September 11 attacks and the war those attacks generated, how it interrogates the individual and collective impacts that war has wrought, how it might challenge or critique current policy, and how it might reinforce or endorse the war and its sociopolitical paradigms.
