**Defending the Society of States** Jason Ralph,2007-05-31 This book is among the first to address the issues raised by the International Criminal Court ICC from an International Relations perspective By clearly outlining a theoretical framework to interpret these issues Ralph makes a significant contribution to the English School s study of international society More specifically he offers a concise definition of world society and thus helps to resolve a longstanding problem in international theory This groundbreaking conceptual work is supported by an in depth empirical analysis of American opposition to the ICC Ralph goes beyond the familiar arguments related to national interests and argues that the Court has exposed the extent to which American notions of accountability are tied to the nation state Where other democracies are willing to renegotiate their social contract because they see themselves as part of world society the US protects its particular contract with the people because it offers a means of distinguishing America and its democracy from the rest of the world This sovereigntist or more accurately Americanist influence is further illustrated in chapters on the sources of law universal jurisdiction transatlantic relations and US policy on international humanitarian law in the war on terror The book concludes by evoking E H Carr s criticism of those great powers who claim that a harmony exists between their particular interests and those of wider society It also recalls his argument that great powers sometimes need to compromise and in this context Ralph argues that support for the ICC is a more effective means of fulfilling America s purpose and a less costly sacrifice than that demanded by the Americanist policy of nation building

**The Two Fundamental Problems of Ethics** Arthur Schopenhauer,2010-05-13

Schopenhauer's two essays *On the Freedom of the Will* and *On the Basis of Morals* form his complete system of ethics. **Foundations of Empowerment Evaluation** David M. Fetterman, 2001. This timely addition to a new genre of evaluation methodology eschews the objectivity of an external evaluation in favor of internal value-driven assessments that advance the goal of self-improvement through self-determination. Fetterman offers down-to-earth clearly written descriptions and explanations of an approach that reconciles the contingencies of organizational practice with the standards and principles of evaluation accountability. He adroitly bridges the gap between the subjectivity of self-evaluation and the objectivity of external evaluation by showing with case examples and detailed methods forms and narrative why empowerment evaluation extends the reach of standard evaluation practice. Dennis Mithaug, Teacher's College, Columbia University. What is empowerment evaluation? When is it the most appropriate approach to use in an evaluation? How can it best be implemented? Aimed at demystifying empowerment evaluation, the book shows readers when to use this form of evaluation and how to more effectively use its three steps: developing a mission statement, taking stock by identifying and prioritizing the most significant program activities, and charting a course for future strategies to accomplish program goals. Fetterman also illustrates the steps with four case examples ranging from hospital to educational settings. In addition, he covers how to use empowerment evaluation to meet the standards developed by the Joint Committee on Standards for Educational Evaluation, the caveats and concerns about the use of empowerment evaluation, the relationship between collaborative participatory stakeholder and utilization-focused evaluation with empowerment evaluation, the role of the Internet in disseminating empowerment evaluation, and an analysis of the strengths, weaknesses, and conditions of empowerment evaluation. This book will guide evaluators' exploration of their roles as coaches, facilitators, and advocates as well as enable them to more effectively use this innovative evaluation technique.

**Confederate Exceptionalism** Nicole Maurantonio, 2022-09-30. Along with Confederate flags, the men and women who recently gathered before the Virginia Museum of Fine Arts carried signs proclaiming Heritage Not Hate. Theirs they said, was an open and visible protest against those who attacked us, our flags, our ancestors, or our Heritage. How, Nicole Maurantonio wondered, did not hate square with a heritage grounded in slavery? How do so-called neo-Confederates distance themselves from the actions and beliefs of white supremacists while clinging to the very symbols and narratives that tether the Confederacy to the history of racism and oppression in America? The answer Maurantonio discovers is bound up in the myth of Confederate exceptionalism, a myth whose components, proponents, and meaning this timely and provocative book explores. The narrative of Confederate exceptionalism in this analysis updates two uniquely American mythologies: the Lost Cause and American exceptionalism, blending their elements with discourses of racial neoliberalism to create a seeming separation between the Confederacy and racist systems. Incorporating several methods and drawing from a range of sources

including ethnographic observations interviews and archival documents Maurantonio examines the various people objects and rituals that contribute to this cultural balancing act Her investigation takes in official modes of remembering the Confederacy such as the monuments and building names that drive the discussion today but it also pays attention to the more mundane and often subtle ways in which the Confederacy is recalled Linking the different modes of commemoration her work bridges the distance that believers in Confederate exceptionalism maintain while situated in history from the Civil War through the civil rights era the book brings much needed clarity to the constitution persistence and significance of this divisive myth in the context of our time     **The Smart Set** ,1907     *Culture and Management* Ross A. Webber,1969 Composite work based on cross cultural analysis and comprising a comparison of cultural factors in management methodology and management attitudes in various countries includes articles covering aspects of entrepreneurship management in capitalist societies and socialist countries decision making etc and contains case studies from french speaking Canada China India Japan Poland Egypt the UK the USA and the USSR Bibliographys     The Triumph of Irony in the Book of Judges Lillian R. Klein,1988-09-01     *God and the Between* William Desmond,2008-01-14 An original work which rethinks the question of God in a constructive spirit drawing its conclusions by considering ideas received from both philosophy and religion Makes an important new contribution to the ongoing scholarly debates surrounding the intersection of philosophy and religion Suggests that this junction is not just dictated by religion having to prove its credentials to rational philosophy but that it is also a matter of philosophy wondering if religion is the ultimate partner in dialogue Includes discussion of a wide range of significant thinkers both traditional and contemporary such as Plotinus Spinoza Kant Hegel and Nietzsche and his successors Completes a trilogy of works by William Desmond complementing its companion volumes *Being and the Between* and *Ethics and the Between*     *Nomination of an Associate Judge* United States.
