**The Two Cities: A History of Christian Politics** Andrew Willard Jones, 2021-06-24 The prevailing narrative of human history given to us as children and reinforced constantly through our culture is the plot of progress As the narrative goes we progressed from tyranny to freedom from superstition to science from poverty to wealth from darkness to enlightenment This is modernity's origin myth Out of it a consensus has emerged part of human progress is the overcoming of religion in particular Christianity and that the world itself is fundamentally secular In *The Two Cities A History of Christian Politics* Andrew Willard Jones rewrites the political history of the West with a new plot a plot in which Christianity is true in which human history is Church history The Two Cities moves through the rise and fall of empires cycles of corruption and reform the rise and fall of Christendom the emergence of new political forms such as the modern state and new political ideologies such as liberalism and socialism through the horrible destruction of modern warfare and on to the plight of contemporary Christians These movements of history are all considered in light of their orientation toward or away from God The Two Cities advances a theory of Christian politics that is both an explanation of secular politics and a proposal for Christians seeking to navigate today's most urgent political questions

*A Tale in Two Cities* Brian Unwin, 2014-02-07 Fanny Burney and Adele Comtesse de Boigne were two of the most remarkable female writers of the late eighteenth and early nineteenth centuries one a famous novelist the other an aristocrat from one of France's most ancient families This was the tumultuous era which saw the French Revolution the Napoleonic years and the July 1830 Revolution in France and in England the madness of George III and the extravagant Regency period Fanny and Adele were similarly strong characters both were fiercely intelligent and closely engaged with the social and political issues of the day but came from remarkably different backgrounds Whilst Adele was born into the French aristocracy and was raised at Versailles Fanny came from a rather less auspicious but highly cultured family and made her name as one of the best selling novelists of the day Both women used memoirs journals and diaries to document their lives in the upper echelons of society in England and France commenting with scintillating wit and waspish observation on their encounters with many of the great figures of the day including such as Napoleon Wellington Talleyrand Castlereagh Chateaubriand Dr Johnson David Garrick Madame de Stael and both the French and British Royal families Although the two women lived for significant periods in each other's country mainly in Paris and in London and inhabited the same social circles surprisingly they never met in person Yet they both encountered the same people and commented on the same events Through the observations of these immensely well connected and brilliant writers Brian Unwin provides a fresh and fascinating insight into some of the principal events and persons of one of the most seminal and turbulent periods of modern European history
