Beat Feminisms Polina Mackay, 2021-12-20 This is the first book-length study to read women of the Beat Generation as feminist writers. The book focuses on one author from each of the three generations that comprise the groups of female writers associated with the Beats: Diane di Prima, Ruth Weiss, and Anne Waldman, as well as on experimental and multimedia artists such as Laurie Anderson and Kathy Acker who have not been read through the prism of Beat feminism before. This book argues that these writers' feminism evolved over time but persistently focussed on intertextuality, transformation, revisionism, gender interventionist poetics, and activism. It demonstrates how these Beat feminisms counteract the ways in which women have been undermined, possessed, or silenced.

*Designing Sustainability* Stuart Walker, 2014-05-09 What is the relationship between design, sustainability, inner values, and spirituality? How can we create designs that provide a convincing alternative to unsustainable interpretations of progress, growth, consumerism, and commercialism? Building on the arguments first advanced in his widely acclaimed books *Sustainable by Design* and *The Spirit of Design*, Stuart Walker explains how we can achieve the systemic changes needed to address the challenges of sustainability. Challenging common assumptions about the nature of our contemporary material culture and its relationship to human flourishing, the author introduces approaches to design that draw inspiration from nature, summon the human imagination, and create outcomes which are environmentally responsible and socially just as well as meaningful and enriching at a personal level. Offering a unique and original contribution to this vital debate, *Designing Sustainability* is destined to become essential reading for students on courses in design and sustainability and for design practitioners looking for a deeper, more meaningful basis for their work.
