Oncology A Case Based Manual

VM Jensen

Oncology A Case Based Manual:

Oncology Paul Harnett, John Cartmill, Paul Glare, 1999 This well written text is designed to help students and health professionals understand oncology through real life clinical scenarios helping treatment and management decisions Bridging the gap between theory and practice this practical case based format is fun to use and imparts a sense of reality to the learning process The first chapter presents clinically relevant data from molecular biology statistics and trial analysis and Quality of Life research with an emphasis on what practising clinicians should know but might have difficulty finding elsewhere in a digestible form The second chapter Making Management Decisions in Oncology presents the principles which guide decision making in oncology and covers the integration of tumour factors patient factors and treatment factors into the decision making process Cancer management requires the skills of a variety of clinicians surgical oncologists radiation oncologists medical oncologists palliative care physicians oncology nurses and others The integration of these disciplines into the overall management of each major tumour type has been emphasised in subsequent chapters

Palliative Medicine

Doreen Oneschuk, Neil Hagen, Neil MacDonald, 2012-03-15 Palliative care is now an integral part of the undergraduate medical curriculum Medical education across the board is adopting a case based approach This book uses a series of cases to illustrate critical points in palliative medicine The case studies have been carefully chosen to reflect real life clinical practice The contributors illustrate through the case studies the desired skills attitudes and knowledge required in this field of medicine Since publication of the second edition many approaches to palliative care have been further refined and developed Ongoing research has led to the improved use of existing medications and the development of several new treatments More is known about the psychosocial existential distress experienced by patients and their families resulting in an improved understanding by health care providers of how best to approach and assist those affected by advanced illness and more is known about methadone and other medications with emerging uses The third edition of this highly popular book continues to offer a panoramic view of palliative care It introduces a number of new topics including Neurological Disorders The Last Days and Palliative Sedation

Palliative Medicine: A Case-Based Manual Susan MacDonald, Leonie Herx, Anne Boyle, 2021-12-08 Palliative medicine is the medical care provided for people who have a life limiting illness or condition It encompasses both the physical symptoms a person may experience but also the psychosocial emotional and ethical issues that may arise Now in its fourth edition Palliative Medicine A Case Based Manual walks clinicians through the management of the most common situations found in palliative medicine from diagnosis and managing symptoms through to grief and bereavement Using real patient case scenarios and an easy to read question and answer format it gives students and medical professionals an accessible evidence based entryway to gain the skills and knowledge needed to provide high quality palliative and end of life care to patients and their families This new edition has been fully updated to cover the latest guidance including new chapters dedicated to medical cannabis opioids grief and bereavement and wider issues including

palliative care in the community structurally vulnerable populations and public health Written by over 50 experienced palliative care clinicians and educators this book will be a welcome guide for palliative care workers medical and nursing students and medical professionals of any specialty where palliative needs might arise

Children's Palliative Care: An International Case-Based Manual Julia Downing, 2020-04-01 This manual enables individuals working in children's palliative care CPC globally to learn through engaging real world cases The aim is to provide a clinical case based resource that is globally relevant and accessible to those working in CPC Drawing on case histories from around the world that reflect key issues and elements of CPC it provides a practical approach grounded in experience It addresses multidisciplinary care in the management of children and their families discusses cases from an international perspective and shares examples from a variety of countries utilising cases across a range of ages and conditions demonstrating holistic care It represents the first case based manual on global CPC and is endorsed and promoted by the International Children's Palliative Care Network ICPCN Children's palliative care is a rapidly developing field both in the UK and internationally The provision of CPC varies considerably with provision often being insufficient and over 65% of countries having no recognised CPC service provision whatsoever As such while there are an estimated 21.6 million children who require palliative care in many areas of the world CPC is poor or non-existent and children are treated like little adults without their distinctive needs being recognised or understood There is also a dearth of literature on CPC hence this clinical case based manual fills a gap in the market and is aimed at a global audience making it a unique text in the field

Oncology Roy Archibald Joseph Spence, Patrick G. Johnston (MD.), 2001 Primarily using a systems based approach this concise yet comprehensive textbook highlights important issues that are clinically relevant to the experiences of the medical student integrating knowledge across specialities

Palliative Medicine Neil MacDonald, Marcel Boisvert, Deborah Dudgeon, Neil Hagen, 1998 In line with much of today's medical teaching the authors of this unique book have used a series of cases to illustrate critical points in palliative medicine The case outlines are linked to learning objectives throughout the case discussions are used to illustrate the desired attitudes skills and knowledge base outlined at the beginning of each chapter In all thirty symptom problems and psychosocial issues are discussed including a number of symptoms not commonly considered in other textbooks such as sleep disorders The comprehensive section devoted to psychosocial factors in palliative medicine contains an excellent chapter on ethics as well as chapters on cost containment and cultural issues in addition to the more commonly encountered psychosocial problems

Palliative Medicine, 2012 Using a series of cases to illustrate salient points this manual matches the cases with curricular objectives effectively conveying to the student understanding of palliative medicine at undergraduate level

Topics in Palliative Care Russell K. Portenoy, Eduardo Bruera, 1997 Journal of the National Cancer Institute, 1998

Palliative Care Harold Y. Vanderpool, 2015-07-02 The long history of medical care for the dying has largely been neglected It began in 1605 when physicians were challenged to enable persons to die peacefully Today it includes palliation

of oppressive symptoms emotional and psychological care and respect for the wishes and cultural backgrounds of patients and families Especially since the 1990s it embraces symptom easing palliation for patients with severe life limiting and chronic illnesses Providing a detailed picture of contemporary palliative care this book chronicles four centuries of the quest for a good death covering the fight against futile end of life treatments the history of life extending treatments and technologies the roles of nurses the liberation of the dying from isolation in hospitals and hard won victories to secure patients right to choose

A Case-Based Approach to Interventional Pulmonology: A Focus on Asian Perspectives Jamalul Azizi Abdul Rahaman, 2023-06-14 A Case Based Approach to Interventional Pulmonology A Focus on Asian Perspectives focuses on various aspects of Interventional Pulmonology IP based on clinical case scenarios Today evidence based medicine and statistics are ruling our daily practice Thus each case is unique regardless of what the theory predicts This asian perspective of Interventional Pulmonology IP is also of great importance given the differences in the etiologies compared to other regions of the world Asia being the leading region in terms of population and the high incidence of certain airway and lung diseases is an amazing source for fundamental and clinical research The contents of the book have been divided into four different sections with a primary aim of case based scenarios and solutions Section A consists of diagnostic IP procedures like linear and radial EBUS navigation bronchoscopy bronchoscopic lung cryobiopsy BLC and cone beam CT Section B focuses on therapeutic rigid bronchoscopic procedures Besides airway stenting and laser bronchoscopy this discusses recent interventions such as bronchial thermoplasty bronchoscopic lung volume reduction 3D printing and microwave ablation Section C is dedicated to pleural procedures focusing on indwelling pleural catheters IPC and fibrinolytics Section D is dedicated to common paediatric IP procedures Each case is presented with the history including clinical radiological bronchoscopic pleuroscopic findings and final outcomes Many of these cases also have video illustrations This book will be of great value to interventional pulmonologists thoracic surgeons surgical oncologists and interventional radiologists

Case-Based Reasoning Research and Development Michael T. Cox, Peter Funk, Shahina Begum, 2018-10-08 This book constitutes the refereed proceedings of the 26th International Conference on Case Based Reasoning Research and Development ICCBR 2018 held in Stockholm Sweden in July 2018 The 39 full papers presented in this book were carefully reviewed and selected from 77 submissions The theme of ICCBR 2017 The Future of CBR was highlighted by several activities These papers which are included in the proceedings address many themes related to the theory and application of case based reasoning and its future direction Topics included multiple papers on textual CBR and a number of cognitive and human oriented papers as well as hybrid research between CBR and machine learning

Case-Based Clinical Cardiology Majid Maleki, Azin Alizadehasl, 2021-03-03 This book comprehensively covers a range of pathological cases in clinical cardiology Chapters are case focused and detail how a patient is diagnosed and treated in a step by step format A range of engaging video clips enhances the reader s appreciation and understanding of how to apply

these techniques into their day to day clinical practice with special focus on congenital heart disease diagnosis and management Case Based Clinical Cardiology presents a range of clinical scenarios across all cardiology disciplines with a particular focus on echocardiography electrocardiography and cardiac catheterization Therefore it is an ideal resource for both the novice and experienced cardiology practitioner seeking an up to date selection of cases to test their knowledge

Physician's Guide to End-of-life Care American College of Physicians--American Society of Internal Medicine. End-of-Life Care Consensus Panel, Timothy E. Quill, 2001 Identifies clinical ethical and public policy challenges in end of life care and offers recommendations on how to better address these problems Part I focuses on building relationships among doctors patients and families cultural differences in attitudes towards palliative care and what to do when the patient cannot speak for himself Part II presents practical approaches to common problems illustrated with clinical cases in management of pain depression and delirium Part III deals with legal financial and quality issues Snyder teaches bioethics at the University of Pennsylvania Center for Bioethics Quill teaches in the Program for Biopsychosocial Studies at the University of Rochester School of Medicine c Book News Inc

AI in Diagnostic Radiology: Clinical Applications and Case-Based Insights Kumar, Praveen, Verma, Prateek, Mishra, Gaurav Vedprakash, Phartiyal, Gopal Singh, Luharia, Anurag Ashok, 2025-07-03 AI rapidly transforms diagnostic radiology offering powerful tools to enhance image interpretation streamline workflows and improve diagnostic accuracy By utilizing deep learning algorithms trained on medical images AI systems can detect abnormalities with precision comparable to experienced radiologists in certain contexts These advancements have found real world application in areas like chest X ray analysis mammography CT and MRI interpretation and triage in emergency imaging Case based insights demonstrate how AI assists in early disease detection supports differential diagnosis and reduces diagnostic errors contributing to better patient outcomes However effective clinical integration requires careful validation consideration of ethical implications and collaboration between radiologists and AI developers to ensure technology works with rather than replaces human expertise AI in Diagnostic Radiology Clinical Applications and Case Based Insights explores the use of AI in diagnostic radiology to enhance image analysis improve diagnostic accuracy and streamline clinical workflows It explains real world applications through case based insights demonstrating how AI supports radiologists in detecting and interpreting medical conditions This book covers topics such as medical detection deep learning and radiology and is a useful resource for medical professionals computer engineers academicians researchers and scientists

Oxford American Handbook of Hospice and Palliative Medicine Sriram Yennurajalingam, Eduardo Bruera, 2012-07-27 This handbook provides an easily navigable source of information about the day to day management of patients requiring palliative and hospice care Succinct evidence based topically focused content is supplemented by extensive tables and algorithms The table of contents and balance of coverage follows the core curriculum of the American Board of Hospice and Palliative Medicine thus meeting the educational and clinical information needs of students residents

fellows and nurse practitioners An expert team of clinicians led by world renowned Eduardo Bruera address approach to care psychosocial and spiritual issues impending death grief and bereavement assessment and management of pain management of non pain symptoms such as nausea dyspnea depression insomnia and bleeding communication and team work and ethical and legal decision making Post-Polio Syndrome: Background, Management and Treatment , An Issue of Physical Medicine and Rehabilitation Clinics of North America, E-Book Darren Rosenberg,Craig Rovito,2021-07-01 Approx 240 pages

Rehabilitation in Cancer Care Jane Rankin,Karen Robb,Nicki Murtagh,Jill Cooper,Sian Lewis,2009-03-16
Rehabilitation in Cancer Care is an essential clinical resource for all Allied Health Professionals working within or entering this specialist area It provides practical guidance for the rehabilitation of people with cancer or those receiving palliative care As well as explaining the key skills required at every stage of the cancer journey the book specifically offers advice on diagnosis treatment management and effective interventions Furthermore the role of each member of the interdisciplinary team is clearly explained at each stage as is the importance of teamwork and holistic care Section 1 introduces the reader to the rationale for the rehabilitation of people with cancer or those receiving palliative care Section 2 looks at the multi professional management of common cancers and Section 3 looks at symptom management **Oxford Handbook of Palliative Care** Max Watson,Rachel Campbell,Nandini Vallath,Stephen Ward,Jo Wells,2019 This practical guide briefly covers the historical and epidemiological background of palliative care and the growth of palliative medicine as a specialty before dealing with major physical psychological spiritual and symptom management issues from diagnosis to bereavement care **Oxford Textbook of Palliative Care for Children** Richard Hain,Ann Goldman,Adam Rapoport,Michelle Meiring,2021-07-27 The importance of palliative care for children facing life threatening illness and their families is now widely acknowledged as an essential part of care which should be available to all children and families throughout the child's illness and at the end of life The new edition of the Oxford Textbook of Palliative Care for Children brings together the most up to date information current knowledge evidence and developments of clinical practice in the field The book is structured into four sections Foundations of Care describes core issues the foundations on which paediatric palliative care is based Child and Family Care looks at different aspects of psychological social and cultural care for the sick child or young person and their family These chapters cover the time course of the illness around the time of death and support for the bereaved family Symptom Care focuses on the uses of medication specific symptoms and their management Finally Delivery of Care examines practical approaches to care in different environments and the needs of clinicians Two new editors join the team from Canada and South Africa reflecting our aims to contribute towards the development of care for children across the world and to be a resource for both experienced clinicians and those new to the field Comprehensive in scope exhaustive in detail and definitive in authority this third edition has been thoroughly updated to cover new practices current epidemiological data and the evolving models that support the delivery of palliative medicine to children This includes two

new chapters looking in detail at Decision Making and Perinatal Care and a new section highlighting the emerging importance of Palliative Care for Children in Humanitarian Crises This book is an essential resource for anyone who works with children worldwide
