Ontology Of Socialism

**Richard Westra, Robert
Albritton, Seongjin Jeong**

Ontology Of Socialism:

The Ontology of Socialism Jadwiga Staniszkis,1992 The Ontology of Socialism represents a highly original attempt to examine and define the essential nature of socialism as it existed in Eastern Europe prior to the events of 1989 The empirical material on which the book is based is drawn from a very wide range of sources but primarily from the Polish experience Jadwiga Staniszkis analysis not only significantly advances our understanding of socialist regimes in Eastern Europe but also provides an invaluable content within which to view current changes in the region Dr Staniszkis deals with three pivotal paradoxes of the socialist system the fact that it is a mode of production devoid of genuine economic interests that it is a political structure where power is devoid of political content and that it is a social structure devoid of civil society She also analyses the contradictions of the colonial situation in Eastern Europe with its two levels of dependency This book s originality lies in its attempt to generate and use conceptual categories for the analysis of socialism which are not just adaptations of concepts which have been developed to analyse the capitalist system since often these simply do not apply

A Leftist Ontology Carsten Strathausen,2009 Rich with analyses of concepts from deconstruction systems theory and post Marxism with critiques of fundamentalist thought and the war on terror this volume argues for developing a philosophy of being in order to overcome the quandary of postmodern relativism Undergirding the contributions are the premises that ontology is a vital concept for philosophy today that an acceptable leftist ontology must avoid the kind of identity politics that has dominated recent cultural studies and that a new ontology must be situated within global capitalism

Ontology of Consciousness Helmut Wautischer,2008-04-11 Scholars from many different disciplines examine consciousness through the lens of intellectual approaches and cultures ranging from cosmology research and cell biophysics laboratories to pre Columbian Mesoamerica and Tibetan Tantric Buddhism in a volume that extends consciousness studies beyond the limits of current neuroscience research The hard problem of today s consciousness studies is subjective experience understanding why some brain processing is accompanied by an experienced inner life Recent scientific advances offer insights for understanding the physiological and chemical phenomenology of consciousness But by leaving aside the internal experiential nature of consciousness in favor of mapping neural activity such science leaves many questions unanswered In Ontology of Consciousness scholars from a range of disciplines from neurophysiology to parapsychology from mathematics to anthropology and indigenous non Western modes of thought go beyond these limits of current neuroscience research to explore insights offered by other intellectual approaches to consciousness These scholars focus their attention on such philosophical approaches to consciousness as Tibetan Tantric Buddhism North American Indian insights pre Columbian Mesoamerican civilization and the Byzantine Empire Some draw on artifacts and ethnographic data to make their point Others translate cultural concepts of consciousness into modern scientific language using models and mathematical mappings Many consider individual experiences of sentience and existence as seen in African communalism Hindi psychology

Zen Buddhism Indian vibhuti phenomena existentialism philosophical realism and modern psychiatry Some reveal current views and conundrums in neurobiology to comprehend sentient intellection Contributors Karim Akerma Matthijs Cornelissen Antoine Courban Mario Crocco Christian de Quincey Thomas B Fowler Erlendur Haraldsson David J Hufford Pavel B Ivanov Heinz Kimmerle Stanley Krippner Armand J Labb James Maffie Hubert Markl Graham Parkes Michael Polemis E Richard Sorenson Mircea Steriade Thomas Szasz Mariela Szirko Robert A F Thurman Edith L B Turner Julia Watkin Helmut Wautischer

Igwebuike Ontology: an African Philosophy of Humanity Towards the Other Ejikemeuwa J. O. Ndubisi Ph.D, Jude I. Onebunne Ph.D, Paul T. Haaga Ph.D, 2019-10-21 This book of readings is designed to accomplish two tasks to philosophize on Igwebuike and to honour Professor KANU Ikechukwu Anthony O S A These two tasks or goals go hand in hand because Igwebuike is Professor Kanu's philosophy The book clearly demonstrates why Kanu deserves honour as an African philosopher who has introduced a way of doing African philosophy It is an approach of doing philosophy that takes into account African ontology and cosmology Igwebuike as a systematic African thought is exploratory in nature It investigates issues with a view of seeing how they are related Doing philosophy in this way takes into account not only the African context but the world as a complex entity with myriads of challenges The myriads of challenges facing humanity have a representation in this book For this reason the book is bound to have a global impact In terms of philosophizing this book demonstrates that Africa is confronted with many discourses Discourses that are already going on but need a more systematic African philosophical approach Some of the discourses are on the environment governance infrastructure human and material resource among others Denis Odinga Okiya Maryknoll Institute of African Studies Nairobi Kenya

The Ontology of Socialism. (Ontologia Socjalizmu). Ed., Transl. by Peggy Watson Jadwiga Staniszkis, 1992

Judaism, Philosophy, and Psychoanalysis in Heidegger's Ontology Federico Dal Bo, 2023-11-17 In this book Federico Dal Bo analyzes the question of Heidegger's anti-Semitism from a deconstructive point of view appealing not only to philosophy but also to psychoanalysis gender studies and critical studies Deconstruction famously discourages simplistic oppositions whilst encouraging a more careful analysis of cultural and philosophical complexities of a semantic field In the present case a deconstructive analysis of Heidegger's anti-Semitism rejects both a stern condemnation of his oeuvre and a simplistic acquittal from this infamous accusation It rather suggests that the question of his anti-Semitism shall be examined from the broader perspective from the end of metaphysics

Phases of Capitalist Development Richard Westra, Alan Zuege, 2001-03-27 In this collection authors from eight different countries representing a wide variety of academic disciplines and theoretical perspectives investigate the differing phases of capitalist development They offer diverse and powerful analyses of the postwar boom economic crises and globalization within this context

On the Politics of Educational Theory Tomasz Szukdlarek, 2016-11-03 On the Politics of Educational Theory considers the political significance of educational theory as a specific genre of public discourse Rather than understanding educational theories solely as addressing issues of

childrearing and instruction this book aims to view educational theories in a broader socio political context It explores the role of educational theories in the construction of collective and political identities and analyses them as rhetorical strategies operating as political discourses Defining the methodological framework through the perspectives of Michel Foucault and Ernesto Laclau each chapter examines the ways in which theories of education contribute to the creation of social realities and identities Such issues as the construction of visibility and invisibility of power the tropes of temporality or the use of postulational language where theorists say what should be done in and by education are some of the threads that weave through particular theories from Rousseau to the discourse of education in the knowledge based society analysed as ontological rhetorics constitutive of political identities This book suggests a direction for a more conscious way of dealing with the political in education As such it will appeal to researchers academics and postgraduate students in the fields of educational research philosophy of education curriculum studies social and political theory and theory of education The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781315712505> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Agamben's Political Ontology of Nudity in Literature and Art Frances Restuccia, 2019-05-13 This volume develops the central though neglected Agambenian concept of nudity along with its crucial political implications The book discovers within The Use of Bodies a philosophical path to Agamben's ontology of nudity as it is subtended by his notion of the messianic a dual temporality of form in motion reflected in the image of a whirlpool that is autonomous although no drop of water belongs to it separately Drawn from Paul and Benjamin rather than Derrida Agamben's messianic is elaborated in this study through its embodiment in literature Woolf's To the Lighthouse James's The Aspern Papers Brodsky's Watermark and Mann's Death in Venice in response to Agamben's insistence on the wedding of poetry and philosophy In particular Coetzee's Disgrace gives poetic form to Agamben's focus on the dissolution of the human animal border the salvation of the unsavable and nudity all to illustrate Agamben's Open without a closedness This text shows how art serves as the house of philosophy also by taking up the nude in visual art making the case that in comprising chronos and kairos the two messianic components of Agamben's ontology of nudity art demonstrates the constitution of form of life for the viewer Emphasizing Agamben's privileged non-unveilability of nudity this book finally examines two major missed encounters with Heidegger and Lacan philosophers of the veil Veiling to Agamben correlates with the sovereignty bare life structure of the exception which his ontology of nudity is meant to deactivate as there is no such thing as a bare life

New Developments in the Theory of the Historical Process, 2022-04-04 The first part of this book contains a selection of Leszek Nowak's 1943-2009 works on non-Marxian historical materialism which are published here in English for the first time In these papers Nowak constructs a dynamic model of religious community reconstructs historiosophical assumptions of liberalism and considers the methodological status of prognosis of totalitarization of capitalist society In the second part of the book new contributions to non-Marxian historical materialism

are presented Their authors analyze mechanisms of the oligarchization of liberal democracy the democratization of real socialism and the development of early modern Ottoman and post war Chinese societies *Political Economy and Globalization* Richard Westra,2009-09-30 This book provides an analysis of capitalism s world historic phases of development a critique of the globalization literature and a re examination of Marxian debates over the rise of capitalism New Socialisms Robert Albritton,Shannon Bell,Richard Westra,2004-07-31 The major problems facing the world as it gets used to the twenty first century are global inequality poverty war and militarism oppression exploitation and ecological sustainability Far from solving these problems economic and political neo liberalism seems to be plunging us deeper into them Diverse opposition movements have arisen over the years to combat these problems which the groups generally consider to be the result of globalization These opposition movements suffer greatly from being opposed to lots of things without necessarily putting forward realistic alternative suggestions This impressive new book seeks to analyze and develop serious alternatives to the status quo With contributions from a wide range of scholars this important book will provide a uniquely varied outlook Students and academics involved in international politics and economics as well as general readers with an interest in the anti globalization movement will find this work incredibly useful On Heidegger's Nazism and Philosophy Tom Rockmore,1997-01-01 American philosopher Tom Rockmore boldly refutes suggestions that German philosopher Martin Heidegger s political stance was accidental or adopted under coercion Rockmore argues that Heidegger s thought and his Nazism are inseparably intertwined Combining extensive documentation with philosophical and historical analysis this book raises profound questions about the social and political responsibility of philosophy **Ibss: Political Science: 1992** British Library of Political and Economic Science,1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences Philosophical Organization Theory Haridimos Tsoukas,2018-12-06 When it comes to the field of organization and management theory a philosophical perspective enables us to conduct organizational research imbued with the attitude of wonder it helps researchers question dominant images of thought underlying mainstream thinking and provides fresh distinctions that enable the development of new theory In bringing together a collection of key essays by Haridimos Tsoukas this volume explores fundamental concepts such as organizational routine that have gained currency in the field as well as revisiting traditional concepts such as change strategy and organization It discusses organizational knowledge judgment and reflection in action and at the meta theoretical level suggests complex forms of theorizing that do justice to the complexity of organizations The conceptual attention throughout is on process and practice underlain by performative phenomenology and an emphasis on agents lived experience This provides us with the language to appreciate the dynamic character of organizational behaviour the embeddedness of action and the complexity of organizational life The theoretical claims presented in this volume have important implications for practice insofar as they

help retrain our attention from seeing structures and individuals we can now appreciate processes experiences and practices A phenomenological attitude makes organization theory more open more creative and more reflexive and this book will be essential reading for researchers and students in the field of organization studies **Developing Ecofeminist Theory** E.

Cudworth,2005-09-08 An original exploration of how the relationship between society and nature is conceptualized focusing on theories of social exclusion and difference A comprehensive overview of feminist and environmental theories of society environment relations considering the range of theoretical and political influences on such theorizing such as socialist and Marxist theory amongst others and the turn to post structuralism and postmodernism within the social sciences Cudworth also develops her own theoretical account for the interrelations between forms of social domination and contributes to important debates with sociology social theory feminist theory and environmentalism **Exit from Globalization** Richard Westra,2014-10-24 Exit from Globalization moves from theory to practice from questions of where incorrigible knowledge of substantive economic life derives and how that knowledge is put towards making a progressive redistributive eco sustainable future of human flourishing Westra discards at the outset views that the root of current economic ills is the old devil we know capitalism Rather he maintains the neoliberal decades spawned a Merchant of Venice economic excrescence bent upon expropriation and rent seeking which will scrape all the flesh from the bones of humanity if not stopped dead in its tracks En route to providing a viable design for the human future in line with transformatory demands of socialists and Greens Westra exorcizes both Soviet demons and ghosts of neoliberal ideologues past which lent support to the position that there is no alternative to the market Exit from Globalization shows in a clear and compelling fashion that while debates over the possibility of another potentially socialist world swirl around this or that grand society wide scheme the fact is that creative future directed thinking has at its disposal several economic principles that transformatory actors may choose from and combine in various ways to remake human economic life The book concludes with an examination of the various social constituencies currently supporting radical change and explores the narrowing pathways to bring change about

Varieties of Alternative Economic Systems Richard Westra,Robert Albritton,Seongjin Jeong,2017-07-14 In this age of overlapping and mutually reinforcing deep global crises financial convulsions global warming mass migrations militarism inequality selfish nation states etc there needs to be more realistic dialogue about radical alternatives to the status quo Most literature produced heretofore has focused on the surface causes of these crises without much attention given to the sorts of major societal changes needed in order to deal with the crises we face This book moves the debate beyond the critiques and the false or not fully realised alternatives to focus on what can be termed practical utopias The contributors to this book outline a range of practical proposals for constructing pathways out of the global economic ecological and social crisis Varieties of Alternative Economic Systems eschews a single blueprint but insists on dealing directly with the deep structural problems and contradictions of contemporary global capitalism It provides a diverse array of complementary proposals and

perspectives that can inform both theoretical thinking and practical action This volume will be of interest to academics and students who study political science ecological economics international politics and socialism *Modern Political Ideologies* Andrew Vincent, 2023-12-26 MODERN POLITICAL IDEOLOGIES Modern Political Ideologies provides a broad overview of the origins development and core principles of the major political ideologies of the past two centuries With an accessible student friendly format this bestselling textbook helps students understand the values beliefs and social forces that shape today's political messaging public discourse and legislative agendas Concise and approachable chapters describe ideologies such as liberalism conservatism socialism fascism fundamentalism and nationalism Retaining the student friendly format of previous editions the fourth edition of Modern Political Ideologies is fully revised to reflect the social changes that inform today's political views An entirely new chapter offers insights into the growth of populism and its effects on contemporary political dialogue while expanded material addresses anarchism feminism neoliberalism environmentalism and green ideologies identity politics and other topics of current relevance Containing a useful glossary of key terms and extensive end notes for each chapter Modern Political Ideologies Fourth Edition is the ideal textbook for advanced undergraduate courses in political science political ideology political theory comparative politics and international relations It is also an excellent supplement for courses in the social sciences and humanities that investigate the history of political ideas **Foundations of Critical Theory** Christian Fuchs, 2021-09-19 This second volume of Christian Fuchs Media Communication and Society book series outlines key concepts and contemporary debates in critical theory The book explores the foundations of a Marxist Humanist critical theory of society clarifying and updating key concepts in critical theory such as the dialectic critique alienation class capitalism ideology and racial capitalism In doing so the book engages with and further develops elements from the works of Karl Marx Friedrich Engels Rosa Luxemburg Max Horkheimer Theodor W Adorno Herbert Marcuse David Harvey Michael Hardt Antonio Negri C L R James Adolph L Reed Jr and Cornel West Written for a broad audience of students and scholars this book is an essential guide for readers who are interested in how to think critically from perspectives such as media and communication studies sociology philosophy political economy and political science
