North Country Jon K. Lauck, Gleaves Whitney, 2023-05-04 Travel north from the upper Midwest s metropolises and before long you re Up North a region that s hard to define but unmistakable to any resident or tourist Crops give way to forests mines or their remains mark the landscape and lakes multiply becoming ever clearer until you reach the vastness of the Great Lakes How to characterize this region as distinct from the agrarian Midwest is the question North Country seeks to answer as a congenial group of scholars journalists and public intellectuals explores the distinctive landscape culture and history that define the northern margins of the American Midwest From the glacial past to the present day these essays range across the histories of the Dakota and Ojibwe people colonial imperial rivalries and immigration and conflicts between the economic imperatives of resource extraction and the stewardship of nature The book also considers literary treatments of the area and arguably makes its own contributions to that literature as some of the authors search for the North Country through personal essays while others highlight individuals who are identified with the area like Sigurd Olson John Barlow Martin and Russell Kirk From the fur trade to tourism fisheries to supper clubs Finnish settlers to Native treaty rights the nature of the North Country emerges here in all its variety and particularity as clearly distinct from the greater Midwest as it is part of the American heartland

Locating Europe Rodolphe Gasché, 2021-06-01 Is the idea of Europe outdated The concept of European unity the animating spirit of the European Union seems increasingly fragile in the face of far right populist movements In Locating Europe Rodolphe Gasch attempts to answer the question of how to think about Europe Is it a figure a concept or an idea Is there anything still compelling and urgent about the idea of Europe By looking at phenomenologist and postphenomenological thinkers in the second half of the 20th century Gasch reveals that Europe is more than just one geographical and cultural entity The idea of Europe is based on common foundations a distinctive conception of reason of self criticism of responsibility freedom equality human rights and democracy and it is these foundations that are under threat In Locating Europe A Figure a Concept an Idea Gasch engages the philosophy of Hans Georg Gadamer Karl Jaspers Karl L with and others focuses on the most significant philosophical representations of Europe and explores the potential and especially the limits of the notion of Europe

New Horizons in Theology Terrence W. Tilley, 2015-03-04 To celebrate the fiftieth anniversary of the College Theology Society these original essays explore how theology has changed over the previous fifty years theological concerns on the horizon today and approaches to teaching

theology appropriate for the twenty first century Contributors include Elizabeth A Johnson Joseph A Komonchak Norbert Rigali J Matthew Ashley Elizabeth T Groppe Michael Horace Barnes Steven R Harmon Colleen M Mallon Anne M Clifford Sally Kenel Randall Jay Woodard Sandra Yocum Mize Mary Ann Hinsdale Miguel H Diaz James A Donahue Suzanne C Toton Ismael Muvungi *Phenomenological Reflections on Mindfulness in the Buddhist Tradition* Erol Čopelj, 2022-06-24 This book offers an original phenomenological description of mindfulness and related phenomena such as concentration sam dhi and the practice of insight vipassan It demonstrates that phenomenological method has the power to reanimate ancient Buddhist texts giving new life to the phenomena at which those texts point Beginning with descriptions of how mindfulness is encountered in everyday pre philosophical life the book moves on to an analysis of how the Pali Nik yas of Theravada Buddhism define mindfulness and the practice of cultivating it It then offers a critique of the contemporary attempts to explain mindfulness as a kind of attention The author argues that mindfulness is not attention nor can it be understood as a mere modification of the attentive process Rather becoming mindful involves a radical shift in perspective According to the author s account being mindful is the feeling of being tuned in to the open horizon which is contrasted with Edmund Husserl s transcendental horizon The book also elucidates the difference between the practice of cultivating mindfulness with the practice of the phenomenological epoch which reveals new possibilities for the practice of phenomenology itself *Phenomenological Reflections on Mindfulness in the Buddhist Tradition* will appeal to scholars and advanced students interested in phenomenology Buddhist philosophy and comparative philosophy **On Jean-Luc Nancy** Darren Sheppard, Simon Sparks, Colin Thomas, 2005-08-03 This is the first book to consider the increasing importance of Jean Luc Nancy s work which has influenced key thinkers such as Jacques Derrida All his major works have been translated into English yet until now little has been made available on his place in contemporary philosophy By showing how he situates his work in a contemporary context the collapse of communism the Gulf War and the former Yugoslavia this outstanding collection reveals how Nancy s engagement with Hegel Marx Nietzsche Heidegger and Derrida makes him one of the key contemporary continental philosophers Providing new perspectives on the issues of sense art and community these essays make it impossible to approach philosophy without reference to the work Jean Luc Nancy *A Wilderness Within* David Backes, 1997 **Phenomenology 2010** Ion Copoeru, Agustín Serrano de Haro, 2011 *Memory and Representation in Contemporary Europe* Siobhan Kattago, 2016-04-22 Why do certain places and not others symbolically capture the past and freeze time Likewise why does the process of memory as a fluid and changing activity seem to prevent its own solidification *Memory and Representation in Contemporary Europe* reflects not only on the persistence of the past as a theme linked to modernity media and time but also discusses the politics of memory within a changing Europe Drawing on the theoretical work of Hannah Arendt Isaiah Berlin and Zygmunt Bauman Siobhan Kattago uses examples from both Germany and Estonia in order to address the multiple layers of Europe s totalitarian past Through reflecting on the legacy of totalitarianism and

the revolutions of 1989 it becomes clear that the issue is less of whether one should remember but rather how to internalize the various lessons of the past for the future of Europe Memory and Representation in Contemporary Europe thus offers the reader occasions upon which to take stock of different but overlapping contours of past and present in contemporary Europe

Ecstatic Naturalism Robert S. Corrington, 1994-04-22 Semiotic theory which has restricted its focus largely to human forms of signification is transformed by Robert S Corrington into a semiotics of nature itself Corrington situates the divide between nature naturing and nature natured within the contest of classical American pragmatism and postmodern psychoanalysis At the heart of this new metaphysics is an insistence that all signs participate in larger orders of meaning that are natural and religious Meanings embodied in nature point beyond nature to the mystery inherent in positioned codes and signs

A Passage to the Idea for a Hermeneutic Philosophy of Science Dimitri Ginev, 2023-03-13 In this book the author has brought together his long standing interests in theory of scientific rationality and hermeneutic ontology by developing a hermeneutic alternative to analytic and naturalist epistemology of science The hermeneutic philosophy of science is less the name of a new field of philosophical than a demand for a repetition of the basic philosophical questions of science from hermeneutic point of view The book addresses chiefly two subjects I The hermeneutic response to the models of rational reconstruction of scientific knowledge II The specificity of hermeneutic ontological approach to the cognitive pluralism in science

Political Readings of Descartes in Continental Thought Alon Segev, 2019-08-22 Descartes philosophy plays a special role in the

works of both renowned and marginal writers in the Continental Tradition particularly in their views on society and politics This is the first book length study to consider political responses to Descartes in 19th and 20th century European thinkers Alon Segev shows how on the one hand Continental authors utilize Descartes philosophy to advance the core ideas of Enlightenment and to combat the movements and systems of Capitalism Materialism Absolutism Fascism Nazism and Neo Paganism however on the other hand Segev also demonstrates that Continental authors have also discerned in Descartes philosophy the main source of all these maladies of modernity These opposing views are examined as they are unfolded in known and forgotten texts by authors such as Vico Sorel Nietzsche Husserl and Heidegger and by lesser known figures such as Baader Borkenau and B hm By exploring celebrated and overlooked texts and authors Alon Segev both details the Cartesian influence on the touchstone thinkers of political modernity and also fills a wide historical gap in the research providing a significant contribution to the discussion about the crises of the contemporary social and political world In short this book enables us through Descartes to assess the advantages and shortcomings of modern society
