Opening In The Sky:

Open Sky Eric Nisenson, 2015-08-04 Sonny Rollins is arguably the most influential tenor saxophonist that jazz has produced. He began his musical career at the tender age of eleven and within five short years he was playing with the legendary Thelonius Monk. In the late forties before his twenty first birthday Rollins was in full swing recording with jazz luminaries such as Charlie Parker, Bud Powell, Max Roach, Art Blakey, Miles Davis and Fats Navarro. He was hailed as the best jazz tenor saxophonist alive during the years 1955 to 1959 when he was credited with pioneering the use of 3 4 time in bop music. Today forty years later Rollins's onstage appearances are eagerly anticipated events where his compelling sound reaches a whole new generation of listeners. Renowned jazz writer Eric Nisenson has penned a long overdue look at one of jazz music's brightest and most enduring stars.

Open Sky Nickie Jamison, 2018-04-07 Birdie Black isn't a queen but she plays one on TV. Abandoned by her mother and raised by her grandparents Birdie rose to fame when she landed the role of Queen Arianne on the hit television series *Gilded Swords*. In Hollywood she met and fell in love with James Tucker Winthrop heir to the Winthrop Hotel fortune. But no matter how far around the world she flies Birdie is always drawn back to her first love Luke a cattle rancher in Montana the place Birdie calls home. On a break from filming Birdie and Tucker venture back to Montana to meet Luke and his kin but Birdie's vacation isn't relaxing when her mother shows up to wreak havoc in Birdie's life. Will Birdie's men be able to save their Queen?

Open Sky Paul Virilio, 2020-05-05 One day the day will come when the day will not come. Bleak but passionately political in its analysis of the social destruction wrought by modern technologies of communication and surveillance *Open Sky* is Paul Virilio's most far reaching and radical book. Deepening and extending his earlier work he explores the growing danger of what he calls a generalized accident provoked by the breakdown of our collective and individual relation to time space and movement in the context of global electronic media. But this is not merely a lucid and disturbing lament for the loss of real geographical spaces distance intimacy or democracy. *Open Sky* is also a call for revolt against the insidious and accelerating manipulation of perception by the electronic media and repressive political power against the tyranny of real time and against the infantilism of cyberhype. Virilio makes a powerful case for a new ethics of perception and a new ecology one which will not only strive to protect the natural world from pollution and destruction but will also combat the devastation of urban communities by proliferating technologies of control and virtuality.
