Agricultural Extension and Research Dennis Purcell,Jock R. Anderson,1997-01-01 Environmentally Sustainable Development Studies and Monograph Series No 17 A 1995 publication from the World Bank Monitoring Environmental Progress A Report on Work in Progress generated great interest in the use of indicators to measure the pace and direction of change in environmentally sustainable development In particular the attempts to define what it means to be wealthy or poor by recognizing that a countrys wealth is the combination of various forms of capital produced natural and human resources led to new thinking on what constitutes wealth and how it might be measured The current document Expanding the Measure of Wealth Indicators of Environmentally Sustainable Development extends the earlier analysis by highlighting portfolio indicators for tracking a countrys progress toward sustainable development These include new estimates of national wealth and genuine savings a detailed analysis of changes in subsidies that have environmental consequences and progress on the conceptual foundations of social capital The new estimates reinforce the importance of the natural resource base of all economies as well as the fundamental role of human resources including both human capital and the more difficult to define concept of social capital Agricultural Research Policy Vernon W. Ruttan, A personal perspectives Technical change and agricultural development The agricultural research institution National agricultural research systems The international agricultural research system Reviewing agricultural research programs Location and scale in agricultural research The private sector in agricultural research Institutional and project funding of research The economic benefits from agricultural research Research resource allocation The social sciences in agricultural research Responsibility and agricultural research

Integrated Natural Resource Management Bruce Morgan Campbell,Jeffrey Sayer,2003 This book which contains 15 separately authored chapters discusses both the principles and applications of an integrated approach to natural resource management Such an approach must embrace the complexity of systems and redirect research towards the greater inclusion of issues such as participatory approaches multi scale analysis and an array of tools for system analysis information management and impact assessment Case studies particularly from developing countries in Asia Africa and Latin America are included This book is of interest to a wide range of readers in many disciplines including forestry soil and management sciences agriculture and development studies The Principle of Integration in International Watercourse Cooperation Regimes Pol Pallàs Secall,2025-06-19 The principle of integration is the backbone of sustainable development yet its practical application remains elusive How can States integrate the economic social and environmental dimensions in the governance of common goods This book seeks to address this question by examining a particularly sensitive domain of cooperation the international watercourses From the Mekong to the Senegal River and from the Great Lakes to the Danube it analyses the legal and institutional instruments of nine international watercourse cooperation regimes to determine how the principle of

integration is put into practice This book finds that there are several instruments underutilised or entirely unused offering potential opportunities for improvement

Agricultural Policy Monitoring and Evaluation 2024 Innovation for Sustainable Productivity Growth OECD,2024-11-06 This annual report monitors and evaluates agricultural policies in 54 countries including the 38 OECD countries the five non OECD EU Member States and 11 emerging economies It finds that despite some modest declines in recent years support to agriculture has remained close to recent historical highs While changes in support have been limited agricultural policies have been both reactive and proactive boosting the sector s capacity to respond to current challenges while aiming to ensure that food systems are fit for purpose as future conditions evolve This year s report focuses on policies fostering sustainable productivity growth in agriculture Governments are applying a large variety of approaches to improve productivity while preserving natural resources and reducing agricultural greenhouse gas emissions The report notes however that clearly defined targets related to sustainable productivity growth and measurable indicators of progress are important to ensure that policies achieve their stated objectives The report also notes that making more effective use of producer support to promote innovation and environmental sustainability on the farm and refocusing overall support towards targeted R D can better leverage public spending to deliver public goods and sustainable productivity growth In line with the 2022 OECD Agriculture Ministerial Declaration the report identifies a seven point policy agenda for making agriculture more sustainable productive and resilient and for improving the effectiveness and efficiency of agricultural support and markets

Participatory Research and Development for Sustainable Agriculture and Natural Resource Management Julian F. Gonsalves,2005 Intended for aspiring and new practitioners of Participatory Research and Development PR D as well as field based researchers in developing countries Highlights that agricultural research and development has become a joint approach to deal with diverse biophysical environments multiple livelihood goals rapid changes in local and global economies and an expanded range for stakeholders over agriculture and natural resources

Changing Land Management David J. Pannell,Frank Vanclay,2011 There is a rich and extensive history of research into factors that encourage farmers to change their land management practices or inhibit them from doing so Yet this research is often under utilized in practice Changing Land Managementprovides key insights from past and cutting edge research to support decision makers as they attempt to assist rural communities adapting to changed circumstances such as new technologies new environmental imperatives new market opportunities or changed climate Common themes are the need for an appreciation of the diversity of land managers and their contexts of the diversity of factors that influence land management decisions and of the challenges that face government programs that are intended to change land management
