The Earthwise Herbal, Volume II Matthew Wood,2011-07-05 The first part in a comprehensive two volume guide on the use of medicinal plants in Western herbal medicine from an author who has almost forty years of clinical experience The first in a two volume set The Earthwise Herbal profiles Old World plants volume two will treat American plants Organized alphabetically the book encompasses all the major and many of the secondary herbs of traditional and modern Western herbalism Author Matthew Wood describes characteristic symptoms and conditions in which each plant has proved useful in the clinic often illustrated with appropriate case histories He also takes a historical view based on his extensive study of ancient and traditional herbal literature Written in an easy engaging non technical style The Earthwise Herbal offers insight into the logic of the plant how it works in what areas of the body it works how it has been used in the past what its pharmacological constituents indicate about its use and how all these different factors hang together to produce a portrait of the plant as a whole entity Ideal for beginners serious students or advanced practitioners The Earthwise Herbal is also useful for homeopaths and flower essence practitioners as it bridges these fields in its treatment of herbal medicines

constitutional types energetic categories and specific systems so herbalists can more easily identify the right remedies for a specific condition Unlike many reference books in which medicinal plants are defined simply by condition or disease name this book offers tools for differentiating between remedies and analyzing each case in a holistic fashion While this system of cross referencing is well known to homeopaths it is less frequently used by herbalists The Earthwise Herbal Repertory seeks to bridge the gap between different healing systems incorporating knowledge from ancient Greek and traditional Native American medicine nineteenth century botanical medicine homeopathy and modern biomedical research This definitive repertory proves useful for homeopaths and herbalists professionals and home practitioners alike The Practice of Traditional Western Herbalism Matthew Wood,2013-04-02 The Practice of Traditional Western Herbalism places the function of western herbs in their true historical context apart from homeopathy traditional Chinese medicine and Ayurveda Recently there has been a revival of interest in western herbalism but practitioners haven t been able to explore its benefits due to a void of information on the topic the system of medicine the herbs fit into had all but disappeared To remedy the situation herbalist Matthew Wood has researched the old time practices and reconstructed them for modern use In resuscitating western herbal medicine and bringing it up to date he gives his readers a powerful tool for holistic theory and treatment Wood makes the point that plant medicines because they are made from a broad range of chemical components are naturally suited for the treatment of general patterns in the body He argues against the biomedical model of standardization in which herbs are refined and advertised as if they were drugs suited to an exact disease or condition *Holistic Medicine and the Extracellular Matrix* Matthew Wood,2021-09-28 Examines the function of the extracellular matrix the inner ocean that unifies all our cells and controls them in a coordinated and integrated fashion Explores how the extracellular matrix builds and repairs itself and how holistic therapy can be applied based on this knowledge Introduces new and old holistic and herbal protocols for treatment of the matrix The cells in our bodies are not independent units They do not control their own feeding elimination migration or reproduction they are controlled by signals from the extracellular matrix ECM that surrounds them This all encompassing inner ocean unifies all our cells and controls them in a coordinated and integrated fashion Revealing the stunning implications of the extracellular matrix Matthew Wood shows how it clearly explains the actions and efficacy of holistic therapies He explores the groundbreaking research of Alfred Pischinger who discovered the ECM in 1975 as well as the role of the matrix in transmitting and enacting the genetic code including the roles of the mitochondria the nucleus and ribosomes Wood explains how modern drugs directed at specific receptors on the cell membrane interfere with bodily self regulation He details how holistic therapies modify the environment of the cell and strengthen the whole bringing the body back to homeostasis and consequently offering true healing The Essential Guide to Aromatherapy and Vibrational Healing Margaret Ann Lembo,2016-03-08 Improve your life and enhance your healing practice with The Essential Guide to Aromatherapy and Vibrational Healing an A to Z guide to sixty essential oils and their corresponding vibrational elements
