Principles of Islamic Faith Aḥmad ibn ‘Abd al-Ḥalīm Ibn Taymīyah, As‘ad Namir Buşūl, 1992

Principles of Islamic Sociology Farid Younos, 2011 With the Islamic awakening in the Middle East the Principles of Islamic Sociology illustrates the nuts and bolts of Islamic society with a contemporary vision that is possible within the realm of Islamic law and thinking According to Muslim scholars the beauty of Islamic law is that it is not stagnant The Qur an applies to all ages and periods Dr Younos successfully demonstrates not only the principles of Islamic sociology as an academic

discipline but also a new thinking and vision for a Muslim society in the contemporary world This book answers a compelling question In what way should Muslims decide on their social existence in the age of globalization Reforms within Muslim societies is a must The only solution is reform their socio political system by implementing Islamic values based upon a new interpretation of Islam Principles of Islamic Sociology has managed to achieve that goal First Principles of Islamic Economics Sayyid Abul A'la Mawdudi,2013-05-23 Abul A la Mawdudi laid down the foundations of modern Islamic economics Drawing upon Islamic sources Mawdudi spelled out a new paradigm for economic analysis and policy wherein economic pursuits take place in the context of moral values and are directed towards the achievement of personal and social objectives Integral to this approach is the concept of an interest free economy that attempts to make efficiency and equity inseparable and interdependent The creation and distribution of wealth thus become instrumental in promoting individual and social wellbeing opening up pathways to development social justice and human welfare This comprehensive anthology collects all of his major writings and provides a historic as well as an essential introduction to Islamic economics Abul A la Mawdudi 1903 1979 was a leading Muslim intellectual and a chief architect of the Islamic revival in the twentieth century In 1941 he founded Jama at i Islami a political party in Pakistan which he led until 1972 He authored more than a hundred works on Islam both popular and scholarly and his writings have been translated into some forty languages *Principles of Islamic Psychology* Farid Younos,2017-05-09 Psychology is the study of mind and this is exactly why the Quran put a great emphasis between the relationship of man and his Creator and the role faith plays intellectually and spiritually in our lives The Quran is a book of wisdom and it includes all aspects of human life Religion as a matter of fact is an intellectual property that cannot be seen So the mind cannot be seen Human beings are curious creatures This curiosity elaborated in the story of Abraham when he wanted to find the truth for himself Finding the truth is a principle of science and research Islamic psychology is based on three principles namely theo ethics socio ethics and psycho ethics which discusses human relations from a psychological point of view It is the mind that relates to all aspects of life Therefore Islamic psychology deals with all spheres that originate from God alone For that ego or self plays a major role and makes mankind responsible for all his actions Since Islam is a religion of unity then all processes of mind interrelate to not only self but also to God and society Therefore like any other field of knowledge it is hard to separate psychology or the study of mind from other life principles As a matter of fact it is the mind that regulates other affairs being good or bad Islamic psychology emphasizes on making humans responsible for their inner soul activities which lead either to felicity or destruction Since religion is an intellectual property then the study of mind is also a spiritual and intellectual property *Basic Principles of Islam* Shareef Ahmad,1998
