**Life Writings, II** Elizabeth Skerpan-Wheeler, 2017-03-02 Early modern men and women represented their lives very differently from twentieth century autobiographers sharing none of the current preoccupation with individuality and the unique self The writers represented in this two volume collection sought connections between particular events in their lives and the larger pattern of Christian salvation The texts reproduced here are united in the way they interconnect personal experiences and feelings with scriptural passages in an attempt to understand daily life in spiritual terms Almost all the women whose works appear in these volumes would have been considered religious radicals by their contemporaries Living through the turbulent times of the English Revolution 1642 1660 it is unsurprising that their life writings are marked by a sense of persecution Many of them spent time in prison Katherine Evans Sarah Cheevers and Barbara Blaugdane were all imprisoned for preaching the faith of The Society of Friends while Mary Rowlandson spent several months as a captive of North American Indians In her introduction to these writings Elizabeth Skerpan Wheeler provides brief biographical sketches of these writers together with details of the publication history of each text With the exception of Rowlandson's works the writings in these volumes are the first complete unabridged editions in modern times **Life Writings**, 1650 **Women and the Rise of the Novel, 1405-1726** J. The Oxford History of Life Writing: Volume 2. Early Modern Alan Stewart,2018-05-10 The Oxford History of Life Writing Volume2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn t intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it mean to write a life **The Oxford History of Life-writing** Karen Anne Winstead,Alan Stewart,2018 The Oxford History of Life Writing Volume 1 The Middle Ages explores the richness and variety of life writing in the Middle Ages ranging from Anglo Latin lives of missionaries prelates and princes to high medieval lives of scholars and visionaries to late medieval lives of authors and laypeople **The Early Modern Englishwoman** ,2001 The Oxford Handbook of English Prose, 1640-1714 ,2024-10-23 The Oxford Handbook of English Prose 1640 1714 is the most wide ranging overview available of

prose writing in English during one of the most tumultuous periods in British and Irish history Stretching from the outbreak of the English Civil Wars to the death of Queen Anne the last Stuart monarch the volume is unprecedented in the breadth of its coverage of an age in which prose moved from the margins of cultural life in Britain to its centre The volume also breaks new ground in the diversity of the prose writing it covers its thirty six chapters by an array of established literary critics and historians capture the excitingly multiple forms that prose took in what was a golden age for non fictional writing but which also saw the emergence of modes of prose fiction that became part of the origin story of the eighteenth century novel This Handbook reflects that multiplicity and diversity in its structure Four longer introductory chapters map the changing contexts of the publication and reception of prose in the period as well as the influence of the classical heritage and the role of relations with continental Europe The subsequent thirty two chapters are organized by different categories of prose writing The contributors approach key authors and texts from various and often unconventional perspectives The volume offers coverage of well known writers and texts while also capturing the assortment of prose writing in a time of rapid political and social change there are chapters on for example Bites and Shams Circulation Narratives Keys Pornography Recipe Books True Accounts and even Handbooks *The History of the Book in the West: 1700-1800* Eleanor F.

Shevlin, 2017-03-02 Influenced by Enlightenment principles and commercial transformations the history of the book in the eighteenth century witnessed not only the final decades of the hand press era but also developments and practices that pointed to its future the foundations of modern copyright a rapid growth in the publication circulation and reading of periodicals the promotion of niche marketing alterations to distribution networks and the emergence of the publisher as a central figure in the book trade to name a few The pace and extent of these changes varied greatly within the different sociopolitical contexts across the western world The volume's twenty four articles many of which proffer broader theoretical implications beyond their specific focus highlight the era's range of developments Complementing these articles the introductory essay provides an overview of the eighteenth century book and milestones in its history during this period while simultaneously identifying potential directions for new scholarship **The One-Sex Body on Trial: The Classical and**

**Early Modern Evidence** Professor Helen King, 2013-11-28 By far the most influential work on the history of the body across a wide range of academic disciplines remains that of Thomas Laqueur This book puts on trial the one sex two sex model of Laqueur's *Making Sex Body and Gender from the Greeks to Freud* through a detailed exploration of the ways in which two classical stories of sexual difference were told retold and remade from the mid sixteenth to the nineteenth century Agnodike the first midwife who disguises herself as a man and then exposes herself to her potential patients and Phaethousa who grows a beard after her husband leaves her are stories from the ancient world that resonated in the early modern period in particular Tracing the reception of these tales shows how they provided continuity despite considerable change in medicine being the common property of those on different sides of professional disputes about women's roles in both medicine and

midwifery The study reveals how different genres used these stories changing their characters and plots but always invoking the authority of the classics in discussions of sexual identity The study raises important questions about the nature of medical knowledge the relationship between texts and observation and the understanding of sexual difference in the early modern world beyond the one sex model

*Texts from the Querelle, 1616-1640* Pamela J. Benson,2017-03-02 Misogyny and its opposite philogyny have been perennial topics in Western literature from its earliest days to the present day but only at certain historic periods have pro woman authors challenged fundamental negative assumptions about women by engaging in formal debate with misogynists

and juxtaposing these two attitudes toward women in pairs or series of texts devoted exclusively to discussing womankind This dialectic of attack on and defence of the female sex known as the querelle des femmes debate about women was especially popular among authors and readers during the sixteenth and earlier seventeenth centuries in England At least 36 texts exclusively devoted to attacking and or defending women were published in the hundred years between 1540 and 1640 The works included in these two volumes exemplify the content and the methods of debate in England during those two centuries Volume two includes texts from 1616 through to 1640 [The Monument of Matrones Volume 1 \(Lamps 1-3\)](#) Colin B. ph scale acids bases ph and buffers article khan academy - Dec 15 2022

buffers typically consist of an acid base pair with the acid and base differing by the presence or absence of a proton a conjugate acid base pair for instance one of the buffers that maintain the ph of human blood involves carbonic acid  $\text{H}_2\text{CO}_3$  and its conjugate base the bicarbonate ion  $\text{HCO}_3^-$

**acid base reaction wikipedia** - Oct 13 2022

an acid and a base react not to produce a salt and a solvent but to form a new acid and a new base the concept of neutralization is thus absent brønsted lowry acid base behavior is formally independent of any solvent making it more all encompassing than the arrhenius model

14 3 relative strengths of acids and bases chemistry libretexts - Jul 10 2022

oct 4 2023 brønsted lowry acid base chemistry is the transfer of protons thus logic suggests a relation between the relative strengths of conjugate acid base pairs the strength of an acid or base is quantified in its ionization constant  $K_a$  or  $K_b$  which represents the extent of the acid or base ionization reaction

**overview of acids and bases chemistry libretexts** - Jan 16 2023

jan 30 2023 acetic acid is a weak acid  $K_a = 1.8 \times 10^{-5}$  and acetate is a weak base  $K_b = K_w / K_a = 5.6 \times 10^{-10}$  like acids strong and weak bases are classified by the extent of their ionization strong bases disassociate almost or entirely to completion in aqueous solution
