the first stirrings of modernism to contemporary poetics the modernist aesthetic project could be described as a form of phenomenological reduction that attempts to return to the invisible and unsayable foundations of human perception and expression prior to objective points of view and scientific notions It is this aspect of modernism that this book brings to the fore The essays presented here bring into focus the contemporary face of ongoing debates about phenomenology and modernism The contributors forcefully underline the intertwining of modernism and phenomenology and the extent to which the latter offers a clue to the former The book presents the viewpoints of a range of internationally distinguished critics and scholars with diverse but closely related essays covering a wide range of fields including literature architecture philosophy

and musicology The collection addresses critical questions regarding the relationship between phenomenology and modernism with reference to thinkers such as Edmund Husserl Maurice Merleau Ponty Martin Heidegger Michel Henry and Paul Ricoeur By examining the contemporary philosophical debates this cross disciplinary body of research reveals the pervasive and far reaching influence of phenomenology which emerges as a heuristic method to articulate modernist aesthetic concerns Victorian Fantasists David Jasper,Kath Filmer,1991-04-05 **Decadent Enchantments** Katherine Bergeron,2023-04-28 The oldest written tradition of European music the art we know as Gregorian chant is seen from an entirely new perspective in Katherine Bergeron s engaging and literate study Bergeron traces the history of the Gregorian revival from its Romantic origins in a community of French monks at Solesmes whose founder hoped to rebuild the moral foundation of French culture on the ruins of the Benedictine order She draws out the parallels between this longing for a lost liturgy and the postrevolutionary quest for lost monuments that fueled the French Gothic revival a quest that produced the modern concept of restoration Bergeron follows the technological development of the Gregorian restoration over a seventy year period as it passed from the private performances of a monastic choir into the public commodities of printed books photographs and Gramophone records She discusses such issues as architectural restoration the modern history of typography the uncanny power of the photographic image and the authority of recorded sound She also shows the extent to which different media shaped the modern image of the ancient repertory an image that gave rise to conflicting notions not only of musical performance but of the very idea of music history The oldest written tradition of European music the art we know as Gregorian chant is seen from an entirely new perspective in Katherine Bergeron s engaging and literate study Bergeron traces the history of the Gregorian revival from its Romantic origin *The Kelmscott Press* William S.
