Printing Power:

Printing, Power, and Piety Brad C. Pardue, 2012-08-27 This book explores the important implications of printed vernacular appeals to a nascent public by the reformer William Tyndale by religious conservatives such as Thomas More and by Henry VIII's regime in the volatile early years of the English Reformation

Print, Power, and Cultural Hegemony Federico Dal Bo, 2024-09-23 Federico Dal Bo examines the design of early Hebrew books from the late fifteenth and sixteenth centuries focusing not only on the words in these early books but also on how they were arranged on the page. He follows in the tradition of scholars such as Christopher de Hamel, Marvin J. Heller, and David Stern who have explored the importance of these Hebrew books in influencing Jewish learning and attracting the interest of Christians. The author discusses important prints such as the first Talmud and rabbinical bibles which marked a shift from being for Jewish readers only to being for both Jews and Christians. The collaboration between Jewish editors and Christian printers changed the way these books looked and the audience for whom they were intended. At first these early prints copied the style of handwritten Hebrew manuscripts. The simple layout could be difficult to read especially for long books like the Bible or Talmud. But over time influenced by the humanism of the Italian Renaissance the layout became more complex. The book also looks at how the layout changed from full page commentaries to a more complicated design in which the main text and commentaries shared the same page. This shift challenged the idea of who was the primary author and emphasized the role of editors. The layout with the main text in the center and the commentaries on the sides created a kind of unwritten rule for how to read religious texts. Dal Bo's study also includes new information about a 1553 trial in which the Talmud was burned. Overall it explores how the layout of these early Hebrew books shaped cultural power and influenced how people read

Print and Power in Early Modern Europe (1500-1800) Nina Lamal, Jamie Cumby, Helmer J. Helmers, 2021-06-08 Print in the early modern period could make or break power. This volume addresses one of the most urgent and topical questions in early modern history: how did European authorities use a new medium with such tremendous potential? The eighteen contributors develop new perspectives on the relationship between the rise of print and the changing relationships between subjects and rulers by analysing print's role in early modern bureaucracy, the techniques of printed propaganda, genres and strategies of state communication. While print is often still thought of as an emancipating and disruptive force of change in early modern societies, the resulting picture shows how instrumental print was in strengthening existing power structures. Contributors: Renaud Adam, Martin Christ, Jamie Cumby, Arthur der Weduwen, Nora Epstein, Andreas Golob, Helmer Helmers, Jan Hillg rthner, Rindert Jagersma, Justyna Kilia, czyk Zi ba, Nina Lamal, Margaret Meserve, Rachel Midura, Gautier Mingous, Ernesto E Oyarbide, Maga a Caren Reimann, Chelsea Reutchke, Celyn David, Richards Paolo, Sachet Forrest, Strickland and Ramon Voges
