Reading and Writing Italian Homosexuality Derek Duncan,2017-09-29 Derek Duncan s timely study is the first book in

English to examine constructions of male homosexuality in Italian literature In admirably clear and elegant prose Duncan analyzes texts ranging from the 1890s through the 1990s He brings canonical authors like D Annunzio and Pasolini together with under appreciated writers like Comisso and also looks at less conventionally literary genres Duncan takes on the thorny theoretical issues surrounding questions of gay identity and also provides a sound historical context for his discussion of how Italian narrative sheds light on Italian homosexuality and on the broader issues attending contemporary sexuality including complicating factors such as race While the early texts considered were produced at a historical moment when homosexuality as a culturally meaningful entity had yet to crystallize recent autobiographies show the authors reflecting explicitly on questions of gay identity and what it means to be a homosexual male in present day Italy In charting the emergence of the homosexual in twentieth century Italy however Duncan s focus is less on questions of identity than on the meaning attributed to sex between men in the broader cultural context His book is a significant contribution to Italian literary criticism and to gender gay and cultural studies

Women in Italy, 1945-1960: An

Interdisciplinary Study P. Morris, 2006-10-30 This volume brings together specialists from a variety of disciplines to develop a deeper understanding of the social political and cultural history of women in Italy in the years 1946-1960. Despite being a time when women and the family were at the center of national debates and when society changed considerably, the fifteen years following the Second World War have tended to be overlooked or subsumed into discussions of other periods. By focusing on the experience of women and by broadening the frame of reference to include subjects and sources often ignored or only alluded to by traditional analyses, the essays in this volume break new ground and provide a corrective to previous interpretive models.

Methods of Murder Elena M. Past, 2012-03-13 The first extended analysis of the relationship between Italian criminology and crime fiction in English, *Methods of Murder* examines works by major authors, both popular such as Gianrico Carofiglio and canonical such as Carlo Emilio Gadda. Many scholars have argued that detective fiction did not exist in Italy until 1929 and that the genre, which was considered largely Anglo-Saxon, was irrelevant on the Italian peninsula. By contrast, Past traces the roots of the twentieth-century literature and cinema of crime to two much earlier, diverging interpretations of the criminal: the bodiless figure of Cesare Beccaria's Enlightenment era *On Crimes and Punishments* and the biological offender of Cesare Lombroso's positivist *Criminal Man*. Through her examinations of these texts, Past demonstrates the links between literary, philosophical, and scientific constructions of the criminal and provides the basis for an important reconceptualization of Italian crime fiction.

The Cinema of Italy Giorgio Bertellini, 2004 Giorgio Bertellini examines the historical and aesthetic connections of some of Italy's most important films with both Italian and Western film culture.
