## **Prisons And Beyond:**

Prisons and Beyond Sanford Bates, 1936 The author a professional in the field of prison supervision criticizes the practices encountered in the average American county jail and argues for alternative prison methods Beyond Prisons Laura Magnani, Harmon L. Wray, The Society of Friends Quakers founded America's first penitentiary in the 1790s For more than forty years the American Friends Service Committee has worked with prisoners parolees and victims of crime seeking just alternatives to incarceration In Beyond Prisons the AFSC offers a powerful moral critique of the American criminal justice system and describes a new paradigm for dealing with criminals based on restorative justice and reconciliation The authors include a specific twelve point plan for immediate changes Book jacket **Prison Gangs Behind Bars and Beyond** Dev Rup Maitra, 2023-06-19 This book draws on a four year ethnographic study conducted in the prisons and on the streets of Greater Manchester England to examine gangs and organised crime in the North of England It includes the personal testimonies of active prison gang members and major organised crime figures many of whom are behind bars and some active street gang members It presents an holistic account by exploring the linkages that exist between prisons and the streets including the lines of continuity between gangs on both sides of the prison walls and how gang affiliation straddles this divide It offers data on the region's drug market specifically Class A drugs as this market is the lynchpin of the underworld both within and without prison It also includes the perspectives and insights of prison officers police detectives youth workers active and former street gang members and the parents of deceased gang members This is a ground breaking contemporary study analysing English gang compositions and activities with its findings and results based on qualitative interviews and ethnographic research Beyond the Prison Industrial Complex Kevin Wehr, Elyshia Aseltine, 2013-06-26 This short text ideal for Social Problems and Criminal Justice courses examines the American prison system its conditions and its impact on society Wehr and Aseltine define the prison industrial complex and explain how the current prison system is a contemporary social problem They conclude by using California as a case study and propose alternatives and alterations to the prison system **Beyond Walls and Cages** Jenna M. Loyd, Matt Mitchelson, Andrew Burrige, 2013-12-01 The crisis of borders and prisons can be seen starkly in statistics In 2011 some 1 500 migrants died trying to enter Europe and the United States deported nearly 400 000 and imprisoned some 2 3 million people more than at any other time in history International borders are increasingly militarized places embedded within domestic policing and imprisonment and entwined with expanding prison industrial complexes Beyond Walls and Cages offers scholarly and activist perspectives on these issues and explores how the international community can move toward a more humane future Working at a range of geographic scales and locations contributors examine concrete and ideological connections among prisons migration policing and detention border fortification and militarization They challenge the idea that prisons and borders create safety security and order showing that they can be forms of coercive mobility that separate loved ones disempower communities and increase

shared harms of poverty Walls and cages can also fortify wealth and power inequalities racism and gender and sexual oppression As governments increasingly rely on criminalization and violent measures of exclusion and containment strategies for achieving change are essential Beyond Walls and Cages develops abolitionist no borders and decolonial analyses and methods for social change showing how seemingly disconnected forms of state violence are interconnected Creating a more just and free world whether in the Mexico U S borderlands the Morocco Spain region South Africa Montana or Philadelphia requires that people who are most affected become central to building alternatives to global crosscurrents of criminalization and militarization Contributors Olga Aksyutina Stokely Baksh Cynthia Bejarano Anne Bonds Borderlands Autonomist Collective Andrew Burrige Irina Contreras Renee Feltz Luis A Fernandez Ruth Wilson Gilmore Amy Gottlieb Gael Guevara Zoe Hammer Julianne Hing Subhash Kateel Jodie M Lawston Bob Libal Jenna M Loyd Lauren Martin Laura McTighe Matt Mitchelson Maria Cristina Morales Alison Mountz Ruben R Murillo Joseph Nevins Nicole Porter Joshua M Price Said Saddiki Micol Seigel Rashad Shabazz Christopher Stenken Proma Tagore Margo Tamez Elizabeth Vargas Monica W Varsanyi Mariana Viturro Harsha Walia Seth Freed Wessler

The American Prison Francis T. Cullen, Mary K. Stohr, 2014 For the first time in four decades prison populations are declining and politicians have reached the consensus that mass imprisonment is no longer sustainable At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders The American Prison Imagining a Different Future by Francis T Cullen Cheryl Lero Johnson and Mary K Stohr pulls together established correctional scholars to imagine what this prison future might entail Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay

**The English Prison Health System After a Decade of Austerity, 2010-2020** Nasrul Ismail, 2022-11-21

Austerity has reconfigured and scaled back the governance and delivery of public services and negatively affected society's most vulnerable groups This book opens up the closed world of English prisons to examine its impact on prison health governance and healthcare delivery It argues that austerity has been a decade long large scale political experiment that has caused debt to balloon eroded the prison health system and perpetuated a cycle of punishment resulting in sicker prisoners In short austerity has violated prisoners human rights Drawing on interviews and data from existing longitudinal and

economic analyses the book demonstrates how austerity has resulted in high rates of recidivism diminished what remains of the welfare state and increased inequality and punitiveness Despite a decade of failure there is a marked political reluctance to dispense with austerity and the governmental juggernaut continues to produce the same result As the spectre of recession increases caused in part by Brexit and COVID 19 these failures are ever more perilous This book blends the interdisciplinary perspectives of criminology public health sociology law social policy politics and economics to enable greater understanding of the impact of austerity on health governance prison healthcare the prison workforce and prisoners health and safety It challenges current policy practice and thinking and is a must read for anyone who wants to reflect on how the political economic structure can affect the governance and delivery of healthcare services in marginalised settings beyond prisons and indeed beyond England

Labour Legislation in Canada Canada. Dept. of Labour,1929

Respect and Criminal Justice The Shaw Foundation Fellow in Law Gabrielle Watson,2019-12-31 Respect and Criminal Justice offers the first sustained examination of respect in criminal justice in England and Wales where the value is elusive but of persisting significance Advancing a critique of the respect deficit in policing and imprisonment the book is concerned with the ways in which both institutions are merely constrained and not characterised by respect It emerges that they appeal to the word respect relying on its0inclusive ethos in official discourse when it is expedient to do so but rarely and only superficially address the prior question of what it is to respect and be respected The result is that respect is more akin to a slogan than a foundational value of criminal justice practice 0The book will be of interest to academics and students across the humanities and social sciences and especially in law criminal justice and philosophy as well as criminal justice practitioners and policymakers
