The Naked Crowd Jeffrey Rosen, 2005-01-11 In *The Naked Crowd* acclaimed author Jeffrey Rosen makes an impassioned argument about how to preserve freedom privacy and security in a post 9 11 world How we use emerging technologies he insists will be crucial to the preservation of essential American ideals In our zeal to catch terrorists and prevent future catastrophic events we are going too far largely because of irrational fears and violating essential American freedoms That s the contention at the center of this persuasive new polemic by Jeffrey Rosen legal affairs editor of *The New Republic* which builds on his award winning book *The Unwanted Gaze* Through wide ranging reportage and cultural analysis Rosen argues that it is possible to strike an effective and reasonable balance between liberty and security Traveling from England to Silicon Valley he offers a penetrating account of why well designed laws and technologies have not always been adopted Drawing on a broad range of sources from the psychology of fear to the latest Code Orange alerts and airport security technologies he also explores the reasons that the public the legislatures the courts and technologists have made feel good choices that give us the illusion of safety without actually making us safer He describes the dangers of implementing poorly thought out technologies that can make us less free while distracting our attention from responses to terrorism that might work Rosen also considers the social and technological reasons that the risk averse democracies of the West continue to demand ever increasing levels of personal exposure in a search for an illusory and emotional feeling of

security In Web logs chat rooms and reality TV shows an increasing number of citizens clutter the public sphere with private revelations best kept to themselves The result is the peculiar ordeal of living in the Naked Crowd in which few aspects of our lives are immune from public scrutiny With vivid prose and persuasive analysis The Naked Crowd is both an urgent warning about the choices we face in responding to legitimate fears of terror and a vision for a better future

The Naked Corporation Don Tapscott, David Ticoll, 2003-10-07 Welcome to the world of the naked corporation Transparency is revolutionizing every aspect of our economy and its industries and forcing firms to rethink their fundamental values We are in an extraordinary age where businesses must make themselves clearly visible to shareholders customers employees partners and society Financial data employee grievances internal memos environmental disasters product weaknesses international protests scandals and policies good news and bad all can be seen by anyone who knows where to look Don Tapscott bestselling author and one of the most sought after strategists and speakers in the business world is famous for seeing into the future and pointing out both its forest and its trees David Ticoll visionary researcher columnist and consultant has identified countless breakthrough trends at the intersection of technology and business strategy These two longtime collaborators now offer a brilliant guide to the new age of openness In The Naked Corporation they explain how the new transparency has caused a power shift toward customers employees shareholders and other stakeholders how and where information has exploded and how corporations across many industries have seized on transparency not as a challenge but as an opportunity Drawing on such examples as Shell Oil's reinvention of itself as an environmentally focused business to Johnson Johnson's longstanding and carefully nurtured reputation as a company worthy of trust as well as little known examples from pharmaceuticals insurance high technology and financial services Tapscott and Ticoll offer invaluable advice on how to lead the new age rather than simply react to it The Naked Corporation is a book for managers employees investors customers and anyone who cares about the future of the corporation and society

The Governance of Privacy Colin J. Bennett, Charles Raab, 2006-05-11 Analyzes privacy policy instruments available to contemporary industrial states from government regulations and transnational regimes to self regulation and privacy enhancing technologies Privacy protection according to Colin Bennett and Charles Raab involves politics and public policy as much as it does law and technology Moreover the protection of our personal information in a globalized borderless world means that privacy related policies are inextricably interdependent In this updated paperback edition of The Governance of Privacy Bennett and Raab analyze a broad range of privacy policy instruments available to contemporary advanced industrial states from government regulations and transnational regimes to self regulation and privacy enhancing technologies They consider two possible dynamics of privacy regulation a race to the bottom with competitive deregulation by countries eager to attract global investment in information technology versus a race to the top with the progressive establishment of global privacy standards Bennett and Raab begin by discussing the goals of privacy protection the liberal and individualist assumptions behind it and the neglected

relationship between privacy and social equity They describe and evaluate different policy instruments including the important 1995 Directive on Data Protection from the European Union as well as the general efficacy of the top down statutory approach and self regulatory and technological alternatives to it They evaluate the interrelationships of these policy instruments and their position in a global framework of regulation and policy by state and non state actors And finally they consider whether all of this policy activity at international national and corporate levels necessarily means higher levels of privacy protection
