Consumer Privacy and Data Protection ,2014 **Privacy and Personal Data Protection Law in Asia** Adrian Mak,Ching Him Ho,Anselmo Reyes,Paul Beaumont,2025-01-23 Covering 16 Asian jurisdictions representing differing stages in the development of data protection regulatory systems this book offers an in depth cross jurisdictional commentary on the developing world of Asian privacy and personal data protection with a special focus on private international law issues It brings together an international team of contributors who reflect on the framework of data privacy and protection laws in their respective regions Topics discussed range from the extent to which such laws may have extraterritorial effect or may conflict with the laws of other states to shortcomings of existing systems and their potential for improvement More than a valuable contribution to comparative

private conflict of laws literature from an Asian perspective the book also considers possible future trajectories for existing laws It covers the extent to which Asian regimes will inevitably need to integrate with ever evolving privacy and personal data protection initiatives in the EU the USA and China It also assesses the extent to which existing regimes are sufficiently robust to handle the challenges of future technical developments in data collection and data transfer across borders especially in relation to the activities of giant corporations such as Meta Facebook Google Amazon Alibaba and Tencent The result is a wide ranging and forward thinking resource which provides practitioners and researchers with an account of data privacy law and personal data protection laws in Asia and their cross border implications as those regulations are now and as they might be in the future

Data Protection and Data Access Ekkehard Mochmann,1990 Paperback This publication deals with data protection and data access in the social sciences The first part consists of reports from ten countries covering country specific legislation and discussing problems and solutions concerning data access for research purposes Subjects considered include practical examples of new methods to give access to machine readable data files and the implications of privacy legislation and data protection for social science research The second part consists of an international bibliography on the subject The reports and bibliography form an update to the subject of data protection and data access for research at a time that overall computerization of personal information has become a reality and many countries have revised their legislation on privacy and data access

Technology and Privacy Philip Agre,Marc Rotenberg,1998 Over the last several years the realm of technology and privacy has been transformed creating a landscape that is both dangerous and encouraging Significant changes include large increases in communications bandwidths the widespread adoption of computer networking and public key cryptography new digital media that support a wide range of social relationships a massive body of practical experience in the development and application of data protection laws and the rapid globalization of manufacturing culture and policy making The essays in this book provide a new conceptual framework for the analysis and debate of privacy policy and for the design and development of information systems

Regulating Privacy Colin J. Bennett,2018-07-05 The information revolution has brought with it the technology for easily collecting personal information about individuals a facility that inherently threatens personal privacy Colin J Bennett here examines political responses to the data protection issue in four Western democracies comparing legislation that the United States Britain West Germany and Sweden forged from the late 1960 s to the 1980 s to protect citizens from unwanted computer dissemination of personal information Drawing on an extensive body of interviews and documentary evidence Bennett considers how the four countries each with different cultural traditions and institutions formulated fair information policy He finds that their computer regulatory laws are based on strikingly similar statutory principles but that enforcement of these principles varies considerably the United States relies on citizen initiative and judicial enforcement Britain uses a registration system Germany has installed an ombudsman and Sweden employs a licensing system Tracing the impact of key social political and

technological factors on the ways different political systems have controlled the collection and communication of information Bennett also deepens our understanding of policymaking theory Regulating Privacy will be welcomed by political sciences especially those working in comparative public policy American politics organization theory and technology and politics political economists information systems analysts and others concerned with issues of privacy
