Rational Faith Catholic Responses To Reformed Epistemology:

Rational Faith Linda Trinkaus Zagzebski, 1993 *Rational Faith* contains nine new essays by Catholic philosophers who critically evaluate the recent work of the Reformed epistemologists including Alvin Plantinga Nicholas Wolterstorff and George Mavrodes Although the contributors employ a distinctly Catholic perspective their papers are by no means wholly polemical instead each reflects an appreciation of the importance of Reformed epistemology and its impact on contemporary religious philosophy

Epistemology as Theology James Beilby, 2017-09-29 Alvin Plantinga is arguably one of the most influential philosophers of our time Much of his career has been devoted to explaining and defending the intellectual acceptability of Christian belief Recently he has developed a comprehensive rigorous and distinctively Christian religious epistemology This book presents the development of Plantinga's religious epistemology before considering Plantinga's mature religious epistemology in detail Locating Plantinga's most recent work in the context of his theological assumptions his previous work on religious epistemology and in the context of the current debate over how knowledge should be characterized Beilby blends theological and philosophical discussion to offer a unique perspective on Plantinga's influential proposal

Encountering Religious Pluralism Harold Netland, 2001-08-14 Harold Netland traces the emergence of the pluralistic ethos that challenges Christian faith and mission interacting heavily with philosopher John Hick and providing a framework for developing a comprehensive evangelical theology of religions

God, the Good, and the Spiritual Turn in Epistemology Roberto Di Ceglie, 2022-08-18 In this book Roberto Di Ceglie offers an historical theological and epistemological investigation exploring how commitments to God and or the good generate the optimum condition to achieve knowledge Di Ceglie criticizes the common belief that to attain knowledge one must always be ready to replace one's convictions with beliefs that appear to be proven He defends a more comprehensive view historically exemplified by outstanding Christian thinkers whereby believers are expected to commit themselves to God and to related beliefs no matter how convincing the evidence contradicting such beliefs appears to be He also argues that both believers and unbelievers can commit themselves to God and the good respectively thereby creating a spiritual turn in epistemology that enables them to generate the best possible condition for conducting rational enquiries and discussion

Alvin Plantinga and Christian Apologetics Keith A. Mascord, 2007-01-01 The distinguished American philosopher Alvin Plantinga has had a career long interest in the defense of Christian belief There hasn't been a major contemporary challenge to such belief that Plantinga has not in some way addressed This book draws together those contributions highlighting particularly Plantinga's groundbreaking work in the areas of epistemology and the problem of evil Historical and biographical background information is included to give perspective to Plantinga's work His theory that both theistic and Christian belief is warranted and basic is explored and critiqued and an assessment is offered as to the significance of Plantinga's work for apologetic theory and practice

The Historical Christ and the Jesus of Faith C. Stephen Evans, 1996 The story of Jesus of Nazareth as

recounted in the New Testament has always been understood by the church to be historically true. It is an account of the life, death, and resurrection of a real person whose links with history are firmly signalled in the creeds of the early church which affirm that Jesus suffered under Pontius Pilate. Yet contemporary historical scholarship has however called into question the reliability of the church's version of this story. Can such a story be historically true? This book argues that it can. A careful look at contemporary New Testament studies and the philosophical and literary assumptions upon which it rests shows that this scholarship should not undermine the confidence of lay people who believe that they can know that the church's story about Jesus is true. The story of Jesus of Nazareth as recounted in the New Testament has always been understood by the church to be historically true. It is an account of the life, death, and resurrection of a real person whose links with history are firmly signalled in the creeds of the early church which affirm that Jesus suffered under Pontius Pilate. Contemporary historical scholarship has however called into question the reliability of the church's version of this story and thereby raised the question as to whether ordinary people can know its historical truth. This book argues that the historicity of the story still matters and that its religious significance cannot be captured by the category of non-historical myth. The commonly drawn distinction between the Christ of faith and Jesus of history cannot be maintained. The Christ who is the object of faith must be seen as historical; the Jesus who is reconstructed by historical scholarship is always shaped by commitments of faith. A reconsideration of the Enlightenment epistemologies that underlie much historical scholarship shows that historical knowledge of this story is still possible. Such knowledge can be inferential based on historical evidence. A careful look at contemporary New Testament studies and the philosophical and literary assumptions upon which it rests shows that this scholarship should not undermine the confidence of lay people who believe that they can know that the church's story about Jesus is true. A profound and moving defence of the need to ground the life and work of Jesus in what would be recognized by others as history. Those of a basically Reformed outlook will be inclined to share Dr Evans' views. It certainly deserves to be widely read and studied in evangelical circles where Dr Evans' robust convictions will warm the hearts of many. He is to be congratulated for producing such an outstanding work.

Churchman God, Reason, and Theistic Proofs Stephen T. Davis, 1997. Wisely structured and clearly written. *God, Reason, and Theistic Proofs* will make an excellent resource for those looking for an introduction to the debate surrounding the existence of God or for those seeking intellectual validation for their faith.

Theology's Epistemological Dilemma Kevin Diller, 2014-10-24. Karl Barth and Alvin Plantinga are not thought of as theological allies. Barth is famous for his opposition to philosophy's role in theology while Plantinga is famous for his emphasis on warranted belief. Kevin Diller argues that they actually offer a unified response to the central epistemological dilemma in theology.

Modern Christian Thought: The twentieth century James C. Livingston, Francis Schüssler Fiorenza. This widely acclaimed introduction to modern Christian thought, formerly published by Prentice Hall, provides full scholarly accounts of the major movements and thinkers, theologians and philosophers in the Christian tradition since the eighteenth

century Enlightenment together with solid historical background and critical assessments This second edition deals with the entire modern period in both Europe and America and is the first to include extensive treatment of modern Catholic thinkers Evangelical thought and Black and Womanist theology

Do Historical Matters Matter to Faith? James K. Hoffmeier, Dennis R. Magary, 2012-02-29 Is historical accuracy an indispensable part of the Bible's storyline or is Scripture only concerned with theological truths As progressive evangelicals threaten to reduce the Bible's jurisdiction by undermining its historical claims every Christian who cares about the integrity of Scripture must be prepared to answer this question *Do Historical Matters Matter to Faith* offers a firm defense of Scripture's legitimacy and the theological implications of modern and postmodern approaches that teach otherwise In this timely and timeless collection of essays scholars from diverse areas of expertise lend strong arguments in support of the doctrine of inerrancy Contributors explore how the specific challenges of history authenticity and authority are answered in the text of the Old and New Testaments as well as how the Bible is corroborated by philosophy and archaeology With contributions from respected scholars including Allan Millard Craig Blomberg Graham Cole Michael Haykin Robert Yarbrough and Darrell Bock *Do Historical Matters Matter to Faith* arms Christians with fresh insight arguments and language with which to defend Scripture's historical accuracy against a culture and academy skeptical of those claims

Speaking of God D. Stephen Long, 2009-05-21 In this theological tour de force D Stephen Long addresses a key question in current theological debate the conditions of the possibility of God talk along with attending questions about natural theology fideism and theological truth claims He engages not only the most significant contemporary theologians and philosophers on this score Denys Turner Bruce Marshall Charles Taylor Fergus Kerr but also the legacy of twentieth century theology Barth von Balthasar and the analytic philosophical tradition from Wittgenstein to Davidson Throughout Long sustains a careful exegetical engagement with Aquinas showing that what's at stake in contemporary theology is just how we inherit St Thomas Central to Long's project is averting the charge of fideism so often laid at the feet of postliberal approaches like his own To that end Long argues for a chastened natural theology while challenging any simple distinction between natural and confessional theology In joining these many voices into one conversation Long does a remarkable job of surveying the current theological scene with respect to issues of language and truth arguing for the need to deal head on with classical questions of metaphysics An excellent and significant book James K A Smith Calvin College

Long's discussion of the topic of God and language offers a refreshingly original treatment of traditional approaches His book cannot be ignored by anyone interested in this topic at any level John Milbank University of Nottingham

Religious Experience and the Knowledge of God Harold A. Netland, 2022-02-08 For many Christians personal experiences of God provide an important ground or justification for accepting the truth of the gospel But we are sometimes mistaken about our experiences and followers of other religions also provide impressive testimonies to support their religious beliefs This book explores from a philosophical and theological perspective the viability of divine encounters as support for belief in God

arguing that some religious experiences can be accepted as genuine experiences of God and can provide evidence for Christian beliefs

God and Knowledge Nathaniel Gray Sutanto, 2020-02-20 Nathaniel Gray Sutanto offers a fresh reading of Herman Bavinck's theological epistemology and argues that his Trinitarian and organic worldview utilizes an extensive range of sources Sutanto unfolds Bavinck's understanding of what he considered to be the two most important aspects of epistemology the character of the sciences and the correspondence between subjects and objects Writing at the heels of the European debates in the 19th and 20th century concerning theology's place in the academy and rooted in historic Christian teachings Sutanto demonstrates how Bavinck's argument remains fresh and provocative This volume explores archival material and peripheral works translated for the first time in English The author re-reads several key concepts ranging from Organicism to the Absolute and relates Bavinck's work to Thomas Aquinas Eduard von Hartmann and other thinkers Sutanto applies this reading to current debates on the relationship between theology and philosophy nature and grace and the nature of knowing and in doing so provides students and scholars with fresh methods of considering Orthodox and modern forms of thought and their connection with each other

Realism and Religion Michael Scott, 2017-09-29 This book draws together a distinguished group of philosophers and theologians to present new thinking on realism and religion The religious realism/antirealism debate concerns the questions of God's independence from human beings the nature of religious truth and our access to religious truths Although both philosophers and theologians have written on these subjects there has been little sustained investigation into these issues akin to that found in comparable areas of research such as ethics or the philosophy of science In addition the absence of any agreed approach to the problem underlines both the need for fresh thought on it and the fruitfulness of this area for further research The editors' introduction sets the context of the realism debate traces connections amongst the essays which follow and proposes lines for future development and enquiry The contributors present a variety of contrasting positions on key issues in the religious realism debate and each opens up new and important themes Gordon Kaufman Peter Lipton and Simon Blackburn provide the opening chapters and the context for the collection Alexander Bird John Hare Graham Oppy and Nick Trakakis Merold Westphal and John Webster explore topics that are central to the debate This volume of original essays will both introduce newcomers to the field and suggest new lines of research for those already familiar with it

Reason And Religious Faith Terence Penelhum, Emeritus, 2019-07-11 The concerns of philosophy and of religion overlap to a considerable extent each seeks among other things to develop an account of mankind's place in the universe But their relationship has never been an easy one Faith gives rise to philosophical puzzlement just as secular beliefs do but it also generates special philosophical questions that secular beliefs do not This engaging text encourages students and other readers to grapple with these special questions of faith to look at how they relate to other issues in philosophy and in the empirical study of religion Equally accurate and insightful in its treatment of historical authors such as Aquinas and Pascal as it is in treatment of such contemporaries as Plantinga and Alston Reason and

Religious Faith is the most up to date and balanced introduction to these issues available It marks an advance over earlier surveys in its recognition of religious pluralism and the relevance of non Christian religious views It is an ideal introduction to the issues of religious epistemology for students of both religious studies and philosophy A Dictionary of Philosophy of Religion Charles Taliaferro,2010-08-19 A Dictionary of Philosophy of Religion is an indispensable resource for students and scholars Covering historical and contemporary figures arguments and terms it offers an overview of the vital themes that make philosophy of religion the growing vigorous field that it is today It covers world religions and sources from east and west Entries have been crafted for clarity succinctness and engagement Named a Choice Outstanding Academic Title 2011

Warranted Christian Belief Alvin Plantinga,2000-01-27 This is the third volume in Alvin Plantinga s trilogy on the notion of warrant which he defines as that which distinguishes knowledge from true belief In this volume Plantinga examines warrant s role in theistic belief tackling the questions of whether it is rational reasonable justifiable and warranted to accept Christian belief and whether there is something epistemically unacceptable in doing so He contends that Christian beliefs are warranted to the extent that they are formed by properly functioning cognitive faculties thus insofar as they are warranted Christian beliefs are knowledge if they are true

The End of Philosophy of Religion Nick Trakakis,2011-10-20 The End of Philosophy of Religion explores the hitherto uncharted waters of the meta philosophy of religion that is the methods and assumptions underlying the divergent ways of writing and studying the philosophy of religion that have emerged over the last century It is also a first class study of the weaknesses of the analytic approach in philosophy particularly when it is applied to religious and aesthetic experience Nick Trakakis main line of argument is twofold Firstly the Anglo American analytic tradition of philosophy by virtue of its attachment to scientific norms of rationality and truth inevitably struggles to come to terms with the mysterious and transcendent reality that is disclosed in religious practice Secondly and more positively alternatives to analytic philosophy of religion are available not only within the various schools of so called Continental philosophy but also in explicitly narrative and literary approaches

Naturalism, Theism and the Cognitive Study of Religion Dr Aku Visala,2013-06-28 This book provides a critical philosophical analysis of the claim that contemporary cognitive approaches to religion undermine theistic beliefs Recent scientific work into the evolution and cognition of religion has been driven by and interpreted in terms of a certain kind of philosophical and methodological naturalism The book argues that such naturalism is not necessary for the cognitive study of religion and develops an alternative philosophical and methodological framework This alternative framework opens the cognitive study of religion to theological and philosophical considerations and clarifies its relationship to other approaches to religious phenomena This unique contribution to discussions regarding the philosophical and theological implications of the cognitive study of religion summarizes the so far fragmentary discussion exposes its underlying assumptions and develops a novel framework for further discussion *The Ashgate Research Companion to Contemporary Religion and Sexuality* Andrew K.T. Yip,2016-04-01 The Ashgate Research

Companion to Contemporary Religion and Sexuality provides academics and students with a comprehensive and authoritative state of the art review of current research in the area of sexuality and religion broadly defined This collection of expert essays offers an inter disciplinary study of the important aspects of sexuality and religion calling upon sociological cultural historical and theological contributions to an under researched subject The Companion focuses on the exploration of diverse religious faiths spiritualities and sexualities with contributions that embrace many contrasting approaches related to the contemporary context By adopting a truly inter disciplinary and multi dimensional perspective the Companion embraces the complexities of both sexuality and religion Aimed primarily at a readership with specialist interest in both The Ashgate Research Companion to Contemporary Religion and Sexuality offers an innovative and refreshing analysis of key theoretical and empirical issues in an increasingly relevant and expanding area of academic interest The Companion comprises five main thematic sections each with chapters ranging across a variety of crucial topics traversing various faith traditions The principal themes are epistemological and methodological issues the significance of religious text institutional religious settings stability transformation and change contesting hegemonic structures and discourses Each section includes four chapters contributed by leading international experts in their respective fields and who are at the cutting edge of current research Collectively they offer an inter disciplinary and comprehensive survey of sexuality and religion
