Rationalism And Humanism In The New Europe:

Rationalism and Humanism in the New Europe Christopher Macy, 1973-01-01 **Rationalism and Humanism in the New Europe** Rationalist Press Association, 1973 **Rationalism and Humanism in the New Europe** Rationalist Press Association. Annual Conference, 1973 *The Next Development of Mankind* Lancelot Whyte, 2017-09-29 This searching examination of human development provides new perspectives on the moral political scientific emotional and intellectual divisions of our time A physicist by profession Whyte looked beyond the boundaries of specialization for creative ways to approach the basic problem facing modern Western civilization Why are we so competent technically and yet unable to order our own affairs socially and personally He takes the reader with him on a journey that is nothing less than a new interpretation of the general development of human consciousness Whyte's thesis is that the current stage of human development makes not only necessary but inevitable constructing a unitary method of thought to overcome the dualism of the modern Western mind He argues that the deepest troubles of Western civilization are due in large part to excessive reliance on the ancient Greek postulates of permanence and invariance as an ordered form of thought resulting in an extreme mechanistic anti humanism What culminated in two world wars Whyte argued is a European dissociation or lesion This dissociation represents an achievement in terms of rational mastery of the natural and human worlds unique social dynamism and differentiation and the flowering of individuality But the price was high disordering of thought emotion and will conflict between our deliberate and spontaneous conscious and unconscious energies unstable polarization between a delusive unchanging ideal world and the reality of human transience and limitation Whyte chooses nine thinkers to illustrate this historical and evolutionary movement including Heraclitus Marx and Freud and the resulting rignettes are a synthesis of knowledge that suggest as well a reorientation of thought feeling and action for the future Lewis Mumford wrote of *The Next Development of Mankind* The book has intense and immediate value both for the practical person and for the theoretic thinker Sixty years a **Bibliographic Guide to Conference Publications** , 1976 Vols for 1975 include publications cataloged by the Research Libraries of the New York Public Library with additional entries from the Library of Congress MARC tapes *The Freethinker* , 1918 **The Gathering of Infidels** Bill Cooke, 2004 Gathering of Infidels In 1899 a small group of men under the leadership of Charles Albert Watts founded the Rationalist Press Association RPA in London Its mission was among other goals to promote rationalism and secular education as well as to publish freethought books at affordable prices For more than a century the RPA has served as a bastion of reason in an often irrational world Its Honorary Associates have included such luminaries of the 20th century as Albert Einstein Sigmund Freud J B S Haldane Julian Huxley Somerset Maugham Bertrand Russell H G Wells and others Now experienced freethought historian Bill Cooke has written the first history of the RPA delving deeply into its archives to tell a fascinating and illuminating story Cooke discusses the association's achievements and ideas and profiles the key people involved in its development At the same time he does not

shy away from its difficulties and controversies offering a critical perspective that rationalists will certainly appreciate He covers the historical background of the RPA s formation the crucial role played by Charles Albert Watts its enormous publishing successes the vicissitudes of war and peace and the evolution of rationalist ideas Full bibliographies and appendices are also included This scholarly yet highly readable and witty history of the Rationalist Press Association will be welcomed by all who value reason as humanity s best hope for the future Getting Over Europe Zoran Milutinović,2011 Preliminary Material Acknowledgments Introduction Cosmopolitan nationalism In a search of a slav mission authenticity and barbarity The Gentlemen The prophets of Europe s downfall and rebirth Oh to be a European What did Rastko Petrovi learn in Africa The great mechanism passes through Vi egrad Misunderstanding is the rule understanding is a miracle Epilogue Barbarians Dramatis personae in order of appearance Bibliography Index New Humanist ,1974 **Humanism and the Rhetoric of Toleration** Gary Remer,2010-11-01 Religious toleration is much discussed these days But where did the Western notion of toleration come from In this thought provoking book Gary Remer traces arguments for religious toleration back to the Renaissance demonstrating how humanist thinkers initiated an intellectual tradition that has persisted even to our present day Although toleration has long been recognized as an important theme in Renaissance humanist thinking many scholars have mistakenly portrayed the humanists as proto Enlightenment rationalists and nascent liberals Remer however offers the surprising conclusion that humanist thinking on toleration was actually founded on the classical tradition of rhetoric It was the rhetorician s commitment to decorum the ability to argue both sides of an issue and the search for an acceptable epistemological standard in probability and consensus that grounded humanist arguments for toleration Remer also finds that the primary humanist model for a full fledged theory of toleration was the Ciceronian rhetorical category of sermo conversation The historical scope of this book is wide ranging Remer begins by focusing on the works of four humanists Desiderius Erasmus Jacobus Acontius William Chillingworth and Jean Bodin Then he considers the challenge posed to the humanist defense of toleration by Thomas Hobbes and Pierre Bayle Finally he shows how humanist ideas have continued to influence arguments for toleration even after the passing of humanism from John Locke to contemporary American discussions of freedom of speech *Organization Studies and Posthumanism* François-Xavier de Vaujany,Silvia Gherardi,Polyana Silva,2024-04-05 This book aims at exploring the reception of critical posthumanist conversations in the context of Management and Organization Studies It constitutes an invitation to de center the human subject and thus an invitation to the ongoing deconstruction of humanism The project is not to deny humans but to position them in relation to other nonhumans more than humans the non living world and all the missing masses from organizational inquiry What is under critique is humanism s anthropocentrism essentialism exceptionalism and speciesism in the context of the Anthropocene and the contemporary crisis the world experiences From climate change to the loss of sense at work to the new geopolitical crisis to the unknown effects of the diffusion of AI all these powerful forces have implications for

organizations and organizing A re imagination of concepts theories and methods is needed in organization studies to cope with the challenge of a more than human world **Rationalism, Humanism, and Democracy** R. S. Yadava,V. M. Tarkunde,1985 **Humanism** Harold John Blackham,1976 Political Identification in Europe Amanda Machin,Nadine Meidert,2021-04-13 In recent years Europe has been buffeted by a series of contested crises that seemingly undermine and overwhelm its institutions and ideals the economic shocks of 2008 the open disputes over migration the political uncertainty generated by Brexit and the inroads made by various populist and nationalist parties into government **Making All Things New** Jean Maalouf,2011-06-22 **A Field Guide to a New Meta-field** Barbara Maria Stafford,2011-06 Includes bibliographical references and index Guardians of the Humanist Legacy: The Classicism of T.S. Eliot's Criterion Network and its Relevance to our Postmodern World Jeroen Vanheste,2007-07-30 In recent scholarly work T S Eliot has usually been associated with cultural elitism and political conservatism or even with proto fascism and anti Semitism This book proposes a different view During the Interbellum Eliot and his review The Criterion were part of an international network of intellectuals that shared an open minded Europeanness Authors like T Mann Benda Ortega y Gasset Curtius and Hofmannsthal emphasized their common European roots and shared cultural legacy Their classicism stands in the European tradition of humanism and has remained highly relevant Classicist ideas about literature education and human culture in general continue to inspire contemporary humanist thinkers as the second part of this book demonstrates by discussing the work of Ferry Todorov Steiner Scruton Toulmin and others **The Enlightenment and Its Effects on Modern Society** Milan Zafirovski,2010-12-25 The Enlightenment of the late 17th and 18th century is characterized by an emphasis on reason and empiricism As a major shaping philosophy of Western culture it had a historical impact on the religious cultural academic and social institutions of 18th century Europe In this compelling volume the author explores the lasting impact of Enlightenment thinking on modern Western societies and other democracies With an interdisciplinary comparative historical approach this volume explores the impact of Enlightenment ideals such as liberty equality and social justice on current social institutions Combining sociological theory with concrete examples the author provides a unique framework for understanding modern cultural development including a picture of how it would look without this Enlightenment basis This work provides a multi faceted approach including an historical overview analysis of the Enlightenment s influence on modern democratic societies modern culture political science civil society and the economy as well as exploring the counter Enlightenment Post Enlightenment and Neo Enlightenment philosophies **Understanding Europe (The Works of Christopher Dawson)** Christopher Dawson,2009 In a time of remarkable but selective amnesia in the West reflected perhaps most dramatically in the denial of the Christian roots of Europe in the first drafts of the European constitution Understanding Europe is as relevant today as it was on its first appearance in 1952 Christopher Dawson wrote of the uneasiness that characterized twentieth century Western civilization in the aftermath of two disastrous global conflicts and

the attempt to build a new secular civilization on impersonal economic forces He desired a unified Europe but one unified by a common Christian religion Recognizing the emphasis on economic utility and mass productivity in European culture Dawson argued that a renewed study of Christian faith and culture was essential in order to recover the deeper sense of European unity In *Understanding Europe* Dawson expresses a desire for Europe to rediscover and renew its foundational Christian sources in order to recover a deeper sense of integrity This edition includes an introduction by George Weigel

The Oxford Handbook of Jewish Studies Martin Goodman, Jeremy Cohen, David Sorkin, 2002 This volume on Jewish studies presents surveys of today's interests and directions in the humanities and social sciences It covers the main areas taught and researched as part of Jewish studies in universities throughout the world especially in Europe the US and Israel
