*Rationality, Relativism and the Human Sciences* Joseph Margolis,A.S. Krausz,R. Burian,2012-12-06 The Greater Philadelphia Philosophy Consortium was launched in the early eighties It began during a particularly lean period in the American economy But its success is linked as much to the need to be in touch with the rapidly changing currents of the philosophical climate as with the need to insure an adequately stocked professional community in the Philadelphia area faced perhaps permanently with the threat of increasing attrition The member schools of the Consortium now include Bryn Mawr College the University of Pennsylvania Temple University and Villanova University that is the schools of the area that offer advanced degrees in philosophy The philosophy faculties of these schools form the core of the Consortium which offers graduate students the instructional and library facilities of each member school The Consortium is also supported by the associated faculties of other regional schools that do not offer advanced degrees notably those at Drexel University Haverford College La Salle University and Swarthmore College both philosophers and members of other departments as well as interested and professionally qualified persons from the entire region The affiliated and core professionals now number several hundreds and the Consortium s various ventures have been received most enthusiastically by the academic community At this moment the Consortium is planning its fifth year of what it calls the Conferences on the Philosophy of the Human Studies

**Interpretation?** Michael Krausz,2007-08-09 Is there a single right interpretation for such cultural phenomena as works of

literature visual artworks works of music the self and legal and sacred texts In these essays almost all written especially for this volume twenty leading philosophers pursue different answers to this question by examining the nature of interpretation and its objects and ideals The fundamental conflict between positions that universally require the ideal of a single admissible interpretation singularism and those that allow a multiplicity of some admissible interpretations multiplism leads to a host of engrossing questions explored in these essays Does multiplism invite interpretive anarchy Can opposing interpretations be jointly defended Should competition between contending interpretations be understood in terms of bivalent truth or multivalent reasonableness appropriateness aptness or the like Is interpretation itself an essentially contested concept Does interpretive activity seek truth or aim at something else as well Should one focus on interpretive acts rather than interpretations Should admissible interpretations be fixed by locating intentions of a historical or hypothetical creator or neither What bearing does the fact of the historical situatedness of cultural entities have on their identities The contributors are Annette Barnes No 1 Carroll Stephen Davies Susan Feagin Alan Goldman Charles Guignon Chhanda Gupta Garry Hagberg Michael Krausz Peter Lamarque Jerrold Levinson Joseph Margolis Rex Martin Jitendra Mohanty David Novitz Philip Percival Torsten Pettersson Robert Stecker Laurent Stern and Paul Thom Relativism Michael Krausz,1989 Recent years have seen a vigorous revival of interest in relativism both in support and in opposition This collection of 21 essays 16 of which appear in print here for the first time advances the discussion found in an earlier volume *Relativism Cognitive and Moral* These present selections focus on philosophical and methodological issues of relativism by exhibiting its varieties and by rehearsing its virtues and vices The contributions concern relativism in a wide range of practices in the human studies *The Recovery of Doctrine in the Contemporary Church* Richard Heyduck,2002 Heyduck examines the false options on doctrine that modernity has offered the church especially his own tradition United Methodism and suggests ways to get beyond this impasse

Methodological Dilemma Revisited authors examine what in their research processes has given pause thwarted the process of seamless productivity or stalled the easy research output but has instead insisted upon a deeper analysis This resistance of the expedient explanation has consequences both for the research topics under study and the ways in which qualitative research is conducted in a globalized era of deepening social inequality The book is pedagogical in its orientation and reflects upon the politics of knowledge construction Working with queer and minoritized youth communities and other precarious publics the authors convey their relationships to groups they are inside or outside of or allied with posing ethical questions about research designs and worldviews Themes such as representation refusal and resistance of hegemonies are nuanced by investigations into the ethical practical and scholarly dimensions of the turn toward collaboration in qualitative inquiry Other chapters examine the place value and concerns of aesthetic representation of qualitative research Finally the authors consider issues of criticality in research and the concepts of compassion and humility This book contains contributions from some of the most imaginative qualitative researchers making the most of their research dilemmas in order to reflect upon the challenges and resistances they encounter in the work of qualitative research      **Bibliographisch repertorium** ,1988
