Universally Comprehensible, Arrogantly Local Wiebke Keim, 2017-04-01 From the perspective of the international scholarly community under North Atlantic domination South Africa might look like a peripheral place of knowledge production In recent years a plethora of voices calling for provincializing Europe for deconstructing Eurocentrism and for adopting post and decolonial perspectives have challenged such views They have partly transformed the academic landscape but have had limited success in challenging the fundamental global divides in production circulation and recognition of social scientific knowledge This book chooses a different take on the question of how North Atlantic domination could be challenged by conceptualizing counter hegemonic currents in international sociology Instead of providing theoretical and deconstructive critiques counter hegemonic currents are effective through collective social scientific practice the production of data knowledge and texts of new generations of scholars the interaction with extra university actors leading to the gradual emergence of integrated and productive scientific communities Their orientation towards local arenas of discussion and production of socially relevant research effectively reduces the belief in the hegemony of the North The historical development of South African labour studies is a case in point This study provides a systematic in depth analysis of research and teaching activities networks with extra academic actors and international cooperation over time in the three major Labour Studies centres Johannesburg Durban and Cape Town It draws on a rich variety of material including annual reports of research centres and labour service organizations teaching contents and exam questions the 1974 2003 volumes of the South African Labour Bulletin and newsletters of ISA Research Committee 44 on Labour Movements Qualitative analysis of four seminal books is used to assess their contribution to original general theory building In depth interviews with Labour Studies representatives complement the analysis of documents and literature by reconstructing the oral history of this scholarly community an indispensable source given that many debates could not appear in written form or had to be watered during the Apartheid years The study concludes that over time South African social scientists have generated knowledge on labour industry and trade unions that is universally comprehensible but arrogantly local

The Indian English Novel Priyamvada Gopal,2009-01-29 The Oxford

Studies in Postcolonial Literatures series offers stimulating and accessible introductions to definitive topics and key genres and regions within the rapidly diversifying field of postcolonial literary studies in English. It is often claimed that unlike the British novel or the novel in indigenous Indian languages, Anglophone fiction in India has no genealogy of its own. Interrogating this received idea, Priyamvada Gopal shows how the English language or Anglophone Indian novel is a heterogeneous body of fiction in which certain dominant trends and recurrent themes are nevertheless discernible. It is a genre that has been distinguished from its inception by a preoccupation with both history and nation as these come together to shape what scholars have termed the idea of India. Structured around themes such as Gandhi and Fiction, *The Bombay Novel* and *The Novel of Partition*, this study traces lines of influence across significant literary works and situates individual writers and texts in their historical context. Its emergence out of the colonial encounter and nation formation has impelled the Anglophone novel to return repeatedly to the question: What is India? In the most significant works of Anglophone fiction, India emerges not just as a theme but as a point of debate, reflection and contestation. Writers whose works are considered in their context include Rabindranath Tagore, Mulk Raj Anand, RK Narayan, Salman Rushdie, Nayantara Sahgal, Amitav Ghosh, Arundhati Roy and Vikram Seth.

Bombay Novels Mamta Mantri, 2019-01-15. Mumbai: Bombay. How do we explain this city and ourselves within it? How do the city and the city dweller together allow for representations of urban life to arise in literature and the fine arts? This book is an understanding of Mumbai both as an architectural and literary space through the lens of spatial criticism and the technique of flânerie. As an icon of experiences, Mumbai is felt through the simultaneous acts of walking, observing, remembering and articulating. In analyzing four novels, namely Baumgartner's *Bombay*, Ravi Varma's *Ravan* and Eddie Shantaram and Baluta, the book claims that the characters and their authors offer an alternative vision of the city as they also construct a transient place for themselves. This act of flânerie is an act of transgression as it turns the outside into the inside, changing public space into private space. As the characters serve to disrupt meaning, uncover hidden histories and expose power relations involved in the representation of place, they actualize many possibilities and meanings. Using the novel as a literary device, the authors have told stories not only of the protagonist flâneur but also of people around them, sometimes in detail, sometimes in passing. In contesting, claiming and owning the lives, the stories and the city, the humane aspect is never forgotten.

An Apartheid Oasis? Edward Lahiff, 2000. The study concludes that there is scope for further development of the agricultural economy at Tshiombi but this will require comprehensive reform of existing state services such as tractor ploughing and agricultural extension. More flexible partnerships between the state and non-state organisations including private entrepreneurs, individual farmers and the struggling Tshiombi Co-operative in the provision of credit, marketing and transport services are also identified as areas suitable for development. Constraints of land, capital and household labour suggest that in most cases agriculture is likely to remain supplementary to income obtained from the non-farm economy but can be a valuable source of food and an important safety net in times of crisis.

BOOK JACKET The Black Theatre

Movement in the United States and in South America Olga Barrios Herrero, 2011-11-28 El creixement dels moviments sociopolítics entre els anys seixanta i noranta als Estats Units i a Sudàfrica va establir els fermes fonaments sobre els quals amb una força i ímpetu sense precedents es va forjar el teatre negre d'aquests anys. Forma i contingut van sorgir a l'una del compromís polític i artístic adoptat per aquests artistes contra l'imperialisme, el colonialisme i el racisme occidentals. Per primera vegada en la història el teatre negre dels Estats Units i de Sudàfrica analitzava i valorava les arrels negres per a poder il·luminar la recerca d'un futur de llibertat. No obstant això, el context sociopolític i les circumstàncies específiques de cada país han generat igualment els trets distintius del teatre afro nord-americà i negre sud-africà inclosos les diferències de gènere manifestes en ramificacions artístiques totalment heterogènies i niques. Paranjape, 2009-07-01 Another Canon Indian Texts and Traditions in English traces the development of Indian English literary and textual practice over a period of seven decades focussing on classic texts which have fallen beyond the scope of the established canon. *Mandela* Martin Meredith, 2010-03-30 Nelson Mandela stands out as one of the most admired political figures of the twentieth century. It was his leadership and moral courage above all that helped to deliver a peaceful end to apartheid in South Africa after years of racial division and violence and to establish a fledgling democracy there. Kirkus Reviews providing new insights on the man and his time. Published as South Africa celebrates 100 years since its founding and hosts the 2010 World Cup, Nelson Mandela is the most thorough and up to date account available of the life of its most revered hero.
