Re-used Blocks from the Pyramid of Amenemhet I at Lisht Hans Goedicke,1972      *Re-used Blocks from the Pyramid of Amenemhet I at Lisht* ,1973      Middle Kingdom Tomb Architecture at Lisht Dieter Arnold,2008 This volume documents twenty six monumental tombs of the ancient Egyptian Twelfth Dynasty that were excavated by the Metropolitan Museum Egyptian Expedition from 1906 to 1934 and 1984 to 1991 Focusing on the study and reconstruction of the architecture of the tombs the book also publishes remains of reliefs and inscriptions that decorated the walls The author demonstrates the astonishing variety of Middle Kingdom funeral architecture Whereas some of the Lisht structures relate closely to Old Kingdom mastabas there is also a new group of freestanding chapels that are derived from contemporary deity temples and foreshadow the temple tombs of later periods in Egyptian history Also included is an appendix by James P Allen on the biographical inscription in one of the tombs      **Ancient Egyptian Administration** Juan Carlos Moreno García,2013-06-03 Ancient Egyptian Administration provides the first comprehensive overview of the structure organization and evolution of the pharaonic administration from its origins to the end of the Late Period The book not only focuses on bureaucracy departments and official practices but also on more informal issues like patronage the limits in the actual exercise of authority and the competing interests between institutions and factions within the ruling elite Furthermore general chapters devoted to the best documented periods in Egyptian history are supplemented by more detailed ones dealing with specific archives regions and administrative problems The volume thus produced by an international team of leading scholars will be an indispensable up to date tool of research covering a much neglected aspect of pharaonic civilization      **ANNUAL EGYPTOLOGICAL BIBLIOGRAPHY 1975** Jozef M. **Egypt** John Baines, 2007-05-17 A generously illustrated selection of John Baines's influential writings on two core areas of ancient Egyptian civilization: the role of writing, which was very different in antiquity from what is familiar in the modern world, and the importance of visual culture. These questions are explored through a number of case studies. The volume assembles articles that were scattered in publications in a variety of disciplines, making available key contributions on core problems of theory, comparison, and analysis in the study of many civilizations, and offering important points of departure for further research. Three wholly new essays are included, and the overall approach is an interdisciplinary one synthesizing insights from archaeology, anthropology, and art history, as well as Egyptology. **The Death of Gods in Ancient Egypt**

Jane Sellers, 2007 Originally published by Penguin Ltd, this revised edition features unusual Egyptian artwork, striking pictures of eclipse phenomena, numerous sky charts, and computer printouts. **Ancient Egyptian Literature** Antonio

Loprieno, 2023-12-28 This volume deals with the development and the characteristics of the literature of Ancient Egypt over a period of more than two millennia, from the monumental origins of autobiography at the end of the Old Kingdom (ca. 2150 BCE) down to the latest literary compositions in Demotic during the Graeco-Roman period (300 BCE–200 CE). This book, the result of an international co-operation among more than twenty scholars, is divided into sections devoted to the definition of literary discourse in Ancient Egypt, the history and genres of these texts, their linguistic and stylistic features, and the image of Ancient Egypt as displayed in later literary traditions of the Mediterranean world (Greek, Coptic, Arabic). With over thirty chapters, this volume provides an interdisciplinary account of current research in one of the methodologically most advanced fields of Egyptology. **Annual Egyptological Bibliography, Volume 25**, 2023-09-25
