Reach For Charisma:

Reach for Charisma Sidney Vernon, 1983-06-01 Charisma and Patronage Andrew D. McCulloch, 2016-04-15 A detailed and richly illustrated analysis of charisma and the political and cultural conditions in which charismatic figures arise this work of historical sociology critically engages with Max Weber's ambiguous concept of charisma to examine the charismatic careers of a number of figures including Joan of Arc Hitler and Nelson Mandela as well as that of Jesus who the author contends in contradistinction to Max Weber was not a charismatic leader in spite of his portrayal in Christian theology Shedding light on the process of charismatic transformation as it occurs within intensely solidaristic groups and the importance of patronage in charismatic careers the book distinguishes between charismatic rule and charismatic leadership With close attention to the social and political legacy of charisma for modern capitalism it also examines the emergence of a global class of the super rich a process buttressed by a belief on the part of business leaders in their own charismatic powers A rigorous examination of the under researched political process of charisma the understanding of which remains as important in modern society as in history Charisma and Patronage will appeal to students and scholars across a range of disciplines including sociology history politics and social geography

Three Seasons of Charismatic Leadership Tamas Czovek, 2008-04-01 This research is an investigation into the charismatic leadership of Saul David and Solomon Regarding methodology the study is a synchronic reading and is keen to demonstrate the theology explicit or implicit in the text This study assumes that charismatic leaders emerge in crisis situations and in order to resolve the crisis by the charisma granted by God In regard to Saul the book argues that Saul proved himself a charismatic leader as long as acting resolutely and independently from Samuel his mentor He failed however because in Samuel's shadow he could not establish himself as a charismatic leader David was successful because of his autonomy and resolution Also he was a successful charismatic leader as long as he remained independent King David however was gradually sidelined by Joab Another major theme of the David narrative is the clash between the concepts of charismatic military leadership and that of oriental kingship David's military leadership and the charisma related to it are constantly challenged by the concept of oriental kingship Although at his emergence he had lacked charisma Solomon wisely chose the leadership skills needed to lead Israel Attention is however drawn to the tensions between Solomon's leadership benefiting Israel and the royal pretension manifest in royal projects The relationship of the new charismatic leader with the old leader is scrutinized how the new leader is appointed how he emerges how the old persists in short the transition and succession in leadership An evaluation of the activity of the charismatic follows could he resolve the crisis from which he emerged and for which he was granted God's spirit To what extent were these leaders charismatic
