De Pascalis, 2018-05-25 Reading Contemporary Serial Television Universes provides a new framework the metaphor of the narrative ecosystem for the analysis of serial television narratives Contributors use this metaphor to address the ever expanding and evolving structure of narratives far beyond their usual spatial and temporal borders in general and in reference to specific series Other scholarly approaches consider each narrative as composed of modular elements which combine to create a bigger picture The narrative ecosystem approach on the other hand argues that each portion of the narrative world contains all of the main elements that characterize the world as a whole such as narrative tensions production structures creative dynamics and functions The volume details the implications of the narrative ecosystem for narrative theory and the study of seriality audiences and fandoms production and the analysis of the products themselves **Reading the Comments** Joseph Michael

Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy and service delivery. Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk. This book argues that online peer led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers. The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin. The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit. This youth led discourse celebrates equality and diversity amongst people meanings and opinions. It is constructed around three relational elements: socio-material affordances, creative practices and a plurality of youth voices. Reddit's pseudonymous, anti-authoritarian and egalitarian nature supports the emergence of this youth led discourse. The book can interest scholars and lecturers in childhood and youth studies, Internet studies and youth health studies. Professionals such as policymakers, service designers, deliverers, online safety educators and global youth and health agencies can use evidence based insights in their work with young people. *Bigfoot to Mothman* Margo DeMello,2024-01-25 This one volume encyclopedia introduces readers to the world's cryptids: those hidden or secret animals believed to exist at the margins of human society including Bigfoot, Yeti, the Loch Ness Monster and the Mothman. Comprehensive in its scope, this book is a valuable resource for anyone who wants to know more about well known creatures of myth and legend such as the Chupacabra and the Jersey Devil and discover lesser known animals such as the Bunyip of Australia and the Mamlambo of South Africa. Rather than purport to prove or deny the existence of these creatures, however, this volume classifies them within their respective cultural, historical and social contexts, allowing readers to appreciate cryptids as cultural artifacts important to societies around the globe. Finally, this book goes beyond the study of the unknown to investigate who believes in cryptids, why they do, and why the study of cryptozoology is as much about understanding cryptids as it is about understanding ourselves. **A Latin Reader** Albert Harkness,2023-03-18 Reprint of the original first published in 1872. significant forms of digital literature on the one hand and established literary and critical theory on the other reading digital texts through the lens of canonical theory but also reading this more traditional theory through the lens of digital texts and related media In a field which has often regarded the digital as apart from traditional literature and theory this book highlights continuities in order to analyse digital literature as part of a longer literary tradition Using examples from social media to video games and works particularly by postmodern and poststructuralist theorists *Digital Literature and Critical Theory* contextualises digital forms among their analogue precursors and traces ongoing social developments which find expression in these cultural phenomena including power dynamics between authors and readers the individual in post modernity consumerism and the potential for intersubjective exchange Chapter 1 and Chapter 3 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
