Reading Althusser An Essay On Structural Marxism:

Reading Althusser Steven B. Smith, *Louis Althusser and the Traditions of French Marxism* William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e g Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's thought When in the mid 1960s Louis Althusser first offered his re-readings of Marx's philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In *Louis Althusser and the Traditions of French Marxism* William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser's thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns

Reading Althusser Steven B. Smith, 1984 [Reading Capital's Materialist Dialectic](#) Nick Nesbitt, 2024-05-27 While the explicit Althusserian engagement with Marx's *Capital* remained largely limited to *Reading Capital* after 1968 Nick Nesbitt argues this theoretical intervention remained insistent adopting the form of a general theory of materialist dialectic The book thus analyzes the Althusserianist theory of a materialist dialectic across diverse sites including Althusser's unpublished archive Macherey's exposition of Spinoza's *Ethics* and Badiou's *Logics of Worlds* while simultaneously bringing this fully developed theory of materialist dialectic to bear anew on the reading of *Capital* itself to show that Spinoza's influence on Marx is far greater and that of Hegel increasingly diminishing than has been previously thought

Modern Critical Thought Drew Milne, 2008-04-15 This anthology presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Offers an innovative way into understanding modern critical thought Spans the period from Marx to the present day A conversation of ideas emerges between one generation and the next Editorial material defines key terms and maps out contested terrain Each piece is

prefaced by contextualising notes and suggestions for further reading *Cultural Theory: The Key Concepts* Andrew Edgar, Peter Sedgwick, 2007-10-18 Now in its second edition *Cultural Theory The Key Concepts* is an up to date and comprehensive survey of over 350 of the key terms central to cultural theory today This second edition includes new entries on colonialism cyberculture globalisation terrorism visual studies Providing clear and succinct introductions to a wide range of subjects from feminism to postmodernism *Cultural Theory The Key Concepts* continues to be an essential resource for students of literature sociology philosophy and media and anyone wrestling with contemporary cultural theory **Key Concepts in Cultural Theory** Andrew Edgar, Peter Sedgwick, 2005-10-09 An up to date and comprehensive survey of over 350 of the key terms encountered in cultural theory today each entry provides clear and succinct explanations for students in a wide range of disciplines *Speaking Two Languages* Allen J. Frantzen, 1991-01-01 This book is designed for the medievalist interested in contemporary criticism but cautious about its limits The volume's essays are not designed to offer rereadings of familiar texts but to address the problems of articulating tradition and contemporary theory Each contributor interprets critical methods as consciously chosen and spoken languages and explores the consequences of combining a traditional and a contemporary method and hence speaking two languages Each essay includes a critical bibliographical note pointing to further reading in the languages it employs Constituting Feminist Subjects Kathi Weeks, 2018-08-14 Kathi Weeks suggests that one of the most important tasks for contemporary feminist theory is to develop theories of the subject that are adequate to feminist politics Although the 1980s modernist/postmodernist debate put the problem of feminist subjectivity on the agenda Weeks contends that limited debate now blocks the further development of feminist theory Both modernists and postmodernists succeeded in making clear the problems of an already constituted essentialist subject What remains as an ongoing project Weeks contends is creating a theory of the constitution of subjects to account for the processes of social construction This book presents one such account Drawing on a number of different theoretical frameworks including feminist standpoint theory socialist feminism and poststructuralist thought as well as theories of performativity and self valorisation the author proposes a nonessential feminist subject a theory of constituting subjects

Structure, Agency and Theory Ib Gram-Jensen, 2021-04-20 *Structure Agency and Theory* challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents' experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism **Cultural Theory: The Key Thinkers** Andrew Edgar, Peter Sedgwick, 2005-07-28 Featuring over eighty essays *Cultural Theory The Key Thinkers* is a seminal guide to the literary critics
