Beyond Words Wendy Harding, Jacky Martin, 2009-03-26 This is a book

about reading or rather about the moment when the usual frames of interpretation no longer apply That is where the Othering Excursion begins Through disruptive forms of rhetoric writers discard the structures and norms of the cultural system and use the disorders thus created to suggest what lies beyond it Cultivating distortion conceptual blocks and chaotic constructions their texts flout normal processes of interpretation Whereas traditional approaches often overlook these disorders or treat them as a form of informational noise in this study they become the basis of critical reflection Harding and Martin elaborate a critical concept and a range of reading methods to deal with what seem to be zones of obscurity in literary texts Cutting across boundaries of race ethnicity and gender they treat a wide range of poetry and short fiction that challenges traditional interpretations Giving new readings of canonical texts the book examines works by American authors that are widely read and taught like Elizabeth Bishop A R Ammons Don DeLillo Leslie Marmon Silko or Sandra Cisneros At the same time it includes studies of emerging writers like Kate Braverman Dan Chaon or Chase Twichell There is something deeply moving in witnessing the birth of a new concept And indeed Wendy Harding and Jacky Martin s concept of Othering is a welcome addition to an already crowded field where concepts like difference alterity or hybridity are firmly established But the new concept is more than an addition it is more in the nature of a substitution as it aims to replace the now exhausted concepts allows the authors to avoid the trivialities of a criticism based on gender and race and by focusing on form and language or style to recapture the now largely lost intuitions of close reading This combination of close reading and a firm grasp of theory is one of the attractions of the book I am impressed by their mastery of the intricacies of theory and the range of their literary corpus in terms both of genres and texts I have no doubt that their book will be a major contribution to the renewal of the study of contemporary American literature Professor Jean Jacques Lecercle University of Nanterre Paris In *Beyond Words* Wendy Harding and Jacky Martin offer a new attitude to reading that approaches true diversity by ignoring trends toward traditional groupings of authors by race and gender and instead examining democratically recent American literature in terms of its unique and peculiar achievements In choosing texts that employ the rhetoric of the inexpressible the authors have identified Othering as the common thread running through short fiction and poetry by authors as varied as Allen Ginsberg Raymond Carver Sandra Cisneros Adrienne Rich and Li Young Lee In transliterating the language of the ineffable and unspoken *Beyond Words* employs its superbly original methodology toward unfolding previously inaccessible layers of meaning and provoking a fuller understanding of the creative process and its cultural milieu Michael Waters Professor of English at Salisbury University USA A germinal study from an other in this case European perspective of an at once idiosyncratic and indicative range of American texts with a view of how they themselves encounter the unexamined and

unexpected Marilyn Hacker Professor at City College of New York and CUNY Graduate Center Invigorating and original Beyond Words The Othering Excursion in Contemporary American Literature challenges conventional ways of approaching literary texts Eschewing binaries Wendy Harding and Jacky Martin propose a new approach to reading and analyzing the heterogeneity of recent American literature By juxtaposing both well known and less familiar poetry and short fiction by authors as various as Gayl Jones John Ashbery Russell Banks and Marilyn Nelson Harding and Martin consider a stimulating variety of texts that cross aesthetic generic canonical and political boundaries Harding and Martin s polysemous approach to literary texts a procedure they call othering is groundbreaking and enlightening Beyond Words provides rich insights for scholars and general readers alike Harding and Martin s new mapping of American literature is a remarkable achievement certain to provoke dialogue for decades to come Sue Standing Jane Ruby Professor of English Wheaton College Norton Massachusetts In this new book with the apt title Beyond Words the Othering Excursion in Contemporary American Literature Wendy Harding and Jacky Martin promise to generate intense conversation about their conceptual approach to reading canonical as well as newer texts in late twentieth century American literature Beyond Words favors a shift in thinking about all texts that defy conventional analysis and it resists the cleavages that it finds in unsatisfactory terms like alterity and hybridity conceived to account for differences in gender racial ethnic and class contexts Re conceiving Othering as a corroborative and complementary methodology rather than a splintered one Beyond Words invites an illuminating comprehensive analysis of literary production in late twentieth century American texts Helena Woodard Associate Professor of English Department of English University of Texas at Austin USA **Adams Reading Beyond Words 5e 1e**

Franciscan Lectio Dan Riley OFM,2022-10-04 Franciscan Lectio is for all those on a spiritual journey who long to see the world more beautifully and deeply and become more attentive and present An ancient tradition dating back to the third century lectio divina has long served as an avenue of contemplative prayer but the practice has often been systematized intellectualized or only practiced by monastics Few authors have attempted to universalize lectio using contemporary language or approach it from a Franciscan perspective St Paul says that the Word of God is alive and active in our hearing and if the incarnation is true then the Word can be experienced in all places Lectio therefore is not only a spiritual practice for reading sacred texts but can be applied to any felt experience Our experiences too are sacred we need only to acknowledge their depth and beauty In the spirit of St Francis of Assisi we can see the God of all creation who has always been hidden in plain sight a presence that shows forth in every created thing In Franciscan Lectio Fr Dan Riley comes alongside us in our own encounters with lectio and inspires our spiritual imagination through story art poetry nature Franciscan mysticism and Scripture helping us to see that all of life is unitive and sacred

Environment and Empire William Beinart, Lotte Hughes, 2007-10-11 European imperialism was extraordinarily far reaching a key global historical process of the last 500 years It locked disparate human societies together over a wider area than any previous imperial expansion it underpinned the repopulation of the Americas and Australasia it was the precursor of globalization as we now understand it Imperialism was inseparable from the history of global environmental change Metropolitan countries sought raw materials of all kinds from timber and furs to rubber and oil They established sugar plantations that transformed island ecologies Settlers introduced new methods of farming and displaced indigenous peoples Colonial cities many of which became great conurbations fundamentally changed relationships between people and nature Consumer cultures the internal combustion engine and pollution are now ubiquitous Environmental history deals with the reciprocal interaction between people and other elements in the natural world and this book illustrates the diverse environmental themes in the history of empire Initially concentrating on the material factors that shaped empire and environmental change *Environment and Empire* discusses the way in which British consumers and manufacturers sucked in resources that were gathered hunted fished mined and farmed Yet it is also clear that British settler and colonial states sought to regulate the use of natural resources as well as commodify them Conservation aimed to preserve resources by exclusion as in wildlife parks and forests and to guarantee efficient use of soil and water Exploring these linked themes of exploitation and conservation this study concludes with a focus on political reassertions by colonised peoples over natural resources In a post imperial age they have found a new voice reformulating ideas about nature landscape and heritage and challenging at a local and global level views

of who has the right to regulate nature
