Word Study for Literacy Leaders Anne C. Ittner,Amy Frederick,Darl Kiernan,Donald R. Bear,2023-08-22 Word study is an approach to teaching phonics vocabulary and spelling that is based on a developmental model described by Henderson and his students Given the reciprocal nature between reading and writing phonics spelling and vocabulary are integrated in instruction Teachers understand that this word study approach integrates phonics spelling and vocabulary and have challenged us to

share concrete examples of how teachers organize and implement word study and how literacy educators in universities and school districts conduct professional learning for word study The primary goal then is to make word study work for our students The authors of each chapter show how literacy leaders and teacher educators guide others in a wide variety of educational settings Stories in this volume capture classroom conversations describe professional learning communities and present coaching scenarios that will resonate with reader s experiences Beyond Crises Debbie Zacarian,Margarita Espino Calderon,Margo Gottlieb,2021-01-28 What are some lessons learned from the pandemic We learned that in times of crises the humanitarian needs of students families and ourselves must be a top priority We learned that forming effective partnerships with families and communities is essential to the health and well being of our children We were offered a blunt reminder that a system designed to serve the interests of a privileged few was destined to fail our historically underserved students especially our millions of multilingual learners Above all we learned that the normal many of us have yearned for was never good enough that we must envision a better world where we build on our multilingual students unique assets and cultivate their inner brilliance Only then will we deliver on their promise It s this better world a world in which communities schools and classrooms work together as a whole child ecosystem Beyond Crises Overcoming Linguistic and Cultural Inequities in Communities Schools and Classrooms sets out to create Taking a look from the outside in Debbie Zacarian Margarita Calder n and Margo Gottlieb address three critical arenas 1 Imagining Communities describes how to design and enact strengths based family and community partnerships including the critical importance of identifying valuing and acknowledging each member s assets and competencies and the ways recent crises have amplified their struggles 2 Imagining Schools takes an up close look at policies structures and now irrelevant ways of schooling that call for change and how we might reconfigure professional development to ensure every teacher and administrator is dedicated to the well being and success of our multilingual learners 3 Imagining Classrooms demonstrates how to optimize learning opportunities both virtual and face to face so our diverse students grow cognitively linguistically and social emotionally and accentuate their talents in knowing and using multiple languages in linguistically and culturally sustainable environments Student and family classroom school and local community are not silos unto themselves Debbie Margarita and Margo insist They are part of a larger whole that is interrelated and interconnected and even interdependent on each other By forming stronger alliances we can realize the power of truly working socializing and flourishing together Beyond Crises is the first critical step forward
