Designing Everyday Assessment in the Science Classroom, 2005 This book describes how middle school science teachers in collaboration with a team of researchers tried to improve their everyday assessment practices to enhance student learning It discusses the challenges they faced the differences among the teachers and the personal nature of deep educational change A product of CAPITAL Classroom Assessment Project to Improve Teaching and Learning a research effort supported by the National Science Foundation this book Uses classroom stories to show how teachers can use a variety of formative assessment techniques to answer questions they have about their teaching Provides real life examples of teachers grappling with new practices at a personal level in their own settings and in light of their own values and beliefs Offers suggestions for designing professional development efforts that recognize the significant variation among teachers in how they go about changing their assessment practices Outlines principles and practices that must accompany change in the

classroom if it is to be more than superficial *Teaching Mathematics in Grades 6 - 12* Randall E. Groth, 2012-08-10 A journey into the vibrant and intriguing world of mathematics education *Teaching Mathematics in Grades 6 12* explores how research in mathematics education can inform teaching practice in grades 6 12 The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students mathematical thinking and then connecting this research to practices that enhance students understanding of the material The chapters in Part I introduce secondary teachers to the field of mathematics education with cross cutting issues that apply to teaching and learning in all mathematics content areas The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6 12 classrooms and how students thinking may develop in response to different teaching strategies Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05 The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge motivation tools and confidence they need as they integrate literacy into their middle and high school content area classrooms Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms Rather than passively learning about strategies for incorporating content area literacy activities readers get hands on experience in such techniques as mapping webbing anticipation guides booktalks class websites and journal writing and reflection Readers also learn how to integrate children s and young adult literature primary sources biographies essays poetry and online content communities and websites into their classrooms Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students content area learning Author Sharon Kane demonstrates how relevant reading writing speaking listening and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks **Standards-based Mathematics Assessment in Middle School** Thomas A. Romberg, 2004 This volume takes an in depth look at the problems and practices involved in conducting formative assessments in middle school mathematics classrooms In these chapters researchers and teachers identify the challenges teachers faced as they attempted to implement new assessment procedures moving from more traditional methods to an emphasis in the quality of student work This authoritative book Documents the shift from traditional ways of judging student performance tests to measure what students know to reform notions of mathematical literacy documenting students growth in understanding specific content domains Discusses four key steps in the change process that helped teachers to accomplish the necessary shift in assessment practices Includes two chapters written by teachers that describe their personal experiences with implementing these new practices in the classroom and outlines a professional development program that evolved as a consequence of the work done by the teachers and students

discussed in this book Knowledge to Support the Teaching of Reading Catherine Snow, Peg Griffin, M. Susan Burns, 2007-08-17 Basic reading proficiency is key to success in all content areas but attending to students literacy development remains a challenge for many teachers especially after the primary grades Knowledge to Support the Teaching of Reading presents recommendations for the essential knowledge about the development acquisition and teaching of language and literacy skills that teachers need to master and use This important book is one result of an initiative of the National Academy of Education s Committee on Teacher Education whose members have been charged with the task of creating a core knowledge base for teacher education *Learning to Read the Numbers* David J. Whitin, Phyllis E. Whitin, 2010-09-13 Being a critical reader of numerical information is an integral part of being literate in today s data drenched world Uniquely addressing both mathematics and language issues this text shows how critical readers dig beneath the surface of data to better evaluate their usefulness and to understand how numbers are constructed by authors to portray a certain version of reality Engaging concise and rich with examples and clear connections to classroom practice it provides a framework of critical questions that children and teachers can pose to crack open authors intentions expose their decisions and make clear who are the winners and losers questions that are essential for building democratic classrooms Explaining and illustrating how K 8 teachers can engage students in developing the ability to be both critical composers and critical readers of texts Learning to Read the Numbers is designed for teacher education courses across the areas of language arts mathematics and curriculum studies and for elementary teachers administrators and literacy and mathematics coaches Learning to Read the Numbers is a co publication of The National Council of Teachers of English www.ncte.org and Routledge **Handbook of Research on Building, Growing, and Sustaining Quality E-Learning Programs** Shelton, Kaye, Pedersen, Karen, 2016-09-12 As e learning has evolved into a global change agent in higher education it has become more diverse in its form and applications Now that many institutions have implemented e learning programs as part of their course offerings it is essential for these institutions to fully grasp how best to facilitate continued improvements and accessibility in online education The Handbook of Research on Building Growing and Sustaining Quality E Learning Programs highlights several significant elements of e learning including program planning quality standards and online course development as well as institutional student and faculty support Serving as a critical resource for online and hybrid learning programs this publication is designed for use by administrators educators instructional designers and doctorate level students in the field of education Meeting the Challenge of Adolescent Literacy Mark W. Conley, Joseph R. Freidhoff, Michael B.
