Reading An Erased Code Romantic Religion And Literary Aesthetics In France:

Reading an Erased Code Michel Despland, 1994 The end of the eighteenth century an age of political and cultural crisis particularly in France saw a shift in the meaning of belief Simply put a break in continuity occurred between the old religious and a new literary reading of Scripture Michel Despland selects five writers who were caught up in this new reading of the old religious text and who came to write about religion in innovative ways The five writers treated by Despland helped shape a broader definition of belief one that included individual sensibility The works they produced are in a sense new religious texts They did not just restate or reinterpret the code but achieved a new kind of narrative which has become dominant in the modern era and has shaped individual relationships to all codes BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Religion in the Making Arie L. Molendijk, Peter Pels, 2018-11-13 This volume explores the ways in which religion became the object of scientific research in the nineteenth and early twentieth centuries Most obvious is the development of an increasingly autonomous science of religion with founding fathers like Max Müller and C P Tiele However within anthropology Tylor Frazer sociology Durkheim Max Weber and psychology William James religion also came to be seen as a separate entity to be studied comparatively To capture this wide field this book focuses on the emergence of the discourse on religion in a broad academic context among different disciplines The emphasis is on general socio historical developments rather than on individual biographies Part I deals with the institutionalization of science of religion in France Britain and the Netherlands Part II focuses on boundary disputes between the emerging sciences of religion Part III examines new conceptualizations of religion underlying the new endeavour ritual magic survival

Guide to the Study of Religion Willi Braun, Russell T. McCutcheon, 2000 What is religion Can it be defined at all Or is it too easily defined in far too many ways so as to make a religion a drifting signifier or whatever one's pleasure is Does the study of religion require special perhaps religious tools of analysis and explanation What is the difference between a knowledge of religion derived from practicing it and a knowledge about religion derived from nonreligious modes of inquiry Sooner or later any serious student of religion must face these questions if religious practices are to be investigated in the light of the terms and aims of the social and human sciences in the modern university The Guide to the Study of Religion provides a map of the key concepts and thought structures for imagining and studying religion as a class of everyday social practices that lend themselves to no more or less difficult explanation than any other class of social phenomena
