Reading Castaneda:

Reading Castaneda (Routledge Revivals) David Silverman, 2019-10-25 Carlos Castaneda's accounts of his meeting with the Yaqui Indian magician Don Juan are well known to sociologists both in Britain and in America. Using material largely from Castaneda's *The Teachings of Don Juan*, David Silverman here seeks to introduce the student of Sociology to some of the central epistemological concerns of social science. First published in 1975, the title assumes no previous knowledge of Castaneda but instead uses his work as a springboard to wider issues in particular making sense of our reality and understanding each other by using language and communication. This is an interesting reissue which will be of particular value to students of the sociology of language and communication as well as Communication Studies more generally.

Castañeda and his Guises Adriano Palma, 2014-08-25 This volume responds to and reassesses the work of Hector Neri Castañeda 1924-1991. The essays collected here, written by his students, followers and opponents, examine Castañeda's seminal views on deontic logic, metaethics, indedicality, praticitions, fictions and metaphysics, utilizing the critical viewpoint afforded by time as well as new data to offer insights on his theories and methodology. **Misanthropology** Sean M.

Rafferty, 2022-10-13 *Misanthropology: Science, Pseudoscience and the Study of Humanity* introduces students to key concepts in critical thinking across the four core branches of anthropology: cultural, linguistic, biological and archaeological. It combines a critical analysis of anthropology as a field with current concepts in scientific skepticism. By deconstructing a range of global case studies in which anthropological research runs aground, the book teaches students to distinguish between legitimate science and pseudoscience. It covers key concepts in critical thinking and rigorous research such as cognitive biases and logical fallacies, data collection and consensus, probabilistic thinking as well as political, nationalist, racist biases. Students learn not only how to apply these concepts to anthropological research and fieldwork but also to their consumption of everyday information. This book will appeal to anthropology students and will be particularly useful for instructors of introductory anthropology courses as well as instructors of courses across the humanities and social sciences focused on inculcating critical thinking skills.

Fantasies of the Master Race Ward Churchill, 1998 Chosen an Outstanding Book on the Subject of Human Rights in the United States by the Gustavus Myers Center for the Study of Human Rights In this volume of incisive essays Ward Churchill looks at representations of American Indians in literature and film delineating a history of cultural propaganda that has served to support the continued colonization of Native America During each phase of the genocide of American Indians the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of Dances With Wolves or Carlos Castaneda's Don Juan the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today
