Reading Educational Research How To Avoid Getting Statistically Snookered:

Reading Educational Research Gerald Watkins Bracey, 2006 Stats stats stats It seems everything written about education today is full of stats With this book nimble minded number cruncher and award winning researcher Gerald Bracey takes your hand and walks you through the process of figuring out the meaning behind the figures You don't need to be a math whiz to follow Bracey because he writes with clarity and humor explicitly defining statistical terminology in easy to understand language and even offering you thirty two specific principles for assessing the quality of research as you read it

How to End the Reading War and Serve the Literacy Needs of All Students P. L. Thomas, 2022-08-01 The twenty first century Reading War is in fact nothing new but some of the details are unique to our current culture driven by social media This volume seeks to examine the current Reading War in the context of the historical recurrence of public and political debates around student reading abilities and achievement Grounded in a media fascination with the science of reading and fueled by a rise in advocates for students with dyslexia the current Reading War has resulted in some deeply troubling reading policy grade retention and intensive phonics programs This primer for parents policy makers and people who care confronts some of the most compelling but misunderstood aspects of teaching reading in the U S while also offering a way toward ending the Reading War in order to serve all students regardless of their needs The revised expanded 2nd edition adds developments around the science of reading including the expanding impact on state policy and legislation as well as robust additions to the research base around teaching students to read

Introduction to Educational Research W. Newton Suter, 2012 W Newton Suter argues that what is important in a changing education landscape is the ability to think clearly about research methods reason through complex problems and evaluate published research He explains how to evaluate data and establish its relevance

21st Century Literacy Renita Schmidt, Paul Lee Thomas, 2008-11-09 Renita Schmidt and P L Thomas The guiding mission of the teacher education program in the university where we teach is to create teachers who are scholars and leaders While the intent of that mission is basically sound in theory we instill the idea that teachers at all

levels are professionals always learning and growing in knowledge that theory that philosophical underpinning does not insure that the students who complete our program are confident about the act or performance of teaching In our unique program students work closely with one teacher and classroom for the entire senior year and then are supervised and mentored during their first semester of teaching the program is heavily field based and it depends on the effectiveness of mentoring throughout the methods coursework and the first semester of full time teaching Students tell us this guidance and support is invaluable and yet we feel the disjuncture between university and school just as many of you in more traditional student teaching settings Students hear best practice information from us in methods classes and they receive ample exposure to the research supporting our field but have a hard time implementing research based practices in their classroom settings and an even harder time finding it in the classrooms around them

It's Time to Complete Community College S. deBoef, 2018-02-02 Earning a college degree improves health and economic wellbeing Thus American taxpayers subsidize a majority of the cost of public colleges At least half of all college students in the U S today attend two year colleges yet fewer than half of these students achieve their educational goals This book written by an experienced community college teacher summarizes specific evidence based methods to improve student learning and completion This book summarizes student characteristics including socio economic status academic background work family commitments instructional methods of work pace grading procedures student practice opportunities and feedback to students institutional policies such as course scheduling teaching loads teacher training availability of student services commitment of administrators to using assessment to improve student learning outcomes If you are a college student parent of a college student college teacher administrator or concerned taxpayer you are invited to read this book and join this discussion It is unlikely that college completion rates will significantly improve without informed communities demanding institutional action
