Religion Revolution And The Future:

Religion, revolution, and the future Jürgen Moltmann, 1969 **Religion, Revolution, and the Future** Jürgen Moltmann, 1969 From September 1967 to April 1968 Jürgen Moltmann Professor of Theology at Tübingen University in Germany sojourned in the United States While he was pivotally located as Visiting Professor of Systematic Theology at Duke Divinity School he traveled widely to almost every major region of the nation and visited many of the large academic and urban centers This book is comprised of a portion of the lectures and essays with which Professor Moltmann introduced himself and his thought to the American continent Translator's preface **Revolution and the Christian Faith** Vernon C. Grounds, 2007-05-01 In this stirring book Grounds has ably sketched the background against which the theology of revolution has emerged Grounds puts it this way I have sought to let the critics of the Establishment Christian and secular alike present in their own words the case for revolutionary change I have also sought to let the revolutionary theologians set forth their interpretation of Christianity in detail Quite literally I have allowed them to speak for themselves I have sought further to let Christian scholars who dissent from this new theology engage its proponents in debate Very heavily I have drawn upon the work of Jacques Ellul the towering French sociologist who is rapidly gaining in the United States the attention and respect which his rare fusion of professional distinction intellectual power and biblical commitment deserves I shall feel amply regarded if through these pages he wins a wider readership among American evangelicals An additional purpose has been to confront my own ecclesiastical tradition that of Protestant orthodoxy with the inexpressibly pressing need of permitting the anguish of our world to drive theological conservatism back to a New Testament discipleship which is nothing less than revolutionary **Religion, Revolution, and the Future. Translated by Douglas Meeks** Jürgen Moltmann, 1969 **The Religion of the Future** Roberto Mangabeira Unger, 2014-04-08 How can we live in such a way that we die only once How can we organize a society that gives us a better chance to be fully alive How can we reinvent religion so that it liberates us instead of consoling us These questions stand at the center of *The Religion of the Future* a book about religion and a religious work in its own right **Pluralism: The Future of Religion** Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism *Pluralism: The Future of Religion* argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions *Future(s) of the Revolution and the Reformation* Elena Namli, 2019-10-29 This volume brings together philosophers social theorists and

theologians in order to investigate the relation between future s of the Revolution and future s of the Reformation It offers reflections on concepts and interpretations of revolution and reformation that are relevant for the analysis of future oriented political practices and political theologies of the present time **The Future of Religion** Rodney Stark,William Sims Bainbridge,2023-04-28 Religion is alive and well in the modern world and the social scientific study of religion is undergoing a renaissance For much of this century respected social theorists predicted the death of religion as inevitable consequence of science education and modern economics But they were wrong Stark and Bainbridge set out to explain the survival of religion Using information derived from numerous surveys censuses historical case studies and ethnographic field expeditions they chart the full sweep of contemporary religion from the traditional denominations to the most fervent cults This wealth of information is located within a coherent theoretical framework that examines religion as a social response to human needs both the general needs shared by all and the desires specific to those who are denied the economic rewards or prestige enjoyed by the privileged By explaining the forms taken by religions today Stark and Bainbridge allow us to understand its persistence in a secular age and its prospects for the future This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 Religion is alive and well in the modern world and the social scientific study of religion is undergoing a renaissance For much of this century respected social theorists predicted the death of religion as inevitable consequence of science education *The Non-religion of the Future* Jean-Marie Guyau,1897 **Transhumanism and Transcendence** Ronald Cole-Turner,2011-09-29 The timeless human desire to be more beautiful intelligent healthy athletic or young has given rise in our time to technologies of human enhancement Athletes use drugs to increase their strength or stamina cosmetic surgery is widely used to improve physical appearance millions of men take drugs like Viagra to enhance sexual performance And today researchers are exploring technologies such as cell regeneration and implantable devices that interact directly with the brain Some condemn these developments as a new kind of cheating not just in sports but in life itself promising rewards without effort and depriving us most of all of what it means to be authentic human beings Transhumanists on the other hand reject what they see as a rationalizing of human limits as if being human means being content forever with underachieving bodies and brains To be human they insist is to be restless with possibilities always eager to transcend biological limits As the debate grows in urgency how should theology respond Christian theologians recognize truth on both sides of the argument pointing out how the yearnings of the transhumanists if not their technological methods find deep affinities in Christian belief In this volume Ronald Cole Turner has joined seasoned scholars and younger emerging voices together to bring fresh insight into the technologies that are already reshaping the future of Christian life and hope **Theology of Jürgen Moltmann**

Richard Bauckham,1995-01-06 The most comprehensive study available of one of the most influential of German Protestant theologians The Future of Religion Michael R. Ott,2007 This book contains the work of international scholars who address the contemporary globalizing antagonism between religion and secularity in the theoretical and practical pursuit for this antagonism s reconciliation in a more just humane and peaceful future society and world The Future of Partnership Letty M. Russell,1979-01-01 How should men and women and God relate to one another Letty Russell s answer is partnership understood in new ways as a relationship rooted in the life story of Jesus Instead of concentrating on individuals as single entities she develops the theme of the individual in partnership both with God and with Others She deals with the theological foundations of partnership and such practical concerns as lifestyles human sexuality education church community life and ministry Her book speaks to the interests of churchwomen feminists students of theology and the many who have studied her other books *Leaning into the Future* Poul F Gutesen,2011-05-26 Leaning into the Future seeks to explore what it may mean to believe in the Kingship of God and wait for his Kingdom by considering the fundamental role the Kingdom of God plays in the theology of Jurgen Moltmann and in the book of Revelation Part one is devoted to how Moltmann understands The Kingdom of God as the fundamental symbol of hope for humanity and how he sees the presence of God s reign and kingdom in history as hidden and paradoxical Part two turns to the way the Book of Revelation uses royal and other political language in its portrait of the future and God s presence in history In this second part the book also seeks to explore how Moltmann and the Apocalypse may mutually inform each other how Moltmann may help us read this biblical book today and how it in turn may overcome some of the weaknesses in Moltmann s proposal Ecology in Jurgen Moltmann's Theology Celia E. Deane-Drummond,2016-09-01 This book offers a critical and constructive analysis of the contribution of Jurgen Moltmann to the field of ecotheology Moltmann is one of the foremost and influential contemporary theologians of our time but his specific contribution to ecotheology has received relatively scant attention in the secondary literature The author deals sensitively with the relevant scientific aspects necessary in order to develop an adequate theology of the natural world She also offers a careful and constructive analysis of the specific systematic theologies of creation humanity eschatology and Trinity that are woven into Moltmann s rich interpretation of the relationship between God and creation A Broad Place Juergen Moltmann,2013-01-25 Among the most acclaimed and accomplished theologians of the last 100 years Jurgen Moltmann is also one of the most popular This autobiography will certainly be widely read in the churches and the academy and will shed light on the intellectual development of this enormously influential theologian He has marked the history of theology after the Second World War in Europe and North America like no other He is the most widely read quoted and translated theologian of our time Now after Jurgen Moltmann has celebrated his eightieth birthday he looks back on a life engaged in and forging a Christian response to the tumult and opportunities of our time In his autobiography Jurgen Moltmann tells his life story from the Hamburg youth in the alternative parental home up to the present moment and he

reflects on the journey of his own theological development and creativity A wide ranging document alert to the deeper currents of his time and ours A Broad Place is an entertaining reconsideration of a life full of intense experience and new beginnings Eschatology and the Technological Future Michael S. Burdett, 2014-12-05 The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like These technological futurisms have arisen from significant advances in the fields of nanotechnology biotechnology and information technology and are drawing growing scrutiny from the philosophical and theological communities This text seeks to contextualize the growing literature on the cultural philosophical and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological future with Pierre Teilhard de Chardin and Jacques Ellul Burdett's argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney Eberhard Jüngel and Jürgen Moltmann Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo Christian understanding of the future

Experiences in Theology Jürgen Moltmann, Margaret Kohl, 2000-12-18 In this volume the final in his series of systematic contributions to theology Moltmann looks ahead from the landmarks of his own theological journey He searches out the intersections of his own life with contemporary events that have kindled and impelled his theological thinking The perspective of hope is explained freshly while other basic theological themes and concepts are developed and interrelated

field in theological discussions of the past there is a renewal of interest among theologians on pneumatology today This renewal of interest has led to the formation of this work on the role of the Holy Spirit in the Protestant Systematic Theology Through highlighting the role and significance of the Holy Spirit in the whole divine action this volume contends that pneumatology is not a dull theological locus but rather an essential theological disposition relevant for today The detailed arguments found within challenge and inspire the contemporary pneumatological discussions as it relates to all the facets of theological reflection and action
