Second Best The Crisis Of The Community College:

Second Best L. Steven Zwerling,1976 **The Community College and the Good Society** Chad Hanson,2017-09-08

The community college is the largest single sector of the U S higher education network As of 2005 40 percent of newly enrolled undergraduate students attended community colleges The American two year school is a vast rapidly changing and under studied institution The aim of *The Community College and the Good Society* is to critically analyze the internal changes and external forces that shifted the focus of the two year college from the liberal arts to job training Chad Hanson raises a series of questions about what is lost or forsaken when public institutions become preoccupied with economic goals When educational institutions turn their attention toward training workers to private sector specifications Hanson argues our social and cultural lives suffer He describes the the learning college movement an ideological framework that justifies the current emphasis on vocational training In addition he explores the implications of competency based education a philosophy and method for creating curriculum with strong support among administrators and boards of trustees For more than four decades a steady stream of commentary aimed at understanding the two year school made its way into the literature on higher education In this work Hanson provides an alternative view of the community college He offers suggestions for new teaching strategies curriculum and organizational structure These changes will encourage the potential for the two year college to flourish as an institution that provides a permanent place for the arts and sciences **Community Colleges**

David Levinson,2005-03-25 The only overview of research on the uniquely American community college system which is increasingly becoming the site of entry for students seeking a higher education This new volume shows why America's community colleges increasingly find themselves at the epicenter of social conflict surrounded by unresolved questions such as In a country based on the notion of equal opportunity shouldn't all high school graduates have access to higher education Are access and excellence really compatible What is the real work of community colleges Is it to provide transfer programs for students going on to baccalaureate colleges or training workers for careers in business and industry In this comprehensive guide readers will find not only a solid grounding in the latest research on these difficult questions but also a thoughtful analysis of the social forces that gave rise to American community colleges and still shape them today

Working at the Margins Frances Julia Riemer,2012-02-01 *Working at the Margins* describes and analyzes the move from welfare rolls to paid employment of adults who were marginalized from the mainstream by race ethnicity language and economic status Frances Julia Riemer utilizes ethnographic data gathered over two years from four workplaces that employed thirty seven former welfare recipients She examines how the private sector accommodates these workers and their differences and how the workers themselves negotiate the barriers they experience The book illustrates how government policies and adult education initiatives designed ostensibly to create opportunities often reify existing inequalities

Re-visioning Community Colleges Debbie Sydow,Richard L. Alfred,2012-12-27 *Re visioning Community Colleges* traces

the development and generational evolution of community colleges explores the past success and future capacity of community colleges as disruptive innovators and analyzes this sector's unique advantages and vulnerabilities. Ultimately Sydow and Alfred presents alternative futures for community colleges as they like all sectors of higher education face rapidly changing environmental forces and conditions. Re-visioning the primary thrust of the book is the process of foresight into the shape that community colleges will likely take in the future on the basis of their growth and innovation trajectory and in response to the dramatic industry shift that is currently underway in the higher education enterprise.

Economic Inequality, Neoliberalism, and the American Community College Patrick Sullivan, 2017-05-11 This book aims to deepen public understanding of the community college and to challenge our longstanding reliance on a deficit model for defining this important, powerful, and transformative institution. Featuring a unique combination of data and research, Sullivan seeks to help redefine, update, and reshape public perception about community colleges. This book gives serious attention to student voices and includes narratives written by community college students about their experiences attending college at an open admissions institution. Sullivan examines the history of the modern community college and the economic model that is driving much of the current discussion in higher education today. Sullivan argues that the community college has done much to promote social justice and economic equality in America since the founding of the modern community college in 1947 by the Truman Commission.

Education and Sociology David Levinson, Peter Cookson, Alan Sadovnik, 2014-01-21 First Published in 2002. This single volume reference provides readers and researchers with access to details on a wide range of topics and issues in the sociology of education. Entries cover both national and international perspectives and studies as well as tackling controversial points in education today, including gender inequality, globalization, minorities, meritocracy, and more. This is a key, one-of-a-kind resource for all educational researchers and educators.

Shaping the Community College Image Steven W. Jones, 1993. In a news release from the National Council for Marketing Public Relations, community college CEOs, trustees, public relations professionals write candidly about improving the image and vitality of community colleges. Edited by Dr. Steven W. Jones, President of Philips County Community College, Helena, MT. **AR SHAPING THE COMMUNITY COLLEGE IMAGE** addresses contemporary issues facing today's two-year institutions. The book, produced in collaboration with the Association of Community College Trustees, was created in response to a growing concern about perceptions of today's community junior technical colleges. With chapters authored by experienced professionals, supporting material gathered from across the country, **SHAPING THE COMMUNITY COLLEGE IMAGE** provides information and advice for individuals and institutions. This book is a basic tool for all of us in the community college movement, writes Beverly Simone, chair of the American Association of Community Colleges, in her foreword. Its thought-provoking language provides a vehicle for reflection on strategies to assist the nation in taking the confusion and mystery out of the community college image. The book's six chapters cover defining institutional image, research, marketing roles for trustees, presidents, staff, meeting special challenges, making an institution
