prosperity has increased dramatically in the last two decades propelling the nation to a prominent position in the international community Yet China's ancient history still informs and shapes its understanding of itself in relation to the world As a highly developed and modern nation China is something of a paradox In *The Mind of Empire China's History and Modern Foreign Relations* Christopher A Ford demonstrates how China's historical awareness shapes its objectives and how the resulting national consciousness continues to influence the country's policymaking Despite its increasing prominence among modern developed nations China continues to seek guidance from a past characterized by Confucian notions of hierarchical political order and a moral geography that places China at the center of the civilized world *The Mind of Empire* describes how these attitudes have clashed with traditional Western ideals of sovereignty and international law Ford speculates about how China's legacy may continue to shape its foreign relations and offers a warning about the potential global consequences He examines major themes in China's conception of domestic and global political order describes key historical precedents and outlines the remarkable continuity of China's Sinocentric stance Expertly synthesizing historical philosophical religious and cultural analysis into a cohesive study of the Chinese worldview Ford offers revealing insights into modern China A much needed and an erudite contextualization this book will benefit immensely those interested in the history and strategic culture of China's foreign policy *The China Quarterly*

questions of how we sense and make sense of our worlds Drawing on archival research along with studies in psychology and philosophy Svobodny emphasizes the modernist contexts from which the dancer writer emerged at the end of World War I Nijinsky began his life writing a book he titled *Feeling the day after the Paris Peace Conference* opened and the same day he performed his last dance Nijinsky's *Feeling Mind* begins with the dancer on stage and concludes as he invites readers into his private room Illuminating the structure plot medium and mode of *Feeling* this study calls on readers to grapple with a paradox the more the dancer insists on his writing as a live performance the more he points to the material object that entombs it **A Mind Of One's Own** Louise Antony, Charlotte Witt, 2018-03-08 With philosophy so steeped in patriarchal tradition how is it possible for feminists to work within it In this volume 13 feminist theorists discuss whether traditional ideals of objectivity and rationality should be given a place within the committed feminist view of philosophy and the world
