The International Ambitions of Mao and Nehru Andrew

Kennedy, 2011-12-29 Why do leaders sometimes challenge rather than accept the international structures that surround their states In The International Ambitions of Mao and Nehru Andrew Kennedy answers this question through in depth studies of Chinese foreign policy under Mao Zedong and Indian foreign policy under Jawaharlal Nehru Drawing on international relations theory and psychological research Kennedy offers a new theoretical explanation for bold leadership in foreign policy one that stresses the beliefs that leaders develop about the national efficacy of their states He shows how this approach illuminates several of Mao and Nehru s most important military and diplomatic decisions drawing on archival evidence and primary source materials from China India the United States and the United Kingdom A rare blend of theoretical innovation

Politics of the 'Other' in India and China Lion Koenig, Bidisha Chaudhuri, 2016-02-22 The social sciences have been heavily influenced by modernization theory focusing on issues of economic growth political development and social change in order to develop a predictive model of linear progress for developing countries following a Western prototype Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the West and the rest us and them and self and other Proposing to shift the discussion on what constitutes the Other as opposed to the Self from philosophy and cultural studies to the social sciences this book explores how the structural asymmetries existing between Western discourses and the realities of the non Western world manifest themselves in the ideas institutions and socio political practices of India and China and in how far they shape the social scientist's understanding of their discipline in general It provides a counter narrative by revealing the relativity of geographies and by showing that the conventional presentation of core elements of the Asian socio political set up as aberrations from the Western models fails to acknowledge their inherent strategic character of adapting Western concepts to meet local requirements Drawing on multiple disciplines concepts and contexts in India and China the book makes a valuable contribution to the theory and practice of politics as well as to International and Asian Studies

Revolution in the Highlands Stephen C. Averill, 2006-11-06 This extensively researched and elegantly written study offers a fine grained analysis of the origins of the Chinese Communist Revolution in the countryside Building on decades of research in newly available sources and multiple trips to Jiangxi Stephen Averill provides a definitive local perspective on the rise of a revolution that reshaped China and the world A rich work of social history it goes beyond recently popular organizational approaches to explore the ways in which the party and social networks interpenetrated and interacted in the early stages of revolutionary base building The Jinggangshan highlands provided the base for Mao Zedong s first efforts at rural revolution Chinese histories and most Western accounts have focused on the heroic exploits of Mao and his Communist Party comrades battling the natural elements hostile military forces and skeptical authorities in the urban based Communist Central Committee This long awaited work penetrates the hagiographic haze of Mao centered analysis to provide a close narrative and rich social history of the Jinggangshan base The author explores the historical patterns of local strongman rule clientelist politics lineage conflict and ethnic struggle within which the party competed for power Through this multifaceted lens the revolutionary experience in Jinggangshan is equally dramatic but considerably more sobering than
