Salyer, 2018-10-15 In 1867 forty Irish Americans sailed for Ireland to fight against British rule Claiming that emigrants to America remained British citizens authorities arrested the men for treason sparking a crisis and trial that dragged the U S and Britain to the brink of war Lucy Salyer recounts this gripping tale a prelude to today's immigration battles

Famines in European Economic History Declan Curran, Lubomyr Luciuk, Andrew G. Newby, 2015-04-24 This volume explores economic social and political dimensions of three catastrophic famines which struck mid nineteenth and early twentieth century Europe the Irish Famine An Gorta Mór of 1845-1850 the Finnish Famine Suuret Nälkävuodet of the 1860s and the Ukrainian Famine Holodomor of 1932-1933 In addition to providing new insights into these events on international national and regional scales this volume contributes to an increased comparative historiography in historical famine studies The parallel studies presented in this book challenge and enhance established understandings of famine tragedies including famine causation and culpability social and regional famine vulnerabilities core periphery relationships between nations and regions degrees of national autonomy and self sufficiency as well as famine memory and identity

Famines in European Economic History advocates that the impact and long term consequences of famine for a nation should be understood in the context of evolving geopolitical relations that extend beyond its borders Furthermore regional structures within a nation can lead to unevenness in both the severity of the immediate famine crisis and the post famine recovery This book will be of interest to those in the fields of economic history European history and economic geography

Meagher,2023-11-07 The origins and evolution of Irish American identity from colonial times through the twentieth century As millions of Irish immigrants and their descendants created community in the United States over the centuries they neither remained Irish nor simply became American Instead they created a culture and defined an identity that was unique to their circumstances a new people that they would continually reinvent Irish Americans Historian Timothy J Meagher traces the Irish American experience from the first Irishman to step ashore at Roanoke in 1585 to John F Kennedy s election as president in 1960 As he chronicles how Irish American culture evolved Meagher looks at how various groups adapted and thrived Protestants and Catholics immigrants and American born those located in different geographic corners of the country He describes how Irish Americans made a living where they worshiped and when they married and how Irish American politicians found particular success from ward bosses on the streets of New York Boston and Chicago to the presidency In this sweeping history Meagher reveals how the Irish American identity was forged how it has transformed and how it has held lasting influence on American culture **Governing Hibernia** K. Theodore Hoppen,2016-08-18 The Anglo Irish Union

of 1800 which established the United Kingdom of Great Britain and Ireland made British ministers in London more directly responsible for Irish affairs than had previously been the case The Act did not however provide for full integration and left in existence a separate administration in Dublin under a Viceroy and a Chief Secretary This created tensions that were never resolved The relationship that ensued has generally been interpreted in terms of colonialism or post colonialism concepts not without their problems in relation to a country so geographically close to Britain and indeed so closely connected constitutionally *Governing Hibernia* seeks to examine the Union relationship from a new and different perspective In particular it argues that London s policies towards Ireland in the period between the Union and the Anglo Irish Treaty of 1921 oscillated sharply At times the policies were based on a view of an Ireland so distant different and violent that regardless of promises made in 1800 its government demanded peculiarly Hibernian policies of a coercive kind c 1800 1830

at others they were based on the premise that stability was best achieved by a broadly assimilationist approach in effect attempting to make Ireland more like Britain c 1830 1868 and finally they made a return to policies of differentiation though in less coercive ways than had been the case in the decades immediately after the Union c 1868 1921 The outcome of this last policy of differentiation was a disposition ultimately common to both of the main British political parties to grant greater measures of devolution and ultimately independence a development finally rendered viable by the implementation of Irish partition in 1921 2
