

Martials Tudor Verse

Bernard Sheehan

Martials Tudor Verse:

The Complete Soldier David R. Lawrence, 2009 The period 1603-1645 witnessed the publication of more than ninety books, manuals and broadsheets dedicated to educating Englishmen in the military arts. Written with the intention of creating the a complete soldier, this didactic literature provided gentlemen with the requisite knowledge to engage in infantry, cavalry and siege warfare. Drawing on military history and book history, this is the first detailed study of the impact of military books on military practice in Jacobean and Caroline England. Putting military books firmly in the hands of soldiers, this work examines the circles that purchased and debated new titles, the veterans who authored them and their influence on military thought and training in the years leading up to the English Civil War.

Milton and the Martial Muse James A. Freeman, 2014-07-14 Combining historical scholarship with literary criticism, James Freeman provides a comprehensive study of the pro-war tradition that dominated Renaissance thought and of John Milton's rejection of that tradition in *Paradise Lost*. Originally published in 1981, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Representing War and Violence Joanna Bellis, Laura Slater, 2016 An examination of written and other responses to conflict in a variety of forms and genres from the thirteenth to the seventeenth century. War and violence took many forms in medieval and early modern Europe, from political and territorial conflict to judicial and social spectacle, from religious persecution and crusade to self-mortification and martyrdom, from comedic brutality to civil and domestic aggression. Various cultural frameworks conditioned both the acceptance of these forms of violence and the protest that they met with the elusive concept of chivalry, Christianity and just war theory, political ambition and the machinery of propaganda, literary genres and the expectations they generated and challenged. The essays here, from the disciplines of history, art history and literature, explore how violence and conflict were documented, depicted, narrated and debated during this period. They consider manuals created for and addressed directly to kings and aristocratic patrons, romances whose affective treatments of violence invited profoundly empathetic even troublingly pleasurable responses, diaries and autobiographies compiled on the field and redacted for publication and self-promotion. The ethics and aesthetics of representation as much as the violence being represented emerge as a profound and constant theme for writers and artists grappling with this most fundamental and difficult topic of human experience.

JOANNA BELLIS is the Fitzjames Research Fellow in Old and Middle English at Merton College, Oxford. LAURA SLATER holds a Postdoctoral Fellowship from The Paul Mellon Centre for Studies in British Art in London. Contributors: Anne Baden, Daintree, Anne Curry, David Grummitt, Richard W. Kaeuper, Andrew Lynch, Christina Normore, Laura Slater, Sara V. Torres, Matthew Woodcock.

Romanticism and the Biopolitics of Modern War Writing Neil Ramsey, 2023-02-23 This book illuminates the genesis and development of modern war writing in relation to Romanticism biopolitics and disciplinary theory

Renaissance War Studies J. R. Hale, 1983-01-01 Beginning with the chapters on warfare in the first three volumes of the New Cambridge Modern History Sir John Hale's writings on the subject present an original and rich assessment of war's place in Renaissance life and thought The first section of this collection constitutes a major contribution to the study of Renaissance fortifications their design planning and execution and their political as well as their military significance The second deals with the recruitment and training of officers and men In the third contemporary reactions to war are analysed in a variety of social and intellectual contexts The archival and literary sources drawn on are primarily Italian in the second place English but the imaginative scene is that of western Europe as a whole

This Seat of Mars Charles Carlton, 2011-11-22 Shakespeare was not exaggerating when he defined being a soldier as one of the seven ages of man Over the early modern period many millions of young men from the four corners of the present United Kingdom went to war often and most bloodily against each other The almost continuous fighting on land and sea for the two and one half centuries between Bosworth and Culloden decimated lives but created the British state and forged the nation as the world's predominant power In this innovative and moving book Charles Carlton explores the glorious and terrible impact of war at the national and individual levels Chapters alternate providing a robust military and political narrative interlaced with accounts illuminating the personal experience of war from recruitment to the end of battle in discharge or death Carlton expertly charts the remarkable military developments over the period as well as war's enduring corollaries camaraderie courage fear and grief to give a powerful account of the profound effect of war on the British Isles and its peoples

War Literature And The Arts In Sixteenth-Century Europe Margaret Shewring, J R Mulryne, 2016-07-05

Swearing and Perjury in Shakespeare's Plays Frances A Shirley, 2013-09-13 First published in 1979 How do the elements of swearing and perjury work in Shakespeare's plays What effect did Shakespeare intend when he wrote them How did they contribute to the delineation of character These questions are investigated by combining a history of ideas approach with close textual analysis The book begins by bringing together material from a wide range of contemporary sources in order to create a sense of popular awareness of oaths in Queen Elizabeth's time Out of this emerges a scale of the relative strength of various oaths an awareness of the ways in which people regarded perjury and an appreciation of the attempts to prohibit profanity Shakespeare's work is then examined against this background

Savagism and Civility Bernard Sheehan, 1980-03-31 When the English settlers arrived in Virginia in 1607 they carried with them a fully developed mythology about native Indian cultures This mythology was built around the body of English writing about America that began to appear in the 1550s prior to any significant contact between the English and the native groups and was founded upon the assumption of the savagism of the Indian and the civility of European culture Professor Sheehan argues that English commitment to this myth was at the root of the violence that broke out almost

immediately between the settlers and the Indians On the one hand the Indians were seen as noble savages free from and innocent of the deficiencies of European society But as ignoble savages they were seen as immature even bestial lacking the civilising and ordering social structure that characterised European culture Whichever perspective was adopted this mythology was a product of the white man s world developed without accurate information about Indian culture This mythology justified both the exploitation that came to characterise settler native relations and the inevitability of the violence that culminated in the massacre of 1622

Certain Discourses Military John Smythe,1964 The most controversial English military work of its time Smyth s outspoken criticism of the English expedition to the Low countries his disillusionment with sixteenth century methods of war and his concept of the ideal army are at once a celebration of and an indictment of the character of militant England

Negotiating the Jacobean Printed Book Pete Langman,2016-12-05 By examining the spaces where authors printers and readers interact *Negotiating the Jacobean Printed Book* highlights the manner in which contemporary culture and canon not only co existed but mutually nourished and affected one another An international group of book history scholars look beyond the traditional literary and canonical texts to explore amongst other things the physical nature of books and their place in Jacobean society The contributors interrogate not just the texts themselves but the habits proclamations letters and problems encountered by authors printers and readers Ranging from the funding of perhaps the most important book of the early Jacobean period the 1611 AV Bible and the ways in which it changed the balance of power in the King s Printers to how the importation of Continental drill manuals by professional soldiers influenced the Privy council the essays focus on the fissures which open up between practice and proclamation between manuscript and press and between print and parliament Together these essays nuance our understanding of how print culture affected and was affected by wider cultural concerns the volume constitutes a compelling contribution to both literary and historical studies of early modern England

Aspects of Violence in Renaissance Europe Jonathan Davies,2016-04-08 Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field The early modern period is particularly ripe for further investigation because of the pervasiveness of violence Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these

essays reveal what it meant in particular places and at particular times **Shakespeare's Military Language** Charles Edelman, 2004-01-01 Shakespeare's Military Language A Dictionary is a comprehensive reference guide to Shakespeare's use of military language customs and ideas More than just a book of definitions an A Z of nearly 300 entries provides a comprehensive account of Shakespeare's portrayal of military life tactics and technology and explores how the plays comment upon military incidents and personalities of the Elizabethan era and how warfare was presented on the Elizabethan stage Warfare is everywhere in Shakespeare and the military action in many of Shakespeare's plays and the military imagery in all his plays and poems show that he possessed an extraordinarily detailed knowledge of warfare both ancient and modern Shakespeare's Military Language is an ideal guide to Shakespeare's military references for students of Shakespeare at every level **Aspects of Violence in Renaissance Europe** Dr Jonathan Davies, 2013-09-28 Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field The early modern period is particularly ripe for further investigation because of the pervasiveness of violence Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times Agents Beyond the State Mark Netzloff, 2020-11-19 Agents beyond the State examines the literary and social practices of early modern governance focusing on the writings of the state's extraterritorial representatives Netzloff analyzes the literary production of three groups of extraterritorial agents travelers and intelligence agents mercenaries and diplomats **Surveillance, Militarism and Drama in the Elizabethan Era** C. Bright, 1996-11-07 Curtis Bright challenges the view that Renaissance English rulers could not dominate their domestic population He argues alternatively that the Elizabethan state was controlled by the Cecilian faction which maintained power by focusing English energies outwardly Cecilians launched relentless assaults by land and sea against England's neighbours By the 1590s their policies had enriched a few yet destroyed countless people and this book reads the drama of Christopher Marlowe and William Shakespeare in relation to ongoing national and international conflict 1590s Drama and Militarism Nina Taunton, 2017-03-02 1590s Drama and Militarism is a fascinating interdisciplinary study of various textual interventions into the military realities of the late Elizabethan period Its major strength is its insistence on the discursive nature of

militarism and the author convincingly uses literary and non literary texts including manuals and contemporary military correspondence to reconstruct the particular anxieties which surrounded the military exigencies of the 1590s a particularly fraught and unstable period of the aging queen s reign The literature of the art of war has been little studied by literary scholars despite their richly rhetorical nature Dr Taunton s analysis thus brings to light a neglected but culturally significant form of Renaissance textuality In doing so she is able to shed new light on the Renaissance drama which she shows to have responded sensitively and sometimes critically to these textual constructions of actual warfare and problematised the anxious idealisations of the military manuals The particular readings of plays here are richly rewarding for the scholar of Renaissance drama the significance of Henry s nocturnal surveillance of his own camp on the eve of the battle of Agincourt for example benefits immeasurably from being contextualised in the light of contemporary theories of encampment The role of the women in Tamburlaine s camp in Marlowe s plays is also given particular significance when viewed in the light of the contemporary proscriptions regarding the presence of women in camps during the military campaigns in the Low Countries In this study Dr Taunton makes appropriate and critically inflected use of Foucault s theories of surveillance Lefebvre s theories about the ideological production of social space and Michel de Certeau s theories of social practice are put to good use in her analysis of military strategy These theoretical perspectives are usefully combined with highly specific and well documented historical analyses

Shakespeare and Technology A. Cohen,2016-04-30 By reading the plays in technological contexts Cohen offers new insights into some of Shakespeare s key metaphors his methods of character development and plot development his ideas about genre his concept of theatrical space and his views on the theatre s role in society

The Duel in European History Victor Kiernan,2016-07-15 For centuries duelling played an integral role in the preservation of the aristocratic order in Europe defying attempts by both church and state to ban the practice Moreover the romance and drama of the duel has made it an enduring fixture in films literature and the theatre In *The Duel in European History* renowned historian Victor Kiernan writes with his characteristic wit and insight of duelling s evolution from its medieval origins when it was regarded as a badge of rank to the early twentieth century by which time it was seen as an irrational anachronism In doing so he shows how the duelling tradition was something unique to Europe and its colonies and in its contribution to the development of the officer corps played a key part in shaping European military power Drawing on a vast range of historical and cultural sources this is the definitive account of a violent ritual that continues to fascinate even today

Shakespeare's Military World Paul A. Jorgensen,2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973

Whispering the Strategies of Language: An Mental Quest through **Martials Tudor Verse**

In a digitally-driven world wherever displays reign great and instant connection drowns out the subtleties of language, the profound secrets and emotional nuances concealed within phrases often go unheard. Yet, set within the pages of **Martials Tudor Verse** a captivating fictional prize pulsating with raw emotions, lies an extraordinary quest waiting to be undertaken. Written by a talented wordsmith, that enchanting opus encourages visitors on an introspective journey, delicately unraveling the veiled truths and profound influence resonating within ab muscles cloth of each word. Within the psychological depths of this poignant evaluation, we can embark upon a heartfelt exploration of the book is core styles, dissect their fascinating publishing style, and yield to the strong resonance it evokes strong within the recesses of readers hearts.
