**Power, Politics, and Principles** Taylor Hollander, 2018-06-12 Set against the backdrop of the U.S. experience Power Politics and Principles uses a transnational perspective to understand the passage and long term implications of a pivotal labour law in Canada Utilizing a wide array of primary materials and secondary sources Hollander gets to the root of the policy making process revealing how the making of P.C. 1003 in 1944 a wartime order that forced employers to the collective bargaining table involved real people with conflicting personalities and competing agendas Each chapter of Power Politics and Principles begins with a quasi-fictional vignette to help the reader visualize historical context Hollander pays particular attention to the central role that Mackenzie King played in the creation of P.C. 1003 Although most scholars describe the Prime Minister's approach to policy decisions as calculating and opportunistic Power Politics and Principles argues that Mackenzie King's adherence to moderate principles resulted in a less hostile legal environment in Canada for workers and their unions in the long run than a more far-reaching collective bargaining law in the United States

relations between government and business in Canada during a period of transition between the established expectations of the National Policy and the uncertain future of the twentieth century Don Nerbas tells this fascinating story through close portraits of influential business and political figures of this period including Howard P Robinson Charles Dunning Sir Edward Beatty R S McLaughlin and C D Howe that provide insight into how events in different sectors of the economy and regions of the country shaped the political outlook and strategies of the country's business elite Drawing on business political social and cultural history Nerbas revises standard accounts of government business relations in this period and sheds new light on the challenges facing big business in early twentieth century Canada
