Translations of Responsibility Thomas Völker,Rasmus Slaattelid,Roger Strand,2023-12-21 In 2020 a group of European researchers got a European Union EU grant to do a project called TRANSFORM The objective of TRANSFORM was to integrate the principle of responsible research and innovation RRI into the research and innovation policies of three European regions Lombardy Brussels and Catalonia This book tells the story of how TRANSFORM translated RRI into practice all the way from philosophy of technology to EU policy jargon to the project contract and finally into the real life events in these regions Responsibility was translated in creative ways with surprising goals and ambiguous outcomes Armed with these stories the book analyses the broader context of the desire for better governance of technoscience and draws two lessons Firstly that there is more governance than one may see at first sight and secondly that there is a need to rethink the borders of technoscience and the spaces in which it resides The book proposes to think of governance in technoscience rather than governance of technoscience The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Lifting**
