Cultures in Late Socialist Hungary and Croatia Réka Krizmanics,2024-01-08 Historical Knowledge Production Cultures in Late Socialist Hungary and Croatia Expertise Unsettled offers a comparative study and analysis from the Hungarian case and integrating academic party and popular historiography into a single analytical framework Narratives concerning the history of the interwar period and the Second World War and circumstances of their elaboration are at the forefront of this study R ka Krizmanics argues that even within state socialist Eastern Europe different enabling and restrictive factors were at play and investigates the specificities of late socialism while embedding them in the context of their interwar Stalinist and post Stalinist legacies Expertise Unsettled refers to the growing peril of historians who proved to be often divided among themselves and were increasingly on the defense as a guild when literature cinema and interested non professionals got involved in making and criticizing narratives of the recent past Party history and party historians have been often sidelined in intellectual history but the author argues that their inclusion is crucial both for a more complex understanding of what late state socialism meant for historians and to historicize practices of contemporary post socialist especially illiberal memory regimes **Ideology and Economics** Joan Hoff,1974 Hoff discusses the complications and contradictions between the political ideologies and economic interests of American administrations in regard to relations with the Soviet Union following

World War I **The Oxford Handbook of European History, 1914-1945** Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history. Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards, the era was dominated by political violence and chronic instability. Its symbols were Verdun, Guernica, and Auschwitz. By the end of this dark period, tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized. If the nineteenth century gave Europeans cause to regard the future with a sense of optimism, the early twentieth century had them anticipating the destruction of civilization. The fact that so many revolutions, regime changes, dictatorships, mass killings, and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis. The Oxford Handbook of European History, 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective. It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional, continental, and global developments. Readers will find innovative and stimulating chapters on various political, social, and economic subjects by some of the leading scholars working on modern European history today. East European Accessions Index, 1960 **Central European Crossroads** Pieter C. van Duin, 2009-05-01 During the four decades of the communist regime in Czechoslovakia, a vast literature on working class movements has been produced, but it has hardly any value for today's scholarship. This remarkable study reopens the field. Based on Czech, Slovak, German, and other sources, it focuses on the history of the multi-ethnic social democratic labor movement in Slovakia's capital Bratislava during the period 1867-1921 and on the process of national revolution during the years 1918-19, in particular. The study places the historic change of the former Pressburg into the modern Bratislava in the broader context of the development of multinational pre-1918 Hungary, the evolution of social, ethnic, and political relations in multi-ethnic Pressburg, a tri-national city of Germans, Magyars, and Slovaks, and the development of the multinational labor movement in Hungary and the Habsburg Empire as a whole. *Russia* Yegor Gaidar, 2012-11-02 An important Russian economist and politician takes a long view of economic history and Russia's development. It is not so easy to take the long view of socioeconomic history when you are participating in a revolution. For that reason, Russian economist Yegor Gaidar put aside an early version of this work to take up a series of government positions as Minister of Finance and as Boris Yeltsin's acting Prime Minister in the early 1990s. In government, Gaidar shepherded Russia through its transition to a market economy after years of socialism. Once out of government, Gaidar turned again to his consideration of Russia's economic history and long-term economic and political challenges. This book, revised and updated shortly before his death in 2009, is the result. Gaidar's account of long-term socioeconomic trends puts his country in historical context and outlines problems faced by Russia and other developing economies that more developed countries have already encountered: aging population, migration, evolution of the system of social protection, changes in the armed forces, and balancing stability and flexibility in

democratic institutions This is not a memoir but Gaidar points out neither is it written from the position of a man who spent his entire life in a research institute Gaidar's long view is inevitably informed and enriched by his experience in government at a watershed moment in history *East European Accessions List* Library of Congress. Processing Department, 1954

Profit, Risk and Incentives under Socialist Economic Planning J. Wilczynski, 1973-06-18 *From Lenin to Castro, 1917-1959* Mervyn J. Bain, 2013-05-09 This book addresses the relationship between Moscow and Havana in the period between the Russian and Cuban Revolutions i.e. from November 1917 to January 1959 It analyzes the reasons why in this era before the Cuban Revolution which is traditionally thought to have ignited Moscow's interest in the Caribbean island a relationship existed between the two countries at a variety of different levels In order to do this both the attention that the Third International or Comintern gave to Cuba as well as Moscow's formal state to state relations with Havana are examined In addition United States policy towards both socialism and the Soviet Union are analyzed due to the role that Washington played in Cuba prior to the Cuban Revolution Following this an examination of the events process and dynamics that characterized the nature of the relationship between Moscow and Havana from 1917 to 1959 will be conducted A number of conclusions will be given but the primary one is that prior to January 1959 the Kremlin took considerable interest in Cuba and did not suffer from geographical fatalism as has traditionally been thought This is significant in itself but also in light of the relationship that rapidly developed between Moscow and Havana in the aftermath of the Cuban Revolution as a number of factors that were important in the pre 1959 relationship would also be significant after 1959 Furthermore this analysis is also important for the contemporary bilateral relationship between Russia and Cuba as both governments have made increasing reference to the multifaceted relationship that existed prior to 1959
