Susanna Hast,2016-04-01 Current events happening around the world especially the humanitarian interventions by NATO and the West within the context of the so called Arab Spring make the understanding of the role of spheres of influence in international politics absolutely critical Hast explores the practical implications and applications of this theory challenging the concept by using historical examples such as suzerainty and colonialism as well as the emergence of a hierarchical international order This study further connects the English School tradition post war international order the Cold War and images of Russia with the concept of the sphere of influence to initiate debate and provide a fresh outlook on a concept which has little recent attention

**Constructing Cause in International Relations** Richard Ned Lebow, 2014-02-20 Cause is a problematic concept in social science as in all fields of knowledge We organise information in terms of cause and effect to impose order on the world but this can impede a more sophisticated understanding In his latest

book Richard Ned Lebow reviews understandings of cause in physics and philosophy and concludes that no formulation is logically defensible and universal in its coverage This is because cause is not a feature of the world but a cognitive shorthand we use to make sense of it In practice causal inference is always rhetorical and must accordingly be judged on grounds of practicality Lebow offers a new approach inefficient causation that is constructivist in its emphasis on the reasons people have for acting as they do but turns to other approaches to understand the aggregation of their behaviour This novel approach builds on general understandings and idiosyncratic features of context Routledge Handbook of Ethics and International Relations Brent J. Steele, Eric Heinze, 2018-06-14 Ethics and International Relations IR once considered along the margins of the IR field has emerged as one of the most eclectic and interdisciplinary research areas today Yet the same diversity that enriches this field also makes it a difficult one to characterize Is it or should it only be the social scientific pursuit of explaining and understanding how ethics influences the behaviours of actors in international relations Or should it be a field characterized by what the world should be like based on philosophical normative and policy based arguments This Handbook suggests that it can actually be both as the contributions contained therein demonstrate how those two conceptions of Ethics and International Relations are inherently linked Seeking to both provide an overview of the field and to drive debates forward this Handbook is framed by an opening chapter providing a concise and accessible overview of the complex history of the field of Ethics and IR and a conclusion that discusses how the field may progress in the future and what subjects are likely to rise to prominence Within are 44 distinct and original contributions from scholars teaching and researching in the field which are structured around 8 key thematic sections Philosophical Resources International Relations Theory Religious Traditions International Security and Just War Justice Rights and Global Governance International Intervention Global Economics Environment Health and Migration Drawing together a diverse range of scholars the Routledge Handbook of Ethics and International Relations provides a cutting edge overview of the field by bringing together these eclectic albeit dynamic themes and topics It will be an essential resource for students and scholars alike **Nta Ugc Net/Jrf/Set Paper Ii Geography 28 Solved Papers (2012-2021)** Team Prabhat, 2022-05-02 Type of Book 2022 Edition NTA UGC NET JRF SET Paper II Geography Subject NTA UGC NET JRF SET Geography Paper 2 Index Cover 28 Solved Papers December 2012 to 2021 1900 Solved Questions with Answers for Practice Qualities Easy Understandable for Preparation Complete syllabus accommodated with all the recent changes Based On Recently Updated Syllabus Latest Solved Papers Include NTA UGC NET JRF SET Paper II Geography 28 Solved Papers 2012 2021 by Team Prabhat This book is designed to help candidates prepare for the National Testing Agency NTA UGC NET JRF SET Paper II Geography exam The book includes 28 solved papers from 2012 2021 along with detailed explanations and solutions With its comprehensive coverage and extensive practice material the book is an essential resource for anyone looking to pass the NTA UGC NET JRF SET Paper II Geography exam Key Aspects of the Book NTA UGC NET JRF SET Paper II Geography 28 Solved Papers 2012
