Leopard in the Middle of the Road Darryl Jones, 2022-05-15 A Clouded Leopard in the Middle of the Road is an eye opening introduction to the ecological impacts of roads Drawing on over ten years of active engagement in the field of road ecology Darryl Jones sheds light on the challenges roads pose to wildlife and the solutions taken to address them One of the most ubiquitous indicators of human activity roads typically promise development and prosperity Yet they carry with them the threat of disruption to both human and animal lives Jones surveys the myriad innovative ways stakeholders across the

world have sought to reduce animal vehicle collisions and minimize road crossing risks for wildlife including efforts undertaken at the famed fauna overpasses of Banff National Park the Singapore Eco Link tunnels of love in the Australian Alps and others Along the way he acquaints readers with concepts and research in road ecology describing the field's origins and future directions Engaging and accessible *A Clouded Leopard in the Middle of the Road* brings to the foreground an often overlooked facet of humanity's footprint on earth

American Road Narratives Ann Brigham, 2015-06-29 The freedom to go anywhere and become anyone has profoundly shaped our national psyche Transforming our sense of place and identity whether in terms of social and economic status or race and ethnicity or gender and sexuality American mobility is perhaps nowhere more vividly captured than in the image of the open road From pioneer trails to the latest car commercial the road looms large as a form of expansiveness and opportunity Too often it is the celebratory idea of the road as a free floating zone moving the traveler beyond the typical concerns of space and time that dominates the discussion Rather than thinking of mobility as an escape from cultural tensions however Ann Brigham proposes that we understand mobility as a mode of engagement with them She explores the genre of road narratives to show how mobility both thrives on and attempts to manage shifting conflicts about space and society in the United States From the earliest transcontinental automobile narratives from the 1910s through classics like Jack Kerouac's *On the Road* and the film *Thelma Louise* up to post 9/11 narratives Brigham traces the ways in which mobility has been imagined created and interrogated over the past century and shows how mobility promises and threatens to incorporate the outsider and to blur boundaries Bringing together textual and cultural analysis theories of spatiality and sociohistorical frameworks this book offers an invigoratingly different view of mobility and a new understanding of the road narrative's importance in American culture Choice Outstanding Academic Title from American Library Association
