they were named How they act is something else entirely They climb onto each other s shoulders four deep to frighten enemies They test friendship by sticking their fingers up one another s noses They often nurse but sometimes kill each other s offspring They use sex as a means of communicating And they negotiate a remarkably intricate network of alliances simian politics and social intrigue Not monkish perhaps but as we see in this downright ethnographic account of the capuchins of Lomas Barbudal their world is as complex ritualistic and structured as any society Manipulative Monkeys takes us into a Costa Rican forest teeming with simian drama where since 1990 primatologists Susan Perry and Joseph H Manson have followed the lives of four generations of capuchins What the authors describe is behavior as entertaining and occasionally as alarming as it is recognizable the competition and cooperation the jockeying for position and status the peaceful years under an alpha male devolving into bloody chaos and the complex traditions passed from one generation to the next Interspersed with their observations of the monkeys lives are the authors colorful tales of the challenges of tropical fieldwork a mixture so rich that by the book s end we know what it is to be a wild capuchin monkey or a field primatologist And we are left with a clear sense of the importance of these endangered monkeys for understanding human behavioral evolution     The Scopes Monkey Trial Samuel Willard Crompton,2010 After the passage of the Butler Act which made it unlawful for a state funded school in Tennessee to teach that humans evolved from lower organisms 24 year old high school teacher John Scopes intentionally violated the law Arrested and charged on May 5 1925 Scopes became the centerpiece in a trial that pitted two of the finest legal minds of the time against one another Prosecutor William Jennings Bryan s participation in the trial served as the capstone to his prior unsuccessful advocacy to cut off funds to schools that taught evolution Prominent trial attorney Clarence Darrow an agnostic spoke for the defense This case which was the first to be broadcast via radio was a critical turning point in the creation vs evolution controversy that continues today The Scopes Monkey Trial has since been fictionalized in a play a film and three television films all called Inherit the Wind The Scopes Monkey Trial Debate over Evolution explains how this pivotal court case shaped the way evolution and creationism are approached in classrooms
