## On The Way To Jerusalem:

Understanding the Social World of the New Testament Dietmar Neufeld, Richard DeMaris, 2009-10-29 The New Testament is a book of great significance in Western culture yet is often inaccessible to students because the modern world differs so significantly from the ancient Mediterranean one in which it was written. It is imperative to develop a cross cultural understanding of the values of the ancient Mediterranean society from which the New Testament arose in order to fully appreciate the documents and the communities that they represent. Dietmar Neufeld and Richard E DeMaris bring together biblical scholars with expertise in the social sciences to develop interpretative models for understanding such values as collectivism, kinship, memory, ethnicity and honour and to demonstrate how to apply these models to the New Testament texts. Kinship is illuminated by analysis of the Holy Family as well as to early Christian organisations, gender through a study of Paul's view of women and landscape and spatiality through a discussion of Jesus of Nazareth. This book is the ideal companion to study of the New Testament.

The City of Jerusalem Dr. Meir Margalit, 2020-02-21 The author writes from the experience of thirty years working in the Jerusalem municipality including 21 years as a public official and ten years as an elected councilor representing the left wing Meretz party. This book is born from an urgent need to understand the mechanisms articulating the city in which I live, which I love and for which I suffer. I am from Jerusalem. I could not live in another city and the barbarities my government is perpetrating on the Palestinian parts of the city do not allow me to remain quiet. Through this book I engage with the prevailing model of power and repression and the neo colonial system that expresses its perverse functioning. This book is centered on the political and economic mechanisms practiced by Israel in East Jerusalem over the last decade. These mechanisms reinforce the occupation and keep Jerusalem's Palestinians subjugated through co-optation into the Israeli system. Analysis is centered on the changes wrought during the mayoralty of Nir Barkat 2008-2018 who came into politics from the business world and introduced management concepts to the workings of municipal government. While Barkat succeeded in creating the illusion of a new era in eastern Jerusalem, the result is heartbreaking displacement and vulnerability toward East Jerusalem's residents and the application of urban planning that impacts negatively on residents' legal status.

The City of Jerusalem: The Israeli Occupation and Municipal Subjugation of Palestinian Jerusalemites is a profound sociological and economic analysis of a city under a normalised occupation which has destroyed the very essence of what Jerusalem stands for: a reflection of diverse religious belief within a multicultural setting where citizens' rights are upheld and not discriminated against for political purpose.
