On Wing and Wild Water Mike Tomkies,1987 **Bulletin** ,1925 **A Last Wild Place** Mike Tomkies,2021-05-26
When Mike Tomkies moved to a remote cottage on the shores of Loch Shiel in the West Highlands of Scotland he found a place which was to provide him with the most profound wilderness experience of his life Accessible only by boat the cottage he renamed Wildnesse was to be his home for many years which he shared with his beloved German Shepherd Moobli Centred on different landscape elements loch woodlands and mountains Tomkies describes the whole cycle of nature through the seasons in a harsh and testing environment of unrivalled beauty Vivid colours and sounds fill the pages exotic wild orchids the roar of rutting stags the territorial movements of foxes otters and badgers an oak tree being torn apart by hurricane force gales Nothing escapes his penetrating eye His extraordinary insights into the wildlife that shared his otherwise empty territory were not gained without perseverance in the face of perilous hazards and the difficulties and challenges of life in the wilderness are a key part of this remarkable book [Life Histories of North American Wild Fowl](#)

to the study of eagles to provide an insider's view for all readers but especially those who have never been up close and personal with these magnificent yet often misunderstood creatures. In their stories, twenty-nine leading eagle researchers share their remarkable field experiences, providing personal narratives that don't feature in their scientific publications. They tell of their fear at being stalked by grizzly bears, their surprise at being followed by the secret police, their embarrassment when accidentally firing mortar rockets over a school gymnasium, and their sense of awe at tracking eagles via satellite. The reader experiences the cultural shock of being guest of honor at a circumcision ceremony, the absurdity of sharing an aquatic car with the Khmer Rouge, and the sense of foreboding at being press-ganged into a frenzied tribal death march through the jungle. *The Eagle Watchers* covers twenty-four species on six continents, from well-known bald eagle, golden eagle to obscure black and chestnut eagle, New Guinea harpy eagle, and from common African fish eagle to critically endangered Philippine eagle, Madagascar fish eagle. The diverse experiences vividly described in this book reveal the passion, dedication, and sense of adventure shared by those who study these majestic birds and strive for their conservation. Featuring stunning color photographs of the eagles, information on raptor conservation, a global list of all eagle species with ranges and conservation status, and a color map of the sites visited in the book, *The Eagle Watchers* will appeal to birders, conservationists, and adventure travelers alike. To further support the conservation programs described in this book, all royalties are being donated to two leading nonprofit organizations for raptor conservation: training and fieldwork, Hawk Mountain Sanctuary Intern Program, and the National Birds of Prey Trust.
