These are studies on the reproductive rights of women sexual and domestic violence against women environmental degradation and its relation to the patriarchal model to the detriment of traditional cultures the immigration of women for marriage as a conscious choice mental health and its relation to gender issues Chapters 1 REGIONAL ECONOMIC COMMUNITIES IN HUMAN AND WOMEN S RIGHTS PROTECTION 2 WOMEN REPRODUCTIVE RIGHTS A REFLECTION ABOUT INTERNATIONAL PROTECTION OF HUMAN RIGHTS 3 WOMEN AND MENTAL HEALTH A STUDY ON ADOLESCENCY AND GENDER IN BRAZIL 4 A PROGRAM TO COMBAT HARASSMENT AGAINST WOMEN CONSIDERATION FOR IMPLEMENTATION AT THE UNIVERSITY 5 DOMESTIC AND FAMILY VIOLENCE AGAINST WOMEN IN BRAZIL IS THERE LIGHT AT THE END OF THE TUNNEL 6 ENVIRONMENTAL PATRIARCHY AND INDIGENOUS WOMEN FROM INVISIBILITY TO RESISTANCE 7 MARRIAGE EMIGRATION OF WOMEN FROM RUSSIA 8 RESERVATIONS INTERSECTIONALITY AND WOMEN S REPRESENTATION IN INDIAN POLITICS 9 FIGHTING AGAINST GENDER INEQUALITY IN PARLIAMENT CHALLENGES AND PERSPECTIVES

The embrace of narrative and life history work has accompanied the move to postmodernism and post structuralism across a wide range of disciplines sociological studies gender studies cultural studies social history literary theory and most recently psychology Written by leading international scholars from the main contributing perspectives and disciplines The Routledge International Handbook on Narrative and Life History seeks to capture the range and scope as well as the considerable complexity of the field of narrative study and life history work by situating these fields of study within the historical and contemporary context Topics covered include The historical emergences of life history and narrative study Techniques for conducting life history and narrative study Identity and politics Generational history Social and psycho social approaches to narrative history With chapters from expert contributors this volume will prove a comprehensive and authoritative resource to students researchers and educators interested in narrative theory analysis and interpretation **Reforming Arbitration Reform** Crina Baltag, Mark Feldman, 2025-02-17 Reforming Arbitration Reform Emerging Voices New Strategies and Evolving Values Edited by Crina Baltag gender diversity alleged instances of judicial overreach third party funders role of professional organizations intersections between investment law and race environmental protection and indigenous peoples role of developing states

and increasing importance of regionalism Particular attention is paid to a number of countries and regions that have been most active in reform measures including Latin America and the Caribbean the MERCOSUR and ASEAN groups the European Union Brazil and China The contributions are based on papers presented at the 20th ITA ASIL Conference which took place on 29 March 2023 in Washington DC Given that demands for arbitration reform come from very different perspectives that need to be reconciled the active engagement of key stakeholders of the arbitration process in reform projects is essential in order to ensure that reforms are meaningful and successful For this reason the book will prove of immeasurable value to both arbitration users and regulators for the in depth understanding it will impart of how emerging voices are advancing reform of the international arbitration practice area Women's International Activism during the Inter-War Period, 1919–1939 Ingrid Sharp, Matthew Stibbe, 2018-10-18 In historical writing the interwar years are often associated with the rise of extreme forms of nationalism Yet paradoxically this period also saw significant advances in the development of internationalism and international mindedness This collection examines previously under researched aspects of the role played by women s movements and individual female activists in this process Women campaigners contributed to and helped to re define what constituted international work in myriad ways For some particularly those coming from a radical pacifist background the central theme after 1919 was the eradication of war and the preservation of world peace Yet others were more interested in the sharing of medical knowledge across borders in the promotion of new causes such as physical fitness or the cultural assimilation of immigrants or in finding fresh and innovative ways of battling for old causes such as female suffrage and women s access to education It was even possible for nationalist women to use the language and practices of internationalism to further their own conservative illiberal or anti communist agendas or to argue for revision of the peace treaties of 1919 20 The volume addresses these different kinds of activism and the many links between them by way of particular examples This book was originally published as a special issue of Women's History Review International Encyclopedia of Politics and Gender Lia K. Roberts, 2025-09-02 This four volume encyclopedia set is organized to allow the reader to explore gender and politics from an updated interdisciplinary intersectional and global perspective The organization format will be an A Z approach of approximately 500 600 entries with entries ranging in word count from 1 500 3 000 words with some entries on foundational topics at around 5 000 Coverage will examine both the role gender plays within the realm of politics political participation leadership etc as well as policies that are based in gender abortion and reproductive policies transgender rights etc Foundational topics will include entries such as International Security and Gender which will introduce gender and war human trafficking gender and militarism and women and terrorism and International Relations and Gender which will introduce topics such as gender mainstreaming the Convention on the Elimination of All Forms of Discrimination Against Women CEDAW and eco feminism A Comparative Politics foundational entry will focus on research areas surrounding political representation and participation legislative processes and law such

as gender quotas gender gap in political participation and leadership intersectionality and barriers in representation and leadership Ni Unos Menos Not One Less Movement recent significant activist movements and transgender specific law Concepts connected to feminist and queer theory as applied in regional studies will also be covered For example marianismo or the connection between Catholicism and gender roles in Latin American and Latinx communities Asian American and Pacific Islander AAPI voters and political mobilization and LGBQTIA leaders and social movements will be included This encyclopedia will be essential for any undergraduate or graduate course on gender studies in gender studies programs as well as sociology political science history or other related programs disciplines gender and politics international relations and gender or area specific courses such as Gender and Latin American Politics or Gender and African Studies Histories of International Criminal Law Immi Tallgren, Thomas Skouteris, 2019-03-21 The language of international criminal law has considerable traction in global politics and much of its legitimacy is embedded in apparently axiomatic historical truths This innovative edited collection brings together some of the world's leading international lawyers with a very clear mandate in mind to re evaluate retry the dominant historiographical tradition in the field of international criminal law Carefully curated and with contributions by leading scholars The New Histories of International Criminal Law pursues three research objectives to bring to the fore the structure and function of contemporary histories of international criminal law to take issue with the consequences of these histories and to call for their demystification The essays discern several registers on which the received historiographical tradition must be retried tropology inclusions exclusions gender race representations of the victim and the perpetrator history and memory ideology and master narratives international criminal law and hegemonic theories and more This book intervenes critically in the fields of international criminal law and international legal history by bringing in new voices and fresh approaches Taken as a whole it provides a rich account of the dilemmas conundrums and possibilities entailed in writing histories of international criminal law beyond against or in the Proceedings of the 2022 6th International Seminar on Education, Management shadow of the master narrative and Social Sciences (ISEMSS 2022) Ghaffar Ali, Mehmet Cüneyt Birkök, Intakhab Alam Khan, 2023-09-16 This is an open access book The aim of 2022 6th International Seminar on Education Management and Social Sciences ISEMSS 2022 is to bring together innovative academics and industrial experts in the field of Education Management and Social Sciences to a common forum The primary goal of the conference is to promote research and developmental activities in Education Management and Social Sciences and another goal is to promote scientific information interchange between researchers developers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in Education Management and Social Sciences and related areas The Women's International Quarterly, 1912 American Federationist ,1924 Maternity Services and Policy in

an International Context Patricia Kennedy, Naonori Kodate, 2015-01-09 This book is the first comprehensive international

overview of maternity services Drawing on concepts of risk and social citizenship it explores the relationship between welfare regimes and health policy by comparing and contrasting provision for childbearing women Each substantive chapter focuses on a different country presenting detailed contextual information on health care provision maternity interventions and birth outcomes there They discuss key issues such as birth rates and fertility patterns the role of patient choice attitudes to place of birth and maternity entitlements among others and the countries covered represent diverse welfare regimes including Ireland Scotland Sweden the Netherlands Germany Italy Japan the United States Canada Australia and New Zealand An extended introduction and a conclusion draw the book together and place it in the context of the literature on comparative welfare regimes It is an important reference for students and academics interested in comparative social policy health services research and maternity services and policies The Performance of Africa's International Courts James Thuo Gathii, 2020-11-26 The performance of international courts has traditionally been judged against criteria of compliance and effectiveness Whilst these are clearly desirable objectives for litigants before Africa's international courts this book shows that we must look beyond these criteria to fully appreciate the impact of these courts This book shows how litigants use their participation in international litigation to achieve other objectives to amplify political disputes with their governments to build their movement to educate the public about their cause and to challenge the status quo Chapters in this collection show how these courts act as coordination points for opposition political parties to name and shame dominant parties for violation of their organizational rights Others demonstrate how Africa's international courts serve as transitional justice mechanisms in which truth telling about ongoing conflict and authoritarian governance receives significant attention This attention serves as a platform to galvanize resistance against continued authoritarian rule especially from outside the conflict countries Ultimately the book shows that these courts must be judged against new and broader criteria and understood as increasingly important venues for waging political social environmental and legal struggles Routledge International Encyclopedia of Women Cheris Kramarae, Dale Spender, 2004-04-16 For a full list of entries and contributors sample entries and more visit the Routledge International Encyclopedia of Women website Featuring comprehensive global coverage of women s issues and concerns from violence and sexuality to feminist theory the Routledge International Encyclopedia of Women brings the field into the new millennium In over 900 signed A Z entries from US and Europe Asia the Americas Oceania and the Middle East the women who pioneered the field from its inception collaborate with the new scholars who are shaping the future of women s studies to create the new standard work for anyone who needs information on women related subjects
